Q.100

Read the following passage and answer the question that follows it.

Scientists studied ecological systems while others formed clubs and initiated protests. These concerned people became known as conservationists, a predecessor to the modern environmentalist. Some of the earliest protests against pollution and for the conservation of natural resources and wildlife happened in the late nineteenth century.

Which of the following was not a concern of the late nineteenth century protests?

- (A) increasing pollution
- (B) growing population
- (C) conserving of natural resources
- (D) protecting wildlife
