

## IDBI Asst Manager 2021 Previous Year Paper

**Direction (1-5):** Study the following information carefully and answer the questions given below:

There are Twelve persons who live on four different floors of a same building. Ground floor is number 1, floor above it is numbered 2 and so on till top floor which is numbered four. There are three flats on each floor- flat-1, flat-2 and flat-3 from west to east. Such that flat-1 of fourth floor is exactly above flat-1 of third floor which is exactly above flat-1 of second floor and other flats are placed in the same way. Flat-2 of fourth floor is west to flat 3 and east of flat-1 of same floor.

L lives East of M. F who doesn't live on even numbered floor lives North to L. B lives North-east to M as well as South-west to D. J lives West of H. One floor gap is between G and K who doesn't live West of F. A lives above E who lives East of B. K lives above C and below A who live to South of J. G does not live in an even numbered flat.

**Q1.** Who among the following live between the one who lives in Flat 1 of 3<sup>rd</sup> floor and the one who lives in Flat 3 of same floor?

- (a) J
- (b) H
- (c) F
- (d) E
- (e) C

**Q2.** Which of the following combination is correct regarding J?

- (a) Flat 2, Floor 1
- (b) Flat 1, Floor 2
- (c) Flat 1, Floor 4
- (d) Flat 3, Floor 2
- (e) None of these

**Q3.** In which of the following direction H lives with respect to M?

- (a) South
- (b) North
- (c) South-West
- (d) North-East
- (e) Can't be determined

**Q4.** Who among the following live to the South West of E?

- (a) L
- (b) H
- (c) J
- (d) B
- (e) K

**Q5.** Four of the following five are alike in a certain way and hence they form a group. Which one of the following does not belong to that group?

- (a) J, H, E
- (b) A, D, F
- (c) F, C, L
- (d) G, E, M
- (e) A, B, K

**Directions (6-7):** In each of the questions below are given some statements followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer

**Q6. Statements:** Only a few Almonds are Peanuts

Only a few Peanuts are Cream

No Cream is Dairy

**Conclusions: I.** All Dairy can be peanuts

**II.** All Almond can be Peanuts

**III.** Some Peanuts is not Cream

- (a) Only I and II follows
- (b) Only II and III follows
- (c) All follows
- (d) None follows
- (e) Only I and III follows

**Q7. Statements:** Only Jam is Bread

Some Jam is Butter

All cake is Butter

**Conclusions: I.** Some Butter can be Bread

**II.** Some cake can be Jam

**III.** No cake is Jam

- (a) Only I and II follow
- (b) Only II
- (c) Either II or III follows
- (d) Only I and III follows
- (e) None follows

**Directions (8-12):** Study the following information carefully to answer the given questions.

A word and number arrangement machine when given an input line of words and numbers rearranges them following a particular rule in each step. The following is an illustration of input and rearrangement.

**Input: allow brave shout minor royal**

Step 1: 1llo23 2rav5 19hou20 13ino18 18oya12

Step 2: 12lo22 18av3 8ou1 9no5 15ya6

Step 3: 34l15 21a22 9o21 14n15 21y1

Step4: 1219 11 1512 141 2520

Step 5: 13 2 9 6 9

Answer the following questions based on the following input.

**Input: offer right power annoy sheet**

**Q8.** Which of the following element is third from the right end in the step3?

- (a) 18w5
- (b) 17w5
- (c) 38n16
- (d) 11g8
- (e) None of these

**Q9.** What is the sum of all the elements is step 5?

- (a) 47
- (b) 45
- (c) 42
- (d) 43
- (e) 48

**Q10.** In which of the following step '9f5 11g8' exists in the same order?

- (a) Step1
- (b) Step2
- (c) Step3
- (d) Step4
- (e) Step5

**Q11.** Which of the following element is second from the left end in the penultimate step?

- (a) 64
- (b) 83
- (c) 2312
- (d) 73
- (e) 54

**Q12.** How many steps are required to get the output?

- (a) Four
- (b) Five
- (c) Six
- (d) Seven
- (e) Eight

**Directions (13):** Each question given below consists of a statement, followed by three or four arguments numbered I, II, III and IV. You have to decide which of the arguments is/are 'strong' argument(s) and which is/are 'weak' argument(s) and accordingly choose your answer from the alternatives given below each question.

**Q13. Statements:**

Should trade unions be banned completely?

**Arguments:**

**I.** Yes. Workers can concentrate on production.

**II.** No. This is the only way through which employees can put their demands before the management.

**III.** Yes. Employees get their illegal demands fulfilled through these unions.

**IV.** No. Trade unions are not banned in other economically advanced countries.

---

- (a) Only I is strong
- (b) Only II is strong
- (c) Only I and II are strong
- (d) Only I, II and III are strong
- (e) None of these

**Q14.**Statement-Neeru Chadha becomes first Indian woman to become member of ITLOS. Chadha is only the second woman to be judge of ITLOS in its two decades of existence, where there have been a total of 40 judges.

Which of the following can be assumed from the given statement?

- (I)** No other woman of India has the capability to become member of ITLOS.
  - (II)** Woman can be a better judge than man.
  - (III)** No other candidate is superior than Neeru Chadha.
- (a) Only II and III
  - (b) Only I and III
  - (c) Only II
  - (d) Only I
  - (e) None of these

**Directions (15-19):** Study the following information carefully and answer the questions given below:

Six employees i.e. P, Q, R, S, T and U are working in a company at different designations i.e. Chief Legal Officer (CLO), Chief Marketing Officer (CMO), Chief Technology Officer (CTO), Chief Financial Officer (CFO), Chief Operating Officer (COO) and Chief Executive Officer (CEO). Sequence of the posts are same as mentioned above with Chief Legal Officer (CLO) being the junior most position and Chief Executive Officer (CEO) being the topmost position and They all have different years of working experiences and gets different salaries on the basis of the sequence of their designation (senior most employee get the highest salary and has the maximum years of experience and the junior most has least experience and salary). All the information is not necessarily in the same order.

The salary of P is a multiple of 11. The one who has 10 years of experience earns 10K less than U who is not CFO. At most one person is senior to S. Only two employees are junior than the one who has 8 years of working experience. The one who is COO has 3 years more experience than the one who is getting 60K. The sum of the salaries of CLO and CMO is same as the salary of the one who has the maximum work experience. 15 years is the maximum years of working experience. Only two designations are there in between the designations of S and P. The working experiences of CMO and CTO are in consecutive years. CMO is getting 50K. R is junior than P. The CEO salary is 5k less than the square of the smallest two-digit number. Q is junior than R and having the working experience equal to the sum of the digit of the salary what R gets. The salary of CTO is less than 57K.

**Q15.** Who among the following has 10 years of working experience?

- (a) The one who gets 55K
  - (b) The one who is just junior than U
  - (c) T
  - (d) Both (b) and (c)
  - (e) Both (a) and (c)
-

**Q16.** Who among the following is Chief Executive Officer (CEO)?

- (a) S
- (b) T
- (c) The one who is getting 70 k
- (d) Q
- (e) None of these

**Q17.** What is the difference between the working experience (years) of Chief Operating Officer (COO) and the one who is 55k salary?

- (a) 3
- (b) 4
- (c) 5
- (d) 2
- (e) None of these

**Q18.** Which of the following statement is true?

- (a) T is senior than U
- (b) S is getting 95K salary
- (c) More than two employees are junior than P
- (d) P's salary is more than T's salary
- (e) T is the junior among all

**Q19.** Who among the following employee is just senior than the one who has 13 Years of working experience?

- (a) S
- (b) T
- (c) P
- (d) R
- (e) None of these

**Direction (20-24):** Each of the questions below, consist of a question and three statements numbered I, II and III. You have to decide whether the data provided in the statements are sufficient to answer the question. Read the three statements and Give answer

- (a) If the data in statement I and II together are sufficient to answer the question, while the data in statement III are not required to answer the question.
- (b) If the data in statement I and III together are sufficient to answer the question, while the data in statement II are not required to answer the question.
- (c) If the data in statement II and III are sufficient to answer the question, while the data in statement I are not required to answer the question.
- (d) If the data in all the statements, I, II and III even together are not sufficient to answer the question.
- (e) If the data in all three statements I, II and III together are necessary to answer the question.

**Q20.** What is the code for "fortune" in a certain code language?

**Statements:**

**I.** "The Christmas tree fortune" is coded as "ws rw mk pw"

**II.** "The fortune new year" is coded as "ws pw kp sm"

**III.** "Christmas fortune this year" is coded as "rw pw pm sm"

---

**Q21.** Seven people P, Q, R, S, T, U and V live on separate floors of a 7-floor building but not necessarily in the same order. Ground floor is as 1<sup>st</sup> floor, just above floor is as 2<sup>nd</sup> floor and so on until the topmost floor as 7<sup>th</sup> floor. Who among the following lives on 2<sup>nd</sup> floor?

**Statements:**

- I. V lives on an odd floor. U lives just above Q's floor. There are as many floors above S as below R.
- II. Not more than one floor gap between V and T. R lives below V.
- III. Three persons live between P and V. At least three floors below U.

**Q22.** Six persons K, L, P, Q, M, and N were born in different months i.e. January, April, June on two different dates 5<sup>th</sup> or 14<sup>th</sup>. Only One person was born on one date. Who among the following was born on 5<sup>th</sup> April?

**Statements:**

- I. L was born in the month of June. M was born just before N.
- II. More than two persons were born between L and K. No one was born between Q and M. P was born after April.
- III. L was born before P. Q was born on an even date after P.

**Q23.** Six boys i.e. A, B, C, D, E and F are sitting around a circular table and facing to the center but not necessarily in the same order. Then find who among the following sits 2<sup>nd</sup> to the left of D?

**Statements:**

- I. One boy sits between A and B. E sits 3<sup>rd</sup> to the left of F.
- II. E sits Either 3<sup>rd</sup> to the left or 3<sup>rd</sup> to the right of A. D sits 2<sup>nd</sup> to the right of C. F doesn't face D.
- III. D sits near to B. C doesn't sit immediate to the right of A. Both B and E are not an immediate neighbor.

**Q24.** What is the direction of T with respect to Y?

**Statements:**

- I. T is 3m north of K. P is 7m west of K. A is 5m south of B. B is 7m south of K.
- II. U is 10m north of F. Y is 2m east of F.
- III. T is 7m south of L. Distance between O and R is 8m.

**Direction (25-29):** Study the following information carefully and answer the questions given below:

Eight family members are sitting in a circular table. They are facing towards centre. No two females sit adjacent to each other.

Two persons sit between P and Son of T. W sits 2<sup>nd</sup> to the left of P who is spouse of R. S is spouse of T who is father of W. Q who is sibling of S is an immediate neighbour of V and S. V faces U who is sister-in-law of S. R sits immediate right of T who doesn't sit next to V. T is son in law of R. U is unmarried.

