CEN 08/2024- Various Posts in Level 1 of 7th CPC Pay Matrix

|           |                      |
|-----------|----------------------|
| Test Date | 10/02/2026           |
| Test Time | 4:30 PM - 6:00 PM    |
| Subject   | RRB Level 01 Stage I |

\* Note  
Correct Answer will carry 1 mark per Question.  
Incorrect Answer will carry 1/3 Negative mark per Question.

1. Options shown in green color with a tick icon are correct.  
2. Chosen option on the right of the question indicates the option selected by the candidate.

| Section : General Science |  |
|---------------------------|--|
| Q.1                       | An object is placed at 80 cm on the left of a convex lens of focal length 40 cm. Where should a screen be placed to right of the lens so that the image formed is real, inverted and same sized?   |
| Ans                       | <div><div><input checked="" type="checkbox"/></div><div>A. The screen should be placed at 40 cm from the lens.</div></div> <div><div><input checked="" type="checkbox"/></div><div>B. The screen should be placed 80 cm from the lens.</div></div> <div><div><input checked="" type="checkbox"/></div><div>C. The screen should be placed anywhere between 20 cm and 40 cm from the lens.</div></div> <div><div><input checked="" type="checkbox"/></div><div>D. The screen should be placed anywhere between 40 cm and 80 cm from the lens.</div></div> |
| Q.2                       | When iron filings are mixed with sulfur powder and the mixture is heated, a black substance called iron sulfide is formed. Which statement best describes the changes involved?  |
| Ans                       | <div><div><input checked="" type="checkbox"/></div><div>A. A physical change occurs as the substances are only mixed.</div></div> <div><div><input checked="" type="checkbox"/></div><div>B. A reversible physical change takes place.</div></div> <div><div><input checked="" type="checkbox"/></div><div>C. Iron dissolves in sulfur forming a solution.</div></div> <div><div><input checked="" type="checkbox"/></div><div>D. A chemical change occurs as a new substance is formed.</div></div>   |
| Q.3                       | The kinetic energy of an object of mass m moving with a velocity v is 25 J. What will be its kinetic energy when its velocity is increased three times (3v)?   |
| Ans                       | <div><div><input checked="" type="checkbox"/></div><div>A. 75 J</div></div> <div><div><input checked="" type="checkbox"/></div><div>B. 150 J</div></div> <div><div><input checked="" type="checkbox"/></div><div>C. 125 J</div></div> <div><div><input checked="" type="checkbox"/></div><div>D. 225 J</div></div>   |
| Q.4                       | The molecular mass of a compound is 63 u. If it contains one hydrogen atom and three oxygen atoms, the atomic mass of the remaining element is :   |
| Ans                       | <div><div><input checked="" type="checkbox"/></div><div>A. 16 u</div></div> <div><div><input checked="" type="checkbox"/></div><div>B. 14 u</div></div> <div><div><input checked="" type="checkbox"/></div><div>C. 32 u</div></div> <div><div><input checked="" type="checkbox"/></div><div>D. 12 u</div></div>  |
| Q.5                       | Galvanisation protects iron from rusting by coating it with a thin layer of:   |
| Ans                       | <div><div><input checked="" type="checkbox"/></div><div>A. Silver metal only</div></div> <div><div><input checked="" type="checkbox"/></div><div>B. Nickel metal only</div></div> <div><div><input checked="" type="checkbox"/></div><div>C. Copper metal only</div></div> <div><div><input checked="" type="checkbox"/></div><div>D. Zinc metal only</div></div>  |