**Q25.** How is P related to T?

- (a) Father
- (b) Father-in-law
- (c) Mother-in-law
- (d) Mother
- (e) Daughter in law

**Q26.** What is the position of daughter of P with respect to sister of T?

- (a) Immediate left
- (b) Immediate right
- (c) 2<sup>nd</sup> to the right
- (d) 2<sup>nd</sup> to the left
- (e) None of these

**Q27.** How many persons are sitting between mother of Q and sister-in-law of U when counted from right of mother of Q?

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) More than three

**Q28.** Who among the following sits 3<sup>rd</sup> to the right of grandfather of V?

- (a) V
- (b) S
- (c) W
- (d) T
- (e) None of these

**Q29.** How many persons sit between P's son and R's son-in-law when counted to the left of P's son?

- (a) Four
- (b) Two
- (c) None
- (d) Three
- (e) More than four

**Directions (30-31):** Study the following alphanumeric series carefully and answer the questions given below:

**A S 2 ! D F @ 9 G H 7 # 8 J K 3 \$ % L Z \* 5 ^ X C 4 V & B 6 N 1**

STEP I- The letters which are immediately preceded by symbol and immediately followed by a consonant are arranged just after 2 in the series in the alphabetical order.

STEP II- The numbers which are immediately preceded by the Symbol and immediately followed by the letter are arranged between 6 and N in the decreasing order.

STEP III- The letters which are immediately preceded by the symbol and immediately followed by the number are arranged in the beginning of the series in the alphabetical order.

(STEP II is applied after STEP I and STEP III is applied after STEP II)

**Q30.** How many numbers are between 4<sup>th</sup> element from left and 7<sup>th</sup> element from right in the last step?

- (a) Two
- (b) Three
- (c) Four
- (d) Six
- (e) None of these

**Q31.** Which of the following element is 3<sup>rd</sup> to the left of 5<sup>th</sup> element from the right end in Step II?

- (a) C
- (b) 4
- (c) &
- (d) B
- (e) V

**Q32.** Statement I- The Indian Army plans to recruit women in combat roles, especially with regard to the operations in Jammu & Kashmir, Army Chief General Bipin Rawat said at the Passing Out Parade at the Indian Military Academy (IMA).

Statement II- Many a time jawans in Kashmir feel hesitant about dealing with women when they are in the front lines.

Statement III- The situation in Kashmir has been volatile for decades, flaring up for worse since last summer. In the last four days alone, the army has killed 13 suspected militants.

Which of the following may be cause/effect among the above statements?

- (a) Statement II will be cause and Statement I and III will be it's effects.
- (b) Statement II and III will be cause and I will be it's effect.
- (c) Statement III is cause and Statement I is it's effect and Statement II is effect of independent cause.
- (d) Statement II is cause and Statement I is it's effect and Statement III is effect of independent cause.
- (e) Statement III is cause and Statement II is it's effect and Statement I is effect of independent cause.

**Q33. Statement:** - No one in the Royal Family wants to be king or queen by their choice, Prince Harry has told a US magazine, adding that "we will carry out our duties at the right time". "Is there any one of the Royal Family who wants to be king or queen? I don't think so," he told Newsweek.

Which of the following is not in line with the above statement?

- (I) He said the royals were doing their duties "for the greater good of the people".
  - (II) Harry, who recently said he had received counselling to cope with the death of his mother in a car crash in Paris, said: "My mother had just died, and I had to walk a long way behind her coffin, surrounded by thousands of people watching me while millions more did on television.
  - (III) He also paid tribute to his "remarkable" grandmother for letting the younger royals do things their own way.
- (a) Only (I)
  - (b) Only (II)
  - (c) Only (III)
  - (d) Both (II) and (III)
  - (e) None of these

**Direction (34-35):** Study the following information carefully and answer the questions given below:

Five persons are arranged according to their weights in descending order from left to right. The one whose weight is 20kg is lighter than C. D is 12kg lighter than C. B is heavier than E who is heavier than A. Only one person is lighter than D. C is heavier than E. Weight of A and E is not even numbers. C is not the heaviest among all.

**Q34.** How many persons are heavier than E?

- (a) None
  - (b) Two
  - (c) Three
  - (d) One
  - (e) Can't be determined
-

**Q35.** What may be the possible weight of E?

- (a) 35
- (b) 29
- (c) 37
- (d) 18
- (e) 6

**Direction (36-40):** Study the following information carefully and answer the questions given below:

Five persons are working at different departments of different companies in different cities.

P works in Mumbai but doesn't work at HR department. Q works in Wipro but doesn't work in Jaipur and Kolkata. O works in Content department but doesn't work in TCS and IBM. Person who works at Production in Infosys doesn't work in New Delhi and Mumbai. N works at Sales but doesn't work in Chennai. Person who works in Mahindra works in Chennai. M doesn't work in Kolkata. Person who works in Marketing department doesn't work in IBM.

**Q36.** In which of the following city M works?

- (a) Mumbai
- (b) New Delhi
- (c) Chennai
- (d) Jaipur
- (e) None of these

**Q37.** In which of the following department P works?

- (a) Marketing
- (b) Sales
- (c) Production
- (d) Content
- (e) None of these

**Q38.** Who among the following works in Chennai?

- (a) N
- (b) person who works at HR department
- (c) O
- (d) Person who works in TCS
- (e) None of these

**Q39.** Which of the following is true?

- (a) P-HR-New Delhi
  - (b) Q-Content-Jaipur
  - (c) O-Production-Chennai
  - (d) M-Sales-Kolkata
  - (e) None is true
-

**Q40.** In which of the following company N works?

- (a) TCS
- (b) Mahindra
- (c) IBM
- (d) Infosys
- (e) None of these

**Direction (41 – 45):** In the given questions, two quantities are given, one as 'Quantity I' and another as 'Quantity II'. You have to determine relationship between two quantities and choose the appropriate option:

**Q41.** Diameter of the circle is equal to the side of the square having perimeter 112 cm.

**Quantity I** – Difference between area of the square and that of the circle.

**Quantity II** – 172 cm<sup>2</sup>

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I ≤ Quantity II
- (e) Quantity I = Quantity II or no relation

**Q42.** A table was sold at Rs 1600. If it were sold at 200 more than the profit percent will be 16% more.

**Quantity I** – Cost price of the Table.

**Quantity II** – Rs. 1200

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I ≤ Quantity II
- (e) Quantity I = Quantity II or no relation

**Q43.** A lent Rs 2400 and Rs Y to B and C respectively at 15% CI for two years. Amount received from C is Rs 1058 more than that from B.

**Quantity I** – Average of total amount lent by A.

**Quantity II** – Rs. 2800.

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I ≤ Quantity II
- (e) Quantity I = Quantity II or no relation

**Q44.** 'L' meters long train cross a 420 meters long tunnel in 30 sec running at the speed of 72 km/hr. If train cross a man running in opposite direction in  $\frac{54}{8}$  sec.

**Quantity I** – Speed of man (in km/hr).

**Quantity II** – 20 km/hr

- (a) Quantity I > Quantity II
  - (b) Quantity I < Quantity II
  - (c) Quantity I ≥ Quantity II
  - (d) Quantity I ≤ Quantity II
  - (e) Quantity I = Quantity II or no relation
-

**Q45.** Pipe A and B alone can fill a tank in 'x' hours and 'x+10' hours respectively. Both pipes A & B together fill the same tank in 12 hours.

**Quantity I** – Time taken by B alone to fill the tank is what percent of that of A alone.

**Quantity II** – 150%

- (a) Quantity I > Quantity II
- (b) Quantity I < Quantity II
- (c) Quantity I ≥ Quantity II
- (d) Quantity I ≤ Quantity II
- (e) Quantity I = Quantity II or no relation

**Directions (46-50):** Table given below shows total number of people visit four different national parks. Read the following table carefully and answer the questions given below.

National Park	Total number of people visit	% Of children visit	% Of male visit
<b>P</b>	2,400	10%	30%
<b>Q</b>	2,000	5%	40%
<b>R</b>	4,500	15%	50%
<b>S</b>	6,000	20%	45%

**Note:** only male, female and children visit in these four national parks.

**Q46.** Find the ratio of total number of females visit P and Q together to total number of children visit R and S together?

- (a) 508 : 375
- (b) 513 : 370
- (c) 557 : 379
- (d) 580 : 349
- (e) 528 : 311

**Q47.** Find the average no. of male visit S and P?

- (a) 1670
- (b) 1810
- (c) 1710
- (d) 1720
- (e) 2310

**Q48.** The total number of females visit S is what percent of the total number of male Q?

- (a) 291.5%
- (b) 277.5%
- (c) 232.5%
- (d) 215.5%
- (e) 262.5%

**Q49.** Find the difference between the total number of children visit P & S together and total number of females visit Q & R together?

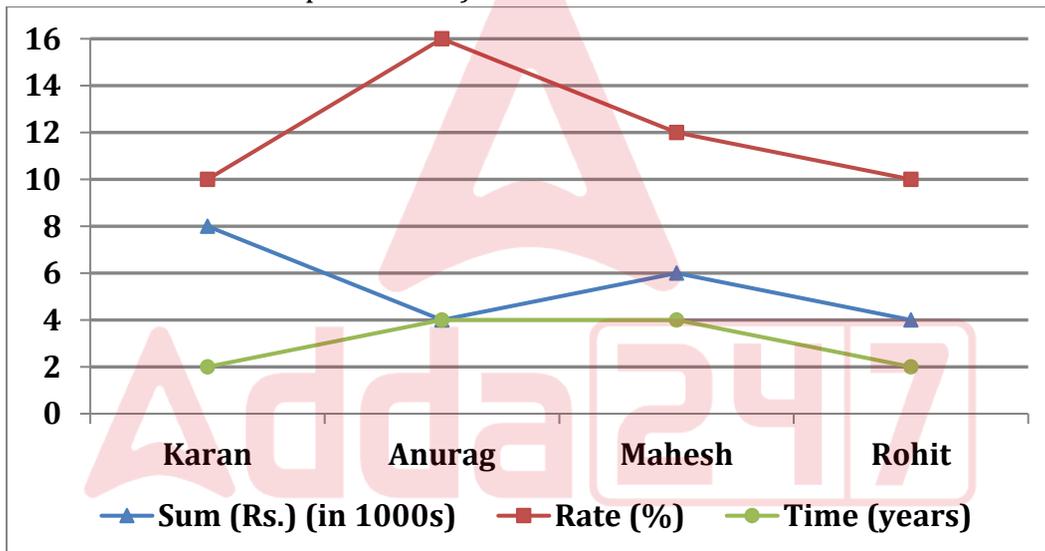

- (a) 1460
- (b) 1955
- (c) 1235
- (d) 1825
- (e) 1145

**Q50.** Find the total number of females visit R, Q and S together?

- (a) 5565
- (b) 4775
- (c) 4535
- (d) 4825
- (e) 4790

**Directions (51-55):** Given line graph shows the sum invested, rate of interest and time period of investment by 4 people. Study the data carefully and answer the questions.

(NOTE: all invested their sum at simple interest)

**Q51.** How much will Rohit receive after completion of his investment period (In Rs.)?

- (a) 5200
- (b) 6800
- (c) 4800
- (d) 4400
- (e) 4600

**Q52.** Interest amount received by Mahesh is what percent more than interest amount received by Karan?

- (a) 85%
- (b) 60%
- (c) 75%
- (d) 70%
- (e) 80%

**Q53.** What is total amount received as interest by Anurag & Rohit together? (in Rs.)

- (a) None of these
- (b) 3150
- (c) 3200
- (d) 3360
- (e) 3420

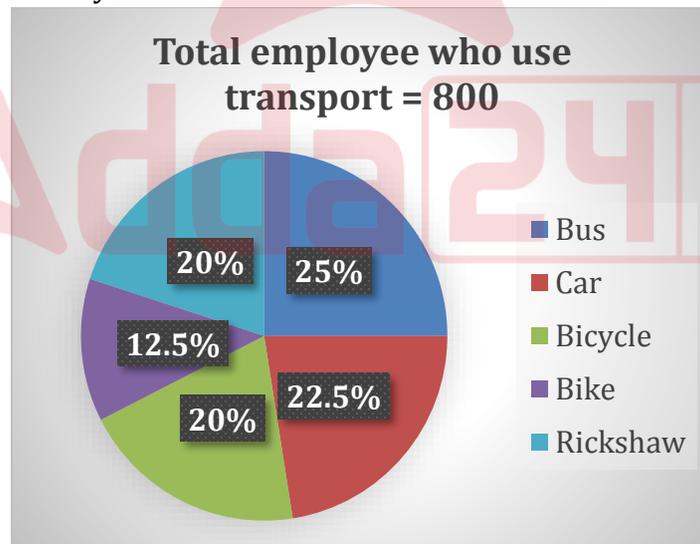

**Q54.** If Karan had invested same sum at compound interest at same rate of interest for same period. How much more would he earn?

- (a) Rs 80
- (b) Rs 90
- (c) Rs 70
- (d) Rs 60
- (e) None of these

**Q55.** Who among the four had received the highest amount as interest?

- (a) Karan
- (b) Anurag
- (c) Both Anurag & Mahesh
- (d) Rohit
- (e) Mahesh

**Directions (56-60):** The pie chart given below shows the percentage distribution of employee of a company using transport for daily commute.

**Q56.** No. of employee who use bike as daily commute is what percentage more/less than that use Bicycle as daily commute?

- (a) 75%
- (b) 32.5%
- (c) 37.5%
- (d) 62.5%
- (e) 80%

**Q57.** What is the central angle made by the no. of employee who use Car as daily commute?

- (a)  $72^\circ$
- (b)  $84^\circ$
- (c)  $65^\circ$
- (d)  $81^\circ$
- (e)  $90^\circ$

**Q58.** If 40% of the employee who use Car are females and 75% of employee who use Rickshaw are males, then find the difference between the no. of males who use Car and no. of females who use Rickshaw for daily commute?

- (a) 68
- (b) 78
- (c) 62
- (d) 48
- (e) 84

**Q59.** What is the difference between average no. of employee use Car, Bus and Bike and no. of employee who use Rickshaw and Bicycle together?

- (a) 120
- (b) 160
- (c) 90
- (d) 150
- (e) 0

**Q60.** New employee join the company and they don't use any transport (they walk), and they consist of 20% of the total employee of the company, then find the ratio of no. of employee who don't use any transport to that of who use Bus.

- (a) 2 : 3
- (b) 5 : 4
- (c) 3 : 4
- (d) 1 : 1
- (e) 4 : 3

**Directions (61-65):** Read the following passage carefully and answer the questions given below them. Certain words are given in bold to help you locate them while answering some of the questions.

The combined market capitalization of just four companies—Facebook, Apple, Alphabet (Google) and Amazon—is greater than the gross domestic product (GDP) of India. In the US, in China and, of late, in India The combined market capitalization of just four companies—Facebook, Apple, Alphabet (Google) and Amazon—is greater than the gross domestic product (GDP) of India., corporations which have a disproportionately large share of their consumer markets are rising. The current regulatory architecture is woefully inadequate to comprehend and determine whether this corporate concentration gives rise to monopoly power.

---

The dictionary definition of monopoly is “a market situation where one firm, or a group of firms acting in concert, controls the supply of a good or a service”. Historically, the economic implication of this has been synonymous with high prices and the restriction of output. The intent and structure of regulation around the world has therefore attempted to mitigate or break up monopolies in an attempt to negate this abusive pricing power.

Even though competition laws have been around for 2,000 years, the design and intellectual roots of the current framework for competition policy and anti-monopoly regulation, called anti-trust in the US, can be traced to justice Louis Brandeis of the US supreme court (1916-1939). Brandeis, using Madisonian principles, argued that there should be a democratic distribution of **power** and opportunity in the political economy and that “industrial liberty” must go hand-in-hand with political and religious liberty. With significant inputs from the Chicago school, this “Brandeis philosophy” has morphed into one of consumer welfare, measured principally by the price paid by consumers as the test of policy effectiveness. The laws codified in the US before World War II were transferred to Germany and Japan after the war and became the basis upon which competition policy was documented in the European Union (EU) and beyond.

In the US and Europe, the increase in corporate concentration has led to a lot of discussion about the limitations of current law. The EU, and its competition tsarina, Margrethe Vestager, have used existing competition regulation to examine the “abuse of market concentration” with some zeal. Most recent rulings on **disrupting** competition and the abuse of market power in the international arena have come about in the EU. Landmark rulings came in 2004 against the “lack of interoperability” of the Microsoft operating system and in 2017 against Google’s Android operating system. In the US, discussion among a group of thinkers called “the New-Brandeisians” is pushing lawmakers to jettison short-term price effects as the sole determinant of abuse. Lina Khan, a leading competition attorney, in a Yale Law Journal article titled Amazon’s Antitrust Paradox, wrote that “it doesn’t matter if companies like Amazon are making things cheaper in dollars if they are using predatory pricing strategies to dominate multiple industries and choke off competition and choice”.

**Q61.** As per the given passage in what respect is the prevailing regulatory architecture insufficient?

- (a) Determining the main reason for the slow growth of the GDP of India.
- (b) Increase in the prices of the products that are exported to the foreign nations.
- (c) The concentration of power in the hands of certain corporates leading to monopoly in the economy.
- (d) Both (a) and (c)
- (e) None of these

**Q62.** As per the given passage, how did the author define “Monopoly”?

- (a) A market condition in which the control of a good and a service in the hands of a particular firm or a group of firms
  - (b) The kind of condition in which the control is decentralized and the prices of commodities increase.
  - (c) Increase in prices and restriction of output results in an economic condition known as monopoly.
  - (d) Both (a) and (c)
  - (e) None of these
-

**Q63.** How can the implications of monopoly be reduced as per the given passage?

- (I) By integrating a system in which the government gives subsidies to MSMEs for them to compete with large corporates.
  - (II) By decreasing the prices of products and services and concentrated the power in the hands of bureaucrats.
  - (III) The world has tried to form such regulations which attempt to slow or break the monopolies.
- (a) Only (I)
  - (b) Only (III)
  - (c) Both (I) and (II)
  - (d) Both (II) and (III)
  - (e) All of the given options

**Q64.** How did the 'Brandeis philosophy' come in to shape as mentioned in the passage?

- (a) Competition policy and anti-monopoly regulations were the main factors on which the philosophy was based.
- (b) As the philosophy was based on the religious and political liberty so it was adopted worldwide.
- (c) The philosophy was based solely on the price that was paid by the consumers.
- (d) Increase in the consumer satisfaction towards the product helped to configure the policy.
- (e) None of these

**Q65.** As per the given passage, why did the European Union pass a ruling against Microsoft and Google?

- (a) The Companies were the sole service providers in the area and were charging very high for the services.
- (b) The increase in the codes and functions given in the OS of Google and Microsoft was difficult to comprehend by the EU.
- (c) The companies had not paid their custom duties and were defaulters against the law.
- (d) The interoperability in the OS of Microsoft and Android was in excess.
- (e) None of these

**Directions (66-70):** Read the following passage carefully and answer the questions given below them. Certain words are given in bold to help you locate them while answering some of the questions.

While Indians come to terms with images of floods in Kerala, Karnataka and other parts of the country, complete with a frightening clip of an entire hillside collapsing, few would have found time to pore over a special report released late last week by the United Nations' Intergovernmental Panel on Climate Change.

**Ignorance** of what it has to say, however, is no longer tenable; not with such climate-related havoc staring us in our faces. The report points out that changes in land use, and not just vehicular and industrial emissions, have upset natural climatic conditions, and that the world's food systems are responsible for between 25% and 30% of greenhouse gas emissions. These relate directly to agriculture and land use, as also to the storage, packaging, processing, retailing and consumption of food. It's not just the way we eat that has to change—vegetarian diets are better—but also how we grow, store and transport our food. The world's farms and forests have to be managed better to prevent land degradation, says the Special Report on Climate Change and Land. No amount of funding for disaster relief will be enough if we're not willing to confront the way we abuse the land we live on (and off).

---

Over 29% of land in India, or 96 million hectares, has been degraded, according to the desertification atlas released by the Indian Space Research Organisation in 2016. The relationship between degradation and flooding is long established: Intensive rainfall tends to erode soil, leaving croplands with lower capacity to retain moisture, which eventually leads to drought. Temperatures, of course, are rising, too. July may have been the hottest month in recorded history, the UN secretary-general said recently, adding that 2015-19 is likely to be the hottest five-year period on record. Sustainable land management is a way to protect people from this cycle of flood and drought, heat and cold waves, erosion and degradation. "The likelihood, intensity and duration of many extreme events can be significantly modified by changes in land conditions, including heat-related events such as heat waves and heavy precipitation events. Changes in land conditions can affect temperature and rainfall in regions as far as hundreds of kilometers away," says the report.