|------|--|
| Q.6  | Which of the following devices works on Archimedes' principle?   |
| Ans  | <div><div><div>✖</div><div>A. Aneroid barometer</div></div><div><div>✔</div><div>B. Hydrometer</div></div><div><div>✖</div><div>C. Sphygmomanometer</div></div><div><div>✖</div><div>D. Altimeter</div></div></div>  |
| Q.7  | If several rays of light parallel to the principal axis are falling on a convex lens, which of the following statements is correct for the refracted ray?  |
| Ans  | <div><div><div>✔</div><div>A. They converge at a point on the opposite side of the lens.</div></div><div><div>✖</div><div>B. They meet at the infinity.</div></div><div><div>✖</div><div>C. They pass without any deviation.</div></div><div><div>✖</div><div>D. They diverge as if coming from the principal focus.</div></div></div>   |
| Q.8  | Why does the blue colour of copper sulphate solution fade when an iron nail is dipped in it?   |
| Ans  | <div><div><div>✖</div><div>A. Copper dissolves in water</div></div><div><div>✖</div><div>B. Copper sulphate decomposes</div></div><div><div>✖</div><div>C. Iron sulphate is colourless</div></div><div><div>✔</div><div>D. Copper sulphate is converted into iron sulphate</div></div></div>   |
| Q.9  | Substitution reaction involves:  |
| Ans  | <div><div><div>✖</div><div>A. Removal of atoms to form simpler molecules</div></div><div><div>✖</div><div>B. Addition of atoms to double bonded molecules</div></div><div><div>✖</div><div>C. Replacement of a carbon atom with hydrogen</div></div><div><div>✔</div><div>D. One atom or group of atoms being replaced by another</div></div></div>  |
| Q.10 | What is a necessary property of the electrolyte used during the refining of metals by electrolysis?  |
| Ans  | <div><div><div>✖</div><div>A. It must be composed of both water and a layer of neutral oil</div></div><div><div>✔</div><div>B. It must be an aqueous or molten solution of a suitable metal salt</div></div><div><div>✖</div><div>C. It must efficiently conduct heat during the electrochemical process</div></div><div><div>✖</div><div>D. It must remain completely non-reactive throughout the procedure</div></div></div> |
| Q.11 | Which trophic level represents maximum concentration of pesticides by biological magnification?  |
| Ans  | <div><div><div>✖</div><div>A. Producer</div></div><div><div>✔</div><div>B. Tertiary Consumer</div></div><div><div>✖</div><div>C. Primary Consumer</div></div><div><div>✖</div><div>D. Secondary Consumer</div></div></div>   |
| Q.12 | In a v–t graph for uniform acceleration, which of the following is NOT correct?  |
| Ans  | <div><div><div>✖</div><div>A. The slope of the v–t graph is constant.</div></div><div><div>✔</div><div>B. The v–t graph is always curved.</div></div><div><div>✖</div><div>C. Positive slope indicates acceleration.</div></div><div><div>✖</div><div>D. The area under the v–t graph gives displacement.</div></div></div>  |

|               |  |          |          |               |          |          |              |          |         |           |           |
|---------------|--|----------|----------|---------------|----------|----------|--------------|----------|---------|-----------|-----------|
| Q.13          | Match the following plants with their correct modes of seed dispersal.   |          |          |               |          |          |              |          |         |           |           |
|               | <table><tr><td>Column A</td><td>Column B</td></tr><tr><td>1. Dandelions</td><td>a. Water</td></tr><tr><td>2. Lotus</td><td>b. Explosion</td></tr><tr><td>3. Mango</td><td>c. Wind</td></tr><tr><td>4. Castor</td><td>d. Animal</td></tr></table> | Column A | Column B | 1. Dandelions | a. Water | 2. Lotus | b. Explosion | 3. Mango | c. Wind | 4. Castor | d. Animal |
| Column A      | Column B   |          |          |               |          |          |              |          |         |           |           |
| 1. Dandelions | a. Water   |          |          |               |          |          |              |          |         |           |           |
| 2. Lotus      | b. Explosion   |          |          |               |          |          |              |          |         |           |           |
| 3. Mango      | c. Wind  |          |          |               |          |          |              |          |         |           |           |
| 4. Castor     | d. Animal  |          |          |               |          |          |              |          |         |           |           |
| Ans           | <div><div>✗ A. 1 – a, 2 – d, 3 – b, 4 – c</div><div>✓ B. 1 – c, 2 – a, 3 – d, 4 – b</div><div>✗ C. 1 – c, 2 – d, 3 – a, 4 – b</div><div>✗ D. 1 – b, 2 – a, 3 – d, 4 – c</div></div>  |          |          |               |          |          |              |          |         |           |           |
| Q.14          | Which of the following factors primarily determines the size of an atom?   |          |          |               |          |          |              |          |         |           |           |
| Ans           | <div><div>✗ A. Number of neutrons</div><div>✗ B. Number of protons</div><div>✗ C. Mass of the nucleus</div><div>✓ D. Number of electrons</div></div>   |          |          |               |          |          |              |          |         |           |           |
| Q.15          | Which cell organelles in a leaf contain chlorophyll necessary for photosynthesis?  |          |          |               |          |          |              |          |         |           |           |
| Ans           | <div><div>✗ A. Mitochondria</div><div>✗ B. Nucleus</div><div>✓ C. Chloroplasts</div><div>✗ D. Vacuole</div></div>  |          |          |               |          |          |              |          |         |           |           |
| Q.16          | Which of the following changes can be regarded as part of sexual maturation in human males?  |          |          |               |          |          |              |          |         |           |           |
| Ans           | <div><div>✗ A. Increase in weight</div><div>✓ B. Cracking of voice</div><div>✗ C. Deposition of fat in hips</div><div>✗ D. Increase in height</div></div>  |          |          |               |          |          |              |          |         |           |           |
| Q.17          | Which of the following represents a similarity between chloroplast and Mitochondria?   |          |          |               |          |          |              |          |         |           |           |
| Ans           | <div><div>✗ A. Both perform respiration.</div><div>✓ B. Both posses their own DNA and 70S Ribosome.</div><div>✗ C. Both have chlorophyll.</div><div>✗ D. Both perform photosynthesis.</div></div>  |          |          |               |          |          |              |          |         |           |           |
| Q.18          | If the wavelength of light is 600 nm and its speed is $3 \times 10^8$ m/s, the frequency is approximately _____.   |          |          |               |          |          |              |          |         |           |           |
| Ans           | <div><div>✗ A. <math>2 \times 10^{12}</math> Hz</div><div>✗ B. <math>3 \times 10^8</math> Hz</div><div>✗ C. <math>6 \times 10^{10}</math> Hz</div><div>✓ D. <math>5 \times 10^{14}</math> Hz</div></div>   |          |          |               |          |          |              |          |         |           |           |
| Q.19          | Which of the following acts as an olfactory indicator in acid-base reactions?  |          |          |               |          |          |              |          |         |           |           |
| Ans           | <div><div>✗ A. Methyl orange produces odour in base</div><div>✗ B. Phenolphthalein turns pink in acids</div><div>✓ C. Onion extract changes smell in bases</div><div>✗ D. Turmeric turns blue in bases</div></div>                               |          |          |               |          |          |              |          |         |           |           |