The diversity of India's geography means each region is likely to need a localized management plan, one that takes into account peculiarities of the land, to effectively counter climate change. It's here that indigenous knowledge and land management practices can play a role. It's the first time, it seems, that the UN body has highlighted land rights as **crucial** to the effort. "Cultural dimensions are important in understanding how societies establish food production systems and respond to climate change, since they help to explain differences in responses across populations to the same environmental risks," the report observes. It's important that we stop the adoption of crops and methods that aren't suited to the land. Research shows that several crops—coffee, sugarcane, wheat and cotton, among others—can increase soil erosion beyond the point of self-regeneration. Turning farms eco-friendly will mean adopting farming practices that are in harmony with nature. Yet, "modernity" in India often means quite the opposite. This irony needs to be overcome.

**Q66.** What are the various factors that have affected the natural climatic conditions as per the given passage?

- (I) The world food systems emit greenhouse gases that amount to about 20% to 30% emissions.
  - (II) Current agricultural practices have changed the use of land.
  - (III) Consumption of non-vegetarian food items has increased and use of plastic for delivering these food items as well
- (a) Only (I)
  - (b) Only (II)
  - (c) Both (II) and (III)
  - (d) Both (I) and (II)
  - (e) None of these

**Q67.** How can we save our planet from forthcoming natural disasters as per the given passage?

- (a) The funding provided from the government can help the planet from the disasters
- (b) The way the people eat, grow and transport the food needs to change.
- (c) Farms should be managed in a way that the land degradation is minimized.
- (d) Both (b) and (c)
- (e) None of these

**Q68.** How is land degradation and flooding correlated as per the given passage?

- (a) Excessive rainfall causes soil erosion, that result in decrease in the capacity of croplands to retain moisture eventually leading to drought.
  - (b) Heavy rains and floods are the main reasons of landslides in the mountain area.
  - (c) Intensive farming and use of modernized technical equipment leads to flooding in the plains.
  - (d) Both (a) and (c)
  - (e) None of these
-

**Q69.** As per the given passage which of the following statement/s is/are TRUE?

- (I) India is diverse in geography and each region needs to have its own management plan.
  - (II) Modernity in India means adopting farming practices that are eco-friendly which will be in harmony with the nature.
  - (III) The temperature and rainfall are affected by the change in land conditions.
- (a) Only (I)
  - (b) Only (III)
  - (c) Both (II) and (III)
  - (d) Both (I) and (III)
  - (e) All of the given statements

**Q70.** What can be crucial to counter climate change in India as per the given passage?

- (a) Building environment friendly infrastructure by integrating plantation of trees and plants on the roofs of the houses.
- (b) Carpooling and using electrical vehicles for transportation purposes.
- (c) Understanding cultural and geographical dimensions in the country.
- (d) The involvement of the governments and industrials in the agricultural practices.
- (e) None of these

**Directions (71-75):** Read the following passage carefully and answer the questions given below them. Certain words are given in bold to help you locate them while answering some of the questions.

India's 'water crisis' took over social media recently. That India's cities are running out of water, coupled with Chennai's drinking water woes, made the 'crisis' viral, raising questions about the quality of the discourse and choice of water governance strategies in India. If there is a water crisis, what is the nature of the crisis? Where is the crisis **prevalent**? And how do we deal with it?

Usually, a delayed monsoon or a drought, combined with compelling images of parched lands and queues for water in urban areas raise an alarm in the minds of the public. Similarly, episodes of inter-State river water disputes catch public attention. However, this time, it was somewhat different. Videos and news reports claiming that Indian cities are running out of groundwater went viral. These news items could not have gained the traction but for the fact that they relied on a 2018 report of India's own Niti Aayog, which was titled 'Composite Water Management Index: A tool for water management.'

Later, thanks to yet another series of tweets by Joanna Slater of The Washington Post, the 'crisis bogey' lost some of its sheen. Ms. Slater investigated the "zombie statistics" in the Niti Aayog report, especially the piece of information that said: "21 major cities are expected to run out of groundwater as soon as 2020, affecting [nearly] 100 million people." Her perseverance led to an eventual conclusion that there was no sure evidence for this assessment.

To be fair to Niti Aayog, its projection was only a means to an end goal: leveraging some action from the Indian States. The report's central goal was to propose a tool, an index, to monitor the States' water resource management strategies and provide the necessary course-shift, beyond supply augmentation approaches. The report may have had a lofty goal of promoting 'cooperative and **competitive** federalism' but was, in reality, a desperate move to **approaches** with the States, in the absence of any **substantive** leverage to influence their **engage** to water resources management. This also underscored that the fulcrum of any course correction lies with States.

---

Second, if the report means that the crisis lies in the depletion of groundwater levels in cities below safe rechargeable levels, then this is also not unknown. For almost two decades, the Central Ground Water Board (CGWB) has been reporting on the increasing number of over-exploited blocks across India, the 'dark' category blocks. The recent annual book of CGWB has reported 1,034 units, out of the 6,584 units it monitors, as over-exploited. If this is the 'crisis', then we have had it for long.

**Q71.** As per the given passage, which of the following acts point towards the water crisis?

- (I) The news reports and videos that claim the decrease in the amount of groundwater in Indian cities.
  - (II) States quarreling over the river water and people standing in long queues to collect drinking water.
  - (III) The fighting over the tanker water by the rural and urban population points toward prevailing water crisis in India.
- (a) Only (I)
  - (b) Only (II)
  - (c) Both (II) and (III)
  - (d) Both (I) and (II)
  - (e) All (I), (II) and (III)

**Q72.** What was the result of Joanna Slater's investigation as per the passage mentioned?

- (a) The report suggested that the ground water levels in some cities are below safe levels.
- (b) Her determination eventually led to a conclusion that there was no credible evidence for the claims of NITI Aayog report.
- (c) She claimed that the news and video reports truly pointed out the water crisis in the country.
- (d) The water reserves were used in excess and their exploitation was leading to barren patches was suggested in the study done later.
- (e) None of these

**Q73.** What did the report presented by NITI Aayog claimed as per the passage given?

- (I) The report proposed a tool to monitor the States' water resource management strategies.
  - (II) The report suggested a leverage action from the Indian states and to provide a necessary course-shift, beyond supply augmentation approaches.
  - (III) The report claimed that 21 major cities would run out of groundwater till 2020 which would affect about 100 million people.
- (a) Only (I)
  - (b) Only (III)
  - (c) Both (I) and (II)
  - (d) Both (II) and (III)
  - (e) All of the given options

**Q74.** Which of the following sentences express the meaning of the phrase "lost some of its sheen" as used in the given passage?

- (a) The enrollments in the B. Tech and B. E. are on a downfall in the country. Maybe engineering is **losing its sheen**.
  - (b) Excess of polishing led to **the loss of the sheen** of the table.
  - (c) The Taj Mahal's regal white walls are **losing their sheen** because of pollution and bug dung.
  - (d) Both (b) and (c)
  - (e) None of these
-

**Q75.** “ The report may have had a lofty goal of promoting ‘cooperative and **competitive** federalism’ but was, in reality, a desperate move to **approaches** with the States, in the absence of any **substantive** leverage to influence their **engage** to water resources management.”

Amongst the given bold words which of the following words must be interchanged to make the sentence grammatically and contextually correct and meaningful?

- (i) Competitive
- (ii) Approaches
- (iii) Substantive
- (iv) Engage
- (a) (i)-(ii)
- (b) (ii)-(iv)
- (c) (i)-(iv)
- (d) (ii)-(iii) and (i) and (iv)
- (e) None of these

**Directions (76-80):** Read each sentence to find out whether there is any error in it. The error, if any, will be in one part of the sentence, the number of that part is the answer. If there is no error, the answer is (e). (Ignore errors of punctuation, if any.)

**Q76.** Some of the world (a)/ largest water bodies are (b)/ drying up thus threatening (c)/ the livelihoods of millions.(d)/ No error (e)

**Q77.** Among the many (a)/ challenges facing the country (b)/ in the next decade (c)/ is poverty and unemployment. (d)/ No error (e)

**Q78.** According to economists (a)/ not more than five percent (b)/ of education loans taken (c)/ by students are overdue.(d)/ No error (e)

**Q79.** The two candidates share (a)/a reputation for (b)/ competency as well as (c)/ for good communication skills. (d)/ No error (e)

**Q80.** His main qualification (a)/ on the job is (b)/ his extensive experience (c)/ in foreign branches. (d)/ No error (e)

**Directions (81-85):** In each question below, a sentence is given with a part of it printed in bold type. That part may contain a grammatical error. Each sentence is followed by phrases (a), (b), (c) and (d). Find out which phrase should replace the phrase given in bold to correct the error, if there is any, and to make the sentence grammatically meaningful and correct. If the sentence is correct as it is and no correction is required, mark (e) as the answer.

**Q81.** What **does make him feel** awkward, is only a trivial matter.

- (a) does make him to feel
  - (b) makes him to feel
  - (c) makes him feel
  - (d) would make him feeling
  - (e) No correction required
-

**Q82.** This is exactly **what he wanted me** to solve the problem.

- (a) how he wanted me
- (b) what he wants from I
- (c) how does he want me
- (d) how did he want me
- (e) No correction required

**Q83.** They wanted to know **that we could extend** the required help.

- (a) that can we extend
- (b) that we had extended
- (c) if could we extend
- (d) if we could extend
- (e) No correction required

**Q84.** The Minister said that **he is proud of** the people of his constituency.

- (a) he should be proud of
- (b) he was proud of
- (c) he had pride for
- (d) it is he to be proud of
- (e) No correction required

**Q85.** The mob **started pelting stones** on the vehicles which were parked on the street.

- (a) started to pelting stones
- (b) started stones to be pelted
- (c) pelted stones starting
- (d) had started to pelting stones
- (e) No correction required

**Directions (86-90):** Each of the following questions has a paragraph from which one sentence has been deleted. From the given options, choose the one that completes the paragraph in the most appropriate way.

**Q86.** A temple or any place of worship cannot claim a right to the deity who is being worshipped in that place, since the deity by definition is present to all at all other places. God is not an entity who can be privatized and put under the control of certain individuals or communities or some dominant males.

(\_\_\_\_\_). Even rituals cannot be privatized and copyrighted since they are also done for god, a public being.

- (a) And if god should not be privatized, education, water and air should also not be privatized.
  - (b) Temple is not a private space because of its dependence on the idea of god as the supreme 'public entity' has an important corollary.
  - (c) Equivalently, god really has no privacy, nor can any human claim 'copyright' over their gods.
  - (d) Thus, all the arguments about celibacy invoked in this context are attempts to impose concepts of the private on a public being.
  - (e) It will be useful to understand the implications of the claim that temples cannot be private places.
-

**Q87.** The government raised social expenditure through its employment guarantee scheme, which, together with a construction boom, raised wages in the informal sector. (\_\_\_\_\_).The result: the growth in average wages for rural workers in 2013-14 was a huge 28% year-on-year. It refused to curtail subsidies, because it was scared of a backlash from the middle classes.

- (a) Globalization proved to be the final nail in the coffin for the western working class.
- (b) The contending classes are different, because organized labor forms a minuscule proportion of the working class in India.
- (c) In terms of the conflict theory, the competing claims of various sections of the population were all accommodated by the government in a please-all policy.
- (d) It increased minimum support prices for farmers.
- (e) None of these.

**Q88.** By making citizens liable for offering a bribe to a public servant, the anti-corruption law has been brought in line with the UN Convention Against Corruption. (\_\_\_\_\_).This exception kicks in only when the fact that one was forced to pay a bribe is reported to a law enforcement authority within seven days. The penal provision can empower people by allowing them to cite it to refuse to pay a bribe.

- (a) Further, it may render them vulnerable to threats from unscrupulous public servants.
- (b) The only exception to this rule is when one is forced to give a bribe.
- (c) The most unacceptable change is the introduction of a prior approval norm to start an investigation.
- (d) These should contain penal provisions as well as assure citizens of time bound services.
- (e) Public servants need to be protected against unfair prosecution.

**Q89.** (\_\_\_\_\_).The Great Depression discredited the idea that economies were basically self-correcting, and the following decades saw the development of Keynesian theory and the use of fiscal stimulus. The stagflation of the 1970s led to the development of real business cycle models, which saw recessions as the efficient working of the economy, and central bank meddling as likely only to cause inflation.

- (a) The notion that economic booms cause busts, instead of being random unrelated events seems to have much more currency beyond the ivory tower than within it.
- (b) There was immediately a flurry of activity, as economists hastened to shoehorn finance into their standard models.
- (c) Macroeconomics tends to advance—or, at least, to change—one crisis at a time.
- (d) When extrapolative expectations are combined with an inherently fragile financial system, a predictable cycle of booms and busts is the result.
- (e) none of these.

**Q90.** Duties are those actions which take one to one's goal. Thus having a goal is crucial. The ideal action has a goal or destination. (\_\_\_\_\_). The entire focus is on the action, not the fruit. Like Arjuna, all one can see is the eye of the bird. Only the action exists. When all energy is thus directed to the action, the goal is achieved faster. And the journey is enjoyable!

- (a) But when this goal becomes a craving, a longing, when it becomes a hook on which the happiness of life hinges, the fruit starts disturbing the action and life itself.
  - (b) To work with fruit makes one unhappy.
  - (c) To want something, to believe one will get it and then one will be happy is pure ignorance.
  - (d) The journey is anxious; the loss is heartbreaking.
  - (e) But once the action starts, the goal should not be allowed to disturb one's concentration.
-

**Directions (91-95):** A word has been given in each question and has been used in the sentences given below. Identify the statements where the word has been used in a contextually and grammatically correct manner. If the word has been used incorrectly in all the statements, mark (e), "None of these", as your answer.

**Q91. STAUNCH**

- (i) She followed his gaze, taking in the bare glossy walls and impressive fireplace with one **staunch** glance.
- (ii) Although Joseph considers himself to be a **staunch** Republican, he has not voted for a Republican candidate in over six years.
- (iii) Russia has been a **staunch** ally of Assad for decades and entered the Syrian conflict in 2015, providing air power that eventually turned the tide of the war in his favor.
- (a) only (i)  
(b) only (ii)  
(c) both (ii) & (iii)  
(d) both (i) & (iii)  
(e) none of these

**Q92. MAGNANIMOUS**

- (i) No **magnanimous** has ever been met with of the complete development of the right tusk associated with a condition of the left.
- (ii) Specialized species like Mastodon americanus have completely lost the **magnanimous** premolars.
- (iii) Even though the defendant had broken the law, the **magnanimous** judge gave him the lightest sentence possible.
- (a) both (ii) & (iii)  
(b) both (i) & (iii)  
(c) both (i) & (ii)  
(d) only (iii)  
(e) none of these

**Q93. TANTAMOUNT**

- (i) The ability of the homoeopathic remedies to **tantamount** the cancers was compared to the effects of potentised alcohol over the same period.
- (ii) The agrarian reform had done much to improve the efficiency of agriculture and to **tantamount** living standards among the peasantry.
- (iii) Using an electron microscope, a scientist can clearly **tantamount** the parts of a plant cell.
- (a) both (i) & (ii)  
(b) both (ii) & (iii)  
(c) only (iii)  
(d) only (ii)  
(e) none of these
-

**Q94. DELINEATE**

- (i) While I cannot **delineate** the style of car she drove, I can give you the license plate number.
- (ii) In order to define the waistline, it's important to **delineate** the bosom from the belly area.
- (iii) But keep in mind that declining trust in American institutions is **delineate** to chipping away at the building blocks that make America great and support our wealth creation model.
- (a) only (ii)
- (b) both (i) & (ii)
- (c) both (ii) & (iii)
- (d) all (i), (ii), (iii)
- (e) none of these

**Q95. AMELIORATE**

- (i) To be a prince was **ameliorate** to being the mark of secret conspiracy and assassination.
- (ii) Water-power deep perforation well can **ameliorate** perforation completion and reduce skin factor of pollution during drilling.
- (iii) The Seduction of Place provides a history of the ever more totalizing solutions which have been proposed to **ameliorate** the problems of the modern city.
- (a) only (ii)
- (b) only (i)
- (c) both (ii) & (iii)
- (d) all (i), (ii), (iii)
- (e) none of these

**Directions (96-100):** In each of the following sentences there are two blank spaces. Below each sentence there are five pairs of words denoted by numbers (a), (b), (c), (d), and (e). Find out which pair of words can be filled up in the blanks in the sentence grammatically correct and meaningfully complete.

**Q96.** To avoid ..... there is a need for ..... planning of the project.

- (a) cancellation, broad
- (b) problem, deliberate
- (c) pitfalls, systematic
- (d) inconvenience, convenient
- (e) losses, temporary

**Q97.** A good management will decide not only the ..... for equipment but also its ..... for deciding priorities.

- (a) need, urgency
- (b) usefulness, utility
- (c) cost, value
- (d) requirement, necessities
- (e) technology, methodology
-

**Q98.** ..... appears to be a small error in the beginning may turn out to be a ..... in the long run.

- (a) It, disaster
- (b) What, blunder
- (c) That, debacle
- (d) It, slip
- (e) What, incident

**Q99.** Being very ..... in nature, he always uses his ..... Skills.

- (a) adamant, soft
- (b) polite, basic
- (c) humble, experimental
- (d) pushy, persuasive
- (e) mild, aggressive

**Q100.** Demand and supply do not ..... the same relationship as the one that ..... between height and weight.

- (a) possess, has
- (b) incur, is
- (c) defend, volunteers
- (d) bear, borne
- (e) have, exists

**Q101.** The population of city A is 20% more than that of city B and the population of city C is 40% more than that of city B. Find 30% of population of city A is what percent less than  $28\frac{4}{7}\%$  of population of city C?

- (a) 7.5%
- (b) 10%
- (c) 12%
- (d) 15%
- (e) 20%

**Q102.** A train running at the speed of 144 km/hr crosses a man who is running at the speed of 18 km/hr in opposite direction of train in 8 sec. Find time taken by train to cross a platform, whose length is  $66\frac{2}{3}\%$  more than length of train?

- (a) 36 sec
  - (b) 24 sec
  - (c) 12 sec
  - (d) 28 sec
  - (e) 15 sec
-

**Q103.** Speed of boat in still water is twice the speed of stream and difference between upstream and downstream speed of boat is 8 km/hours. Find total time taken by boat to cover 48 km distance in downstream and 32 km distance in upstream?

- (a) 10 hours
- (b) 12 hours
- (c) 16 hours
- (d) 18 hours
- (e) 20 hours

**Q104.** In a vessel quantity of water is 40% of quantity of milk. If 42 liter of mixture is taken out from the vessel and 32 liter of water is added, then new ratio of milk to water in vessel becomes 7 : 6. Find initial quantity of mixture in vessel?

- (a) 84 liters
- (b) 98 liters
- (c) 126 liters
- (d) 154 liters
- (e) 140 liters

**Q105.** The mark price of a jeans is Rs 700 and shopkeeper allow a discount of Rs.  $x$  and makes a profit of 12.5% *on it*. If manufacturing cost of jeans is Rs 560, then find the discount percent allow by shopkeeper on jeans?

- (a) 10%
- (b) 6%
- (c) 4%
- (d) 3%
- (e) 5%

**Directions (106-110):-** Read the given information carefully and answer the following questions.

There are four covid hospitals i.e., P, Q, R and S.

**In hospital P:** Number of male patients are 120 and number of female patients are 30% more than that of number of female patients in hospital Q.

**In hospital Q:** Number of male patients are double than that of number of female patients.

**In hospital R:** Number of male patients are 100 more than that of male patients in hospital P and total number patients in hospital R is 1000.

**In hospital S:** Number of male patients is 182 more than the number of male patients in hospital P. Average of number of female patients in hospital P and that of in hospital S is 223. Number of male patients in hospital S is 98 less number male patients in hospital Q.

**Q106.** Find difference between number of male patients and female patients in S is what percent of difference between number of male patients and female patients in Q?

- (a) 53%
  - (b) 58%
  - (c) 63%
  - (d) 60%
  - (e) 57.5%
-

**Q107.** Find difference between total number patients in hospital P and total number patients in hospital S?

- (a) 108
- (b) 118
- (c) 112
- (d) 98
- (e) 128

**Q108.** Find ratio of total number of patients in Q to that of in R?

- (a) 3: 5
- (b) 2: 5
- (c) 3: 4
- (d) 4: 5
- (e) 6: 5

**Q109.** If 20 male patients from each hospital have recovered and left their respective hospitals, then find the average of remaining male patients in all the hospitals?

- (a) 239.5
- (b) 235
- (c) 250.5
- (d) 240.5
- (e) 245.5

**Q110.** Total number of male patients in P and female patients in R together is what percent more than number of male patients in Q?

- (a) 100%
- (b) 125%
- (c) 150%
- (d) 137.5%
- (e) 175%

**Q111.** Four years ago ratio between age of Ankita and Saumya was 9 : 7. Eight year hence from present, ratio of their ages becomes 11 : 9. Find average present age of Ankita and Saumya?

- (a) 42 years
- (b) 58 years
- (c) 46 years
- (d) 52 years
- (e) 40 years

**Q112.** Working efficiency of 'A' is twice than that of 'B'. 'A' and 'B' together can complete the work in 60 days while 'A', 'B' and 'C' together can complete the same work in 45 days. Find in how many days 'B' and 'C' together can complete the work.

- (a) 90 days
  - (b) 45 days
  - (c) 30 days
  - (d) 40 days
  - (e) 75 days
-

**Q113.** An amount of Rs P is invested at the rate of 20% p.a. on compound interest annually. If the interest obtained only in third year be Rs 2700, then find the value of P?