|      |   |  |
|------|---|--|
| Q.20 | If a conductor has a potential difference of 1 volt across its ends and a current of 1 ampere flows through it, what is its resistance? |  |
| Ans  | <input checked="" type="checkbox"/> A. 10 ohm   |  |
|      | <input checked="" type="checkbox"/> B. 1 ohm  |  |
|      | <input checked="" type="checkbox"/> C. 0.5 ohm  |  |
|      | <input checked="" type="checkbox"/> D. 2 ohm  |  |

|      |  |  |
|------|--|--|
| Q.21 | Under what spatial condition is the magnitude of the force acting on a current-carrying conductor placed in a uniform magnetic field observed to be the highest? |  |
| Ans  | <input checked="" type="checkbox"/> A. When the current flows towards the south pole of the magnet.  |  |
|      | <input checked="" type="checkbox"/> B. When the current and field are perpendicular to each other.   |  |
|      | <input checked="" type="checkbox"/> C. When the current is varied instantaneously.   |  |
|      | <input checked="" type="checkbox"/> D. When the current and field are parallel.  |  |

|      |   |  |
|------|---|--|
| Q.22 | When a person stands stationary on the ground, the force of gravity exerted by the Earth on the person (Action) and the normal force exerted by the ground on the person (Reaction) are equal and opposite. Is this an action-reaction pair, according to Newton's Third Law? |  |
| Ans  | <input checked="" type="checkbox"/> A. Yes, because they balance each other, preventing motion.   |  |
|      | <input checked="" type="checkbox"/> B. No, because the two forces act on different objects.   |  |
|      | <input checked="" type="checkbox"/> C. No, because the two forces act on the same object.   |  |
|      | <input checked="" type="checkbox"/> D. Yes, because the two forces are equal and opposite in magnitude.   |  |

|      |   |  |
|------|---|--|
| Q.23 | Which of the following fish production methods are done in the region of Kashmir? |  |
| Ans  | <input checked="" type="checkbox"/> A. Pearl Culture                              |  |
|      | <input checked="" type="checkbox"/> B. Marine Fisheries                           |  |
|      | <input checked="" type="checkbox"/> C. Brackish Water Fisheries                   |  |
|      | <input checked="" type="checkbox"/> D. Aqua Culture                               |  |