- (a) Rs 9375
- (b) Rs 8750
- (c) Rs 7650
- (d) Rs 6750
- (e) Rs 5675

**Q114.** Sum of the circumference of two circles is 220 cm. If the ratio between the radius of these two circles is 2 : 3 then find the sum of area of bigger circle and a square whose side is two times of the radius of smaller circle?

- (a) 2140 cm<sup>2</sup>
- (b) 2150 cm<sup>2</sup>
- (c) 2160 cm<sup>2</sup>
- (d) 2170 cm<sup>2</sup>
- (e) 2180 cm<sup>2</sup>

**Q115.** Veer share of profit is Rs.12000 out of total profit of Rs.18000 in a business and he had invested Rs.16000 more amount than his partner Arun for 8 months while his partner invested his amount for a year. Find how much amount was invested by Veer?

- (a) 28000 Rs.
- (b) 10000 Rs.
- (c) 24000 Rs.
- (d) 14000 Rs.
- (e) 12000 Rs.

**Q116.** A bag contains 6 red balls and 8 blue balls. If two balls taken out from the bag, then find probability of getting at most one blue ball?

- (a)  $\frac{67}{91}$
- (b)  $\frac{9}{13}$
- (c)  $\frac{69}{91}$
- (d)  $\frac{61}{91}$
- (e) None of these

**Q117.** There are five numbers and the second number is 25% more than the first number, while third number is 20% more than second number. If the average of all the five numbers is 126 and that of first, fourth and fifth number is 300, then find the sum of last two numbers?

- (a) 180
  - (b) 120
  - (c) 140
  - (d) 156
  - (e) None of these
-

**Q118.** Ayush can travel from his house to office in 'a' hour if he does not stop at any place. If he increases his speed by 8 km/hr but stops at Tea & cigarette shop for total 30 minutes, then he reaches his office 30 minutes earlier. If the distance between his house & office is 48 km then find value of 'a'?

- (a) 5
- (b) 4
- (c) 2.5
- (d) 2
- (e) 3

**Direction (119-123):** Each of the questions below consists of a question and two statements numbered **statement I** and **statement II** given below it. You have to decide whether the data provided in the statements are sufficient to answer the question. Read both the statements and give answers accordingly.

- (a) If the data in statement I alone are sufficient to answer the question, while the data in statement II alone are not sufficient to answer the question.
- (b) If the data in statement II alone are sufficient to answer the question, while the data in statement I alone are not sufficient to answer the question.
- (c) If the data either in statement I alone or in statement II alone are sufficient to answer the question.
- (d) If the data given in both statements, I and II together are not sufficient to answer the question.
- (e) If the data in both statements I and II together are necessary to answer the question.

**Q119.** Find the breadth of rectangle, if the length of rectangle is 30cm.

Statement I: Perimeter of the rectangle is equal to the perimeter of the square whose area is  $576 \text{ cm}^2$ .

Statement II: The perimeter of square is 96 cm and the diagonal of the square is  $\frac{4\sqrt{2}}{3}$  times of the breadth of the rectangle.

**Q120.** Two trains, running in the opposite direction cross each other in 12 sec. What is the difference between their lengths?

Statement I: The difference between their speeds is 8 m/sec.

Statement II: The sum of their speeds is 24 m/s.

**Q121.** Can a water tank of 500 litres capacity be filled by two inlet pipes P and Q together in less than 22 hours?

Statement I: If pipe P is opened alone then it takes 25 minutes to fill the water tank.

Statement II: if pipe Q can fill 2 litres of water per minute.

**Q122.** In a set of four numbers, the average of the first three numbers is three times of the fourth number. Find the fourth number.

Statement I: Average of the first two numbers is equal to the average of the next two numbers.

Statement II: Average of the last three numbers is equal to two times of the first number.

**Q123.** If Z can complete a piece of work in 12 days, then find the time taken by X and Y together to complete the same work.

Statement I: Time taken by X, Y and Z together to complete the same work in  $3\frac{1}{5}$  days.

Statement II: The efficiency of X, Y and Z is in the ratio of 8: 3 : 4 to doing the same work.

---

**Direction (124 - 128):** What approximate value should come in the place of question (?) mark.

**Q124.**  $\sqrt{39.99\% \text{ of } 899.98 - 421.03 + 350.01 + 271.99} = (?)^2$

- (a) 17
- (b) 19
- (c) 18
- (d) 16
- (e) 15

**Q125.**  $(3.99)^3 \times (32.03)^2 \div (7.99)^3 = (2)^?$

- (a) 9
- (b) 5
- (c) 7
- (d) 6
- (e) 8

**Q126.**  $3.99 \text{ of } 142.99 \div 26.03 \times 11.99 - 199.99 = ?$

- (a) 58
- (b) 64
- (c) 72
- (d) 80
- (e) 74

**Q127.**  $? + (13.03)^3 = (58.98)^2 - 680.97$

- (a) 603
- (b) 593
- (c) 613
- (d) 623
- (e) 583

**Q128.**  $48.94\% \text{ of } 180.02 - 70.01\% \text{ of } 119.99 = 8.99 - ?$

- (a) 4.2
- (b) 5.2
- (c) 4.9
- (d) 4.6
- (e) 4.8

**Directions (129-134):** - In each of the following questions, two equations (I) and (II) are given, you have to solve both the equations and give answer.

- (a) If  $x > y$
- (b) If  $x \geq y$
- (c) If  $x < y$
- (d) If  $x \leq y$
- (e) If  $x = y$  or no relation can be established between  $x$  and  $y$ .

**Q129. I.**  $x^2 + x - 6 = 0$                       **II.**  $y^2 + 7y + 11 = -1$

**Q130. I.**  $2x^2 - 17x + 35 = 0$                       **II.**  $4y^2 - 19y + 21 = 0$

---

Q131. I.  $\sqrt[3]{x-512} = 11$

II.  $y + 353 = 13^3$

Q132. I.  $x^2 + 39x = -380$

II.  $y^2 + 37y = -342$

Q133. I.  $x - \frac{2}{x} = \frac{2}{x}$

II.  $y^2 - 2y + 1 = 0$

Q134. I.  $x^2 - 21x + 38 = 0$

II.  $y^2 - 38y + 361 = 0$

**Directions (135-140):** Find the wrong number in the following number series.

**Q135.** 25, 50, 85, 130, 185, 245, 325

- (a) 325
- (b) 245
- (c) 25
- (d) 130
- (e) 85

**Q136.** 7260, 7240, 7210, 7120, 6850, 6040, 3610

- (a) 7210
- (b) 6850
- (c) 6040
- (d) 7240
- (e) 7260

**Q137.** 188, 260, 332, 404, 476, 550, 620

- (a) 620
- (b) 550
- (c) 188
- (d) 404
- (e) 260

**Q138.** 1406, 1420, 1356, 1500, 1244, 1644, 1068

- (a) 1244
  - (b) 1068
  - (c) 1406
  - (d) 1356
  - (e) 1500
-

**Q139.** 1320, 598, 480, 456, 450, 448, 447

- (a) 447
- (b) 598
- (c) 450
- (d) 456
- (e) 448

**Q140.** 5, 7, 17, 47, 115, 235, 467

- (a) 5
- (b) 7
- (c) 17
- (d) 235
- (e) 115

**IDBI Asst Manager 2021 Previous Year Paper (Solutions)**

**Solutions (1-5):** L lives East of M. F who doesn't live on even numbered floor lives North to L. B lives North-east to M as well as South-west to D. Here, we get three possibilities i.e. Case 1, Case 2 and case 3.

	Case 1			Case 2			Case 3		
Floors	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3	Flat 1	Flat 2	Flat 3
4			D			D/			D
3		B	F		F	D/		B/	F
2	M		L		B			B/	
1				M	L		M		L

One floor gap is between G and K who doesn't live West of F. K lives above C and below A who live to South of J. J lives West of H. Here, Case 1 and Case 3 are ruled out. A lives above E who lives East of B. G does not live in an even numbered flat.

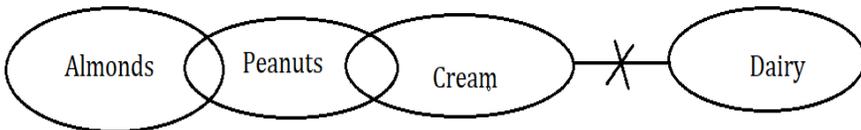

So, the final arrangement will be: -

Floors	Flat 1	Flat 2	Flat 3
4	J	H	G
3	A	F	D
2	K	B	E
1	M	L	C

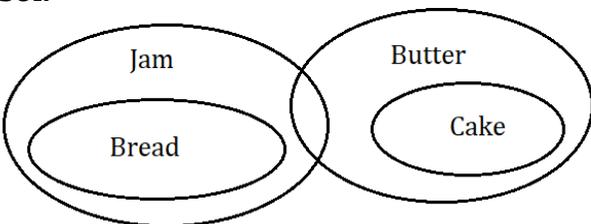

- S1. Ans.(c)
- S2. Ans.(c)
- S3. Ans.(d)
- S4. Ans.(a)
- S5. Ans.(b)

**Solutions (6-7):**

S6. Ans.(e)  
Sol.

S7. Ans.(b)  
Sol.

**Solutions (8-12):** Logic: In step 1: the place value of the first and last letter of the word is written.

In step 2: the difference of the numbers are taken and kept at the last. The place value of the next letter from the left end is written at first.

In step 3: The sum of the numbers are taken and kept at first. The place value of the next letter from the right end is written at last.

In step 4: the difference of the numbers are taken and kept at the last. The place value of the next letter from the left end is written at first.

Step V: Sum of numeral value of all digits.

**Input: offer right power annoy sheet**

Step 1: 15ffe18 18igh20 16owe18 1nno25 19hee20

Step 2: 6fe3 9gh2 15we2 14no24 8ee1

Step 3: 9f5 11g8 17w5 38n15 9e5

Step 4: 64 73 2312 1423 54

Step 5: 10 10 8 10 9

**S8. Ans.(b)**

**S9. Ans.(a)**

**S10. Ans.(c)**

**S11. Ans.(d)**

**S12. Ans.(b)**

**S13. Ans.(b)**

**Sol.** Clearly, trade unions provide a common platform for the workers to voice their demands and protests and thus ensure that they are not subdued or exploited. So, argument II holds strong, while I and III do not. Besides, the idea of imitation of other countries in the implementation of a certain policy, holds no relevance. So, argument IV also not hold strong.

**S14. Ans.(e)**

**Sol.** For I-False, because it cannot be assumed from the given statement that there is no other woman of India is enough capable for such designation.

For II-False, because we cannot said from the given statement that woman are better judge than man.