|      |   |  |
|------|---|--|
| Q.24 | Which of the following cell structures helps amoeba to acquire its food material? |  |
| Ans  | <input checked="" type="checkbox"/> A. Nuclear membrane                           |  |
|      | <input checked="" type="checkbox"/> B. Cilia                                      |  |
|      | <input checked="" type="checkbox"/> C. Flagella                                   |  |
|      | <input checked="" type="checkbox"/> D. Plasma membrane                            |  |

|      |   |  |
|------|---|--|
| Q.25 | Fertilization in females usually occurs in which region of the reproductive system? |  |
| Ans  | <input checked="" type="checkbox"/> A. Vagina                                       |  |
|      | <input checked="" type="checkbox"/> B. Ovary  |  |
|      | <input checked="" type="checkbox"/> C. Fallopian Tube                               |  |
|      | <input checked="" type="checkbox"/> D. Uterus                                       |  |

Section : Mathematics

|------|---|--|
| Q.26 | The H.C.F. and the L.C.M. of two numbers are 18 and 1296, respectively. If one of the numbers is 162, find the other one. |  |
| Ans  | <input checked="" type="checkbox"/> A. 180  |  |
|      | <input checked="" type="checkbox"/> B. 108  |  |
|      | <input checked="" type="checkbox"/> C. 144  |  |
|      | <input checked="" type="checkbox"/> D. 126  |  |

|      |   |
|------|---|
| Q.27 | A and B started moving at the same time towards each other from points X and Y, respectively. After meeting on the way, A and B took 90.9 hours and p hours, respectively, to reach Y and X, respectively. If the speed of B is 50% more than that of A, then what is the value of p? |
| Ans  | <div><div><div><div></div></div><div>A. 38.9</div></div><div><div><div></div></div><div>B. 42.4</div></div><div><div><div></div></div><div>C. 40.4</div></div><div><div><div></div></div><div>D. 39.7</div></div></div>   |
| Q.28 | Rashmi buys 34 mobile stands for ₹6,800. Now, she decides to start a small business by selling these stands. How many mobile stands can she buy for ₹13,600?  |
| Ans  | <div><div><div><div></div></div><div>A. 68</div></div><div><div><div></div></div><div>B. 66</div></div><div><div><div></div></div><div>C. 67</div></div><div><div><div></div></div><div>D. 65</div></div></div>   |
| Q.29 | The amount on a sum of ₹3,300 at 10% per annum compound interest, compounded annually, in 2 years will be:  |
| Ans  | <div><div><div><div></div></div><div>A. ₹4,939</div></div><div><div><div></div></div><div>B. ₹3,826</div></div><div><div><div></div></div><div>C. ₹3,993</div></div><div><div><div></div></div><div>D. ₹3,583</div></div></div>   |
| Q.30 | Rahul's monthly expenditure is 75% of his monthly income. If the monthly savings are ₹10,000, calculate his monthly income.   |
| Ans  | <div><div><div><div></div></div><div>A. ₹40,000</div></div><div><div><div></div></div><div>B. ₹30,000</div></div><div><div><div></div></div><div>C. ₹45,000</div></div><div><div><div></div></div><div>D. ₹50,000</div></div></div>   |
| Q.31 | In a regular polygon, the number of diagonals is 9. Find the difference between one interior angle and one exterior angle of the polygon.   |
| Ans  | <div><div><div><div></div></div><div>A. 70°</div></div><div><div><div></div></div><div>B. 55°</div></div><div><div><div></div></div><div>C. 48°</div></div><div><div><div></div></div><div>D. 60°</div></div></div>   |
| Q.32 | The expenditure of Sudha is 175% more than her savings. If her expenditure decreases by 12% and savings increase by 40.5%, then by what percentage does her income increase?  |
| Ans  | <div><div><div><div></div></div><div>A. 7%</div></div><div><div><div></div></div><div>B. 2%</div></div><div><div><div></div></div><div>C. 6%</div></div><div><div><div></div></div><div>D. 4%</div></div></div>   |
| Q.33 | The outer and inner diameters of a hollow cylindrical pipe are 10 cm and 6 cm, respectively. If its length is 21 cm, then its total surface area is:  |
| Ans  | <div><div><div><div></div></div><div>A. 472π cm<sup>2</sup></div></div><div><div><div></div></div><div>B. 154π cm<sup>2</sup></div></div><div><div><div></div></div><div>C. 168π cm<sup>2</sup></div></div><div><div><div></div></div><div>D. 368π cm<sup>2</sup></div></div></div>   |