For III-True, because it is clear from the given statement that Neeru Chadha is selected as member of ITLOS. So, it can be assumed that she is better than all other candidates.

**Solutions (15-19):** From the given statements, only two employees are junior than the one who has 8 years of working experience. 15 years is the maximum years of working experience which means CEO has 15 years of experience. The CEO salary is 5k less than the square of the smallest two-digit number which means CEO has 95k salary ( $100-5=95$ ). At most one person is senior to S. Here we have two possible cases i.e., case1 and case2. Only two designations are there in between the designations of S and P.

Designations	CASE 1			CASE 2		
	Persons	Experience (years)	Salary	Persons	Experience (years)	Salary
Chief Legal Officer (CLO)						
Chief Marketing Officer (CMO)	P					
Chief Technology Officer (CTO)		8		P	8	
Chief Financial Officer (CFO)						
Chief Operating Officer (COO)	S					
Chief Executive Officer (CEO)		15	95k	S	15	95k

CMO is getting 50K. The sum of the salaries of CLO and CMO is same as the salary of the one who has the maximum work experience which means CLO gets 45K. The working experiences of CMO and CTO are in consecutive years which means CMO has 7 years of experience.

Designations	CASE 1			CASE 2		
	Person	Experience (years)	Salary	Persons	Experience (years)	Salary
Chief Legal Officer (CLO)			45K			45K
Chief Marketing Officer (CMO)	P	7	50K		7	50K
Chief Technology Officer (CTO)		8		P	8	
Chief Financial Officer (CFO)						
Chief Operating Officer (COO)	S					
Chief Executive Officer (CEO)		15	95k	S	15	95k

R is junior than P. Q is junior than R and having the working experience equal to the sum of the digit of the salary what R gets and therefor, case 1 gets eliminated here. Hence, Q has 5 years of experience. The salary of CTO is less than 57K which means CFO gets 60 K. The one who is COO has 3 years more experience than the one who is getting 60K which means COO has 13 years of experience. The one who has 10 years of experience earns 10K less than U who is not CFO. The salary of P is a multiple of 11 which means salary of P is 55k (between 50K and 60K)

Designations	Persons	Experience(years)	Salary
Chief Legal Officer (CLO)	Q	5	45K
Chief Marketing Officer (CMO)	R	7	50K
Chief Technology Officer (CTO)	P	8	55K
Chief Financial Officer (CFO)	T	10	60K
Chief Operating Officer (COO)	U	13	70K
Chief Executive Officer (CEO)	S	15	95K

**Solutions (20-24):**

**S20. Ans.(e)**

**Sol.** By Combining I, II and III we get “fortune” is coded as “pw”.

Words	Codes
The	Ws
Christmas	Rw
New	Kp
This	Pm
Tree	Mk
Fortune	Pw
Year	Sm

**S21. Ans.(e)**

**Sol.** By Combining I, II and III we get R lives on 2<sup>nd</sup> floor.

Floors	Persons	Persons
7	P	T
6	S	S
5	U	V
4	Q	U
3	V	Q
2	R	R
1	T	P

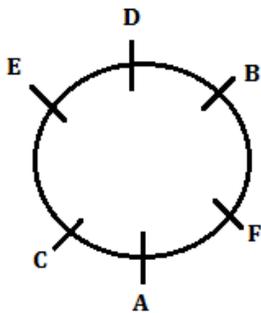

**S22. Ans.(a)**

**Sol.** By combining the both I and II. M was born on 5<sup>th</sup> April.

Months	Dates	Case 1	Case 2
		Persons	Persons
January	5	K	K
	14	Q	Q
April	5	M	M
	14	N	N
June	5	L	P
	14	P	L

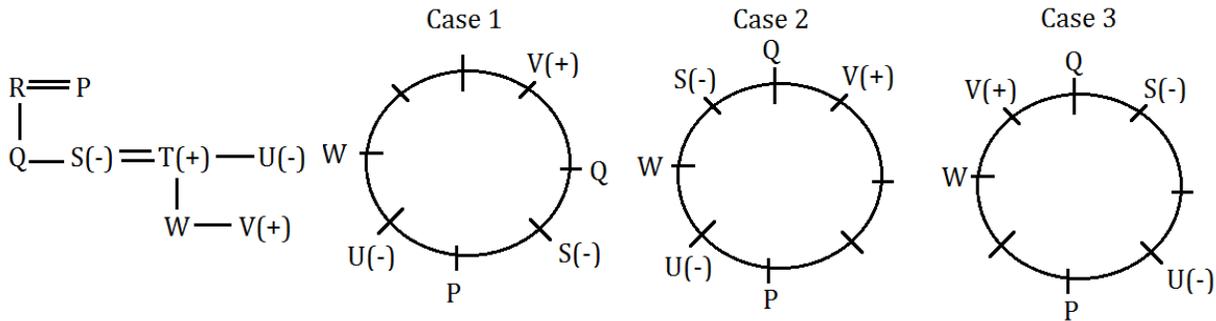

**S23. Ans.(b)**

**Sol.** By combining the both I and III. F sits 2<sup>nd</sup> to the left of D.

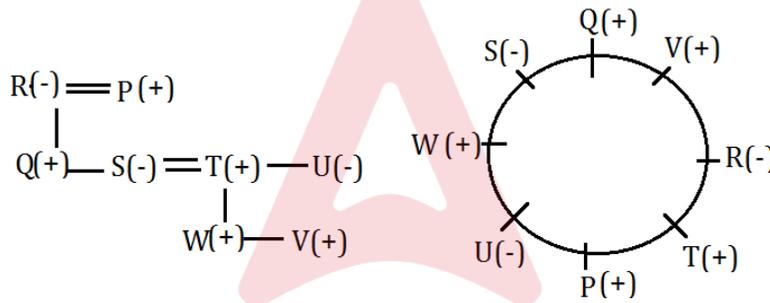

S24. Ans.(d)

**Solutions (25-29):** W sits 2<sup>nd</sup> to the left of P who is spouse of R. Two persons sit between P and Son of T. T is son in law of R. S is spouse of T who is father of W. Q who is sibling of S is an immediate neighbor of V and S. V faces U who is sister in law of S. U is unmarried. Here, we get three possibilities i.e. Case 1, Case 2 and Case 3.

R sits immediate right of T who doesn't sit next to V. Here, Case 1 and Case 3 are ruled out. No two females sit adjacent to each other. So, the final arrangement will be: -

- S25. Ans.(b)
- S26. Ans.(d)
- S27. Ans.(c)
- S28. Ans.(a)
- S29. Ans.(b)

**Solutions (30-31):** A S 2 ! D F @ 9 G H 7 # 8 J K 3 \$ % L Z \* 5 ^ X C 4 V & B 6 N 1

Step I. A S 2 D L X ! F @ 9 G H 7 # 8 J K 3 \$ % Z \* 5 ^ C 4 V & B 6 N 1

Step II. A S 2 D L X ! F @ G H 7 # J K 3 \$ % Z \* 5 ^ C 4 V & B 6 9 8 N 1

Step III. B C A S 2 D L X ! F @ G H 7 # J K 3 \$ % Z \* 5 ^ 4 V & 6 9 8 N 1

- S30. Ans.(e)
- S31. Ans.(e)

S32. Ans.(d)

**Sol.** In the above question it is clear that Statement II will be the cause and Statement I will be its effect. Because it is mentioned in statement II that jawans have doubt how to deal with the women so this will be cause and its effect will be, The Indian Army will recruit women in combat roles to tackle such kind of situation.

S33. Ans.(c)

Sol. Statement (I) suggests that royals are not kings or queens by choice but because they have to, for the welfare of the country which is in line with the statement. (II) fortifies the statement by stating out an example in which he had to face problems because of his royal background. (III) is irrelevant to the statement.

Solutions (34-35):

$$B > C > E > D > A$$

$$32 \qquad 20$$

S34. Ans.(b)

S35. Ans.(b)

Solutions (36-40): Step I- P works in Mumbai but doesn't work at HR department. Q works in Wipro but doesn't work in Jaipur and Kolkata. O works in Content department but doesn't work in TCS and IBM. Person who works at Production in Infosys doesn't work in New Delhi and Mumbai.

Persons	Department	Company	City
P	HR		Mumbai
Q		Wipro	Jaipur, Kolkata
O	Content	TCS, IBM	
	Production	Infosys	New Delhi

Step II- N works at Sales but doesn't work in Chennai. Person who works in Mahindra works in Chennai. M doesn't work in Kolkata. Person who works in Marketing department doesn't work in IBM.

So, the final arrangement will be: -

Persons	Department	Company	City
P	Marketing	TCS	Mumbai
Q	HR	Wipro	New Delhi
O	Content	Mahindra	Chennai
M	Production	Infosys	Jaipur
N	Sales	IBM	Kolkata

S36. Ans.(d)

S37. Ans.(a)

S38. Ans.(c)

S39. Ans.(e)

S40. Ans.(c)

S41. Ans.(b)

Sol. Diameter of the circle =  $\frac{112}{4} = 28 \text{ cm}$

Area of the square =  $784 \text{ cm}^2$

Area of the circle =  $\pi r^2 = 616 \text{ cm}^2$

Quantity I - Required difference =  $168 \text{ cm}^2$

Quantity II -  $172 \text{ cm}^2$

So, Quantity I < Quantity II

**S42. Ans.(a)**

**Sol.** Let the cost price of the table be Rs x

ATQ

$$\frac{1600-x}{x} \times 100 + 16 = \frac{1800-x}{x} \times 100$$

$$x = 1250$$

**Quantity I** - Rs. 1250

**Quantity II** - Rs. 1200

So, Quantity I > Quantity II

**S43. Ans.(e)**

**Sol.** Equivalent interest received in two years at 15% CI

$$= 15 + 15 + \frac{15 \times 15}{100} = 32.25\%$$

$$\text{Amount received from B} = 2400 \times \frac{132.25}{100} = \text{Rs } 3174$$

$$\text{Amount received from C} = Y \times \frac{132.25}{100} = \text{Rs } 1.3225Y$$

ATQ

$$1.3225Y - 3174 = 1058$$

$$\Rightarrow Y = \text{Rs } 3200$$

$$\text{Quantity I - Required average} = \frac{2400+3200}{2} = \text{Rs. } 2800$$

**Quantity II** - Rs. 2800

So, Quantity I = Quantity II

**S44. Ans.(a)**

**Sol.** ATQ -

$$72 \times \frac{5}{18} = \frac{L+420}{30}$$

$$L = 600 - 420$$

$$L = 180 \text{ meters}$$

Let speed of man = s km/hr

$$(72 + s) \times \frac{5}{18} = \frac{180 \times 8}{54}$$

$$360 + 5s = 480$$

$$5s = 120$$

$$s = 24 \text{ km/hr}$$

**Quantity I** - Speed of man = 24 km/hr

**Quantity II** - 20 km/hr

So, Quantity I > Quantity II

**S45. Ans.(e)**

**Sol.** ATQ

$$\frac{x \times (x+10)}{x+(x+10)} = 12$$

$$x = 20 \text{ hours}$$

**Quantity I** - Required percentage = 150%

**Quantity II** - 150%

So, Quantity I = Quantity II

**S46. Ans.(a)**

**Sol.** Total number of females visit P and Q  
 $= 2400 \times \frac{(100-40)}{100} + 2000 \times \frac{(100-45)}{100} = 2540$

Total number of children visit R and S =  $4500 \times \frac{15}{100} + 6000 \times \frac{20}{100} = 1875$

Required ratio =  $2540 : 1875 = 508 : 375$

**S47. Ans.(c)**

**Sol.** Req. average =  $\frac{6000 \times \frac{45}{100} + 2400 \times \frac{30}{100}}{2}$   
 $= \frac{2700 + 720}{2} = 1710$

**S48. Ans.(e)**

**Sol.** Total number of females visit S =  $6000 \times \frac{(100-65)}{100} = 2100$

Total number male visit Q =  $2000 \times \frac{40}{100} = 800$

Required % =  $\frac{2100}{800} \times 100 = 262.5\%$

**S49. Ans.(c)**

**Sol.** Total number of children visit P and S

$= 2400 \times \frac{10}{100} + 6000 \times \frac{20}{100}$   
 $= 240 + 1200 = 1440$

Total number female visits Q and R

$= 2000 \times \frac{(100-45)}{100} + 4500 \times \frac{(100-65)}{100}$   
 $= 1100 + 1575 = 2675$

Required difference =  $2675 - 1440 = 1235$

**S50. Ans.(b)**

**Sol.** Req. sum =  $4500 \times \frac{(100-65)}{100} + 2000 \times \frac{(100-45)}{100} + 6000 \times \frac{(100-65)}{100}$   
 $= 1575 + 1100 + 2100 = 4775$

**S51. Ans.(c)**

**Sol.** Amount received by Rohit =  $4000 + \frac{4000 \times 10 \times 2}{100} = \text{Rs. } 4800$

**S52. Ans.(e)**

**Sol.** interest amount received by Karan =  $\frac{8000 \times 10 \times 2}{100} = \text{Rs. } 1600$

Interest amount received by Mahesh =  $\frac{6000 \times 12 \times 4}{100} = \text{Rs. } 2880$

Required % =  $\frac{2880 - 1600}{1600} \times 100 = 80\%$

**S53. Ans.(d)**

**Sol.** total interest amount received by Anurag & Rohit together =  $\frac{4000 \times 16 \times 4}{100} + \frac{4000 \times 10 \times 2}{100} = \text{Rs. } 3360$

**S54. Ans.(a)**

**Sol.** interest received by Karan (SI) =  $\frac{8000 \times 10 \times 2}{100} = \text{Rs.}1600$

Interest received by Karan (CI) =  $8000 \left(1 + \frac{10}{100}\right)^2 - 8000 = \text{Rs.}1680$

Required value =  $1680 - 1600 = \text{Rs.} 80$

**S55. Ans.(e)**

**Sol.** Interest received by Karan =  $\frac{8000 \times 10 \times 2}{100} = \text{Rs.} 1600$

Interest received by Anurag =  $\frac{4000 \times 16 \times 4}{100} = \text{Rs.} 2560$

Interest received by Mahesh =  $\frac{6000 \times 12 \times 4}{100} = \text{Rs.} 2880$

Interest received by Rohit =  $\frac{4000 \times 10 \times 2}{100} = \text{Rs.} 800$

Clearly, Mahesh had received highest interest

**S56. Ans.(c)**

**Sol.** Required percentage =  $\frac{20-12.5}{20} \times 100$

=  $\frac{7.5}{20} \times 100 = 37.5\%$

**S57. Ans.(d)**

**Sol.** Required angle =  $\frac{22.5}{100} \times 360 = 81^\circ$

**S58. Ans.(a)**

**Sol.** No. of male employee who use car =  $\frac{60}{100} \times \frac{22.5}{100} \times 800 = 108$

No. of female employee who use Rickshaw =  $\frac{25}{100} \times \frac{20}{100} \times 800 = 40$

So, required difference =  $108 - 40 = 68$

**S59. Ans.(b)**

**Sol.** Average no. of employee who use Car, Bus and Bike =  $\frac{1}{3} \times \left[\frac{(22.5+12.5+25)}{100} \times 800\right]$   
= 160

Total no. of employee who use Rickshaw and Bicycle together =  $\frac{20+20}{100} \times 800 = 320$

So, required difference =  $320 - 160 = 160$

**S60. Ans.(d)**

**Sol.** Percentage of employee who use transport =  $100 - 20 = 80\%$

So, no. of employee who do not use any transport =  $\frac{800}{80} \times 20 = 200$

No. of employee who use Bus =  $\frac{25}{100} \times 800 = 200$

So, required ratio =  $200 : 200$

= 1 : 1

**S61. Ans.(c)**

**Sol.** From the first paragraph and the line *“The current regulatory architecture is woefully inadequate to comprehend and determine whether this corporate concentration gives rise to monopoly power.”* We can infer the statement in option (c) is correct. Hence, Option (c) is correct answer choice.

**S62. Ans.(a)**

**Sol.** As per the line in the third paragraph *“The dictionary definition of monopoly is “a market situation where one firm, or a group of firms acting in concert, controls the supply of a good or a service”.* option (a) is correct. Whereas option (b) is false and contradicts the given line. As for option (c), it gives the implication of monopoly. Hence, option (a) is correct answer choice.

**S63. Ans.(b)**

**Sol.** Statement (III) is correct as per the lines of the paragraph second *“The intent and structure of regulation around the world has therefore attempted to mitigate or break up monopolies in an attempt to negate this abusive pricing power”.* As for statements (I) and (II) they either contradict the passage or are not mentioned in the passage. Hence, option (b) is correct answer choice.

**S64. Ans.(c)**

**Sol.** The lines of the third paragraph *“With significant inputs from the Chicago school, this “Brandeis philosophy” has morphed into one of consumer welfare, measured principally by the price paid by consumers as the test of policy effectiveness”* can be used to answer the question. And option (c) can be inferred from these lines. Hence, option (c) is correct answer choice.

**S65. Ans.(e)**

**Sol.** Options (a), (b) and (c) are not mentioned in the passage. And (d) contradicts the line of the paragraph *“Landmark rulings came in 2004 against the “lack of interoperability” of the Microsoft operating system and in 2017 against Google’s Android operating system”.* Hence, option (e) is correct answer choice.

**S66. Ans.(d)**

**Sol.** The line given in the paragraph one *“The report points out that changes in land use, and not just vehicular and industrial emissions, have upset natural climatic conditions, and that the world’s food systems are responsible for between 25% and 30% of greenhouse gas emissions.”* shows that statements (I) and (II) are true, whereas (III) is nowhere mentioned. Hence, option (d) is correct answer choice.

**S67. Ans.(d)**

**Sol.** The last lines of the paragraph 1 *“These relate directly to agriculture and land use, as also to the storage, packaging, processing, retailing and consumption of food. It’s not just the way we eat that has to change—vegetarian diets are better—but also how we grow, store and transport our food. The world’s farms and forests have to be managed better to prevent land degradation, says the Special Report on Climate Change and Land. No amount of funding for disaster relief will be enough if we’re not willing to confront the way we abuse the land we live on (and off)”.* proves that the option (a) is false and options (b) and (c) are the correct. Hence, option (d) is correct answer choice.

**S68. Ans.(a)**

**Sol.** From the last line of the paragraph second *“The relationship between degradation and flooding is long established: Intensive rainfall tends to erode soil, leaving croplands with lower capacity to retain moisture, which eventually leads to drought.”* Option (a) is only true. Hence, option (a) is correct answer choice.

**S69. Ans.(d)**

**Sol.** Statement (I) can be inferred from the lines *“The diversity of India’s geography means each region is likely to need a localized management plan.”* And Statement (III) from the lines *“changes in land conditions can affect temperature and rainfall in regions as far as hundreds of kilometers away”*. As for the statement (II) it contradicts the lines *“Turning farms eco-friendly will mean adopting farming practices that are in harmony with nature. Yet, “modernity” in India often means quite the opposite. This irony needs to be overcome.”* Hence, option (d) is correct answer choice.

**S70. Ans.(c)**

**Sol.** Though all the options can help to counter climate change but only option (c) is mentioned in the passage. The lines in the beginning of the third paragraph *“The diversity of India’s geography..... the report observes”* can be used to infer the option (c). Hence, option (c) is correct answer choice.

**S71. Ans.(d)**

**Sol.** From the paragraph and the lines *“Usually, a delayed monsoon or a drought, combined with compelling images of parched lands and queues for water in urban areas raise an alarm in the minds of the public. Similarly, episodes of inter-State river water disputes catch public attention. However, this time, it was somewhat different. Videos and news reports claiming that Indian cities are running out of groundwater went viral.”* We can infer the statements (I) and (II). Whereas the statement (III) is nowhere mentioned. Hence, Option (d) is correct answer choice.

**S72. Ans.(b)**

**Sol.** As per the line in the third paragraph *“Her perseverance led to an eventual conclusion that there was no sure evidence for this assessment”* option (b) is correct answer choice.

**S73. Ans.(b)**

**Sol.** The statements (I) and (II) are false as per the lines *“To be fair to Niti Aayog, its projection was only a means to an end goal: leveraging some action from the Indian States. The report’s central goal was to propose a tool, an index, to monitor the States’ water resource management strategies and provide the necessary course-shift, beyond supply augmentation approaches”* of the fourth paragraph. And statement (III) is correct as per the lines of the paragraph third *“the Niti Aayog report, especially the piece of information that said: “21 major cities are expected to run out of groundwater as soon as 2020, affecting [nearly] 100 million people.””*. Hence, option (b) is correct answer choice.

**S74. Ans.(a)**

**Sol.** The phrase **“lost some of its sheen”** means decrease in the amount or craze of something. So, option (a) depicts the exact meaning of the phrase as used in the passage. Hence, option (a) is correct answer choice.

**S75. Ans.(b)**

**Sol.** The words “approaches” and “engage” need to be interchanged. As with ‘to’ plurals are never used. Other words are in their correct positions. Hence, option (b) is correct answer choice.

**S76. Ans.(a)**

**Sol.** *world* is replaced by *world’s*

**S77. Ans.(d)**

**Sol.** Replace ‘is’ with ‘are’

**S78. Ans.(d)**

**Sol.** Replace ‘are’ with ‘is’

**S79. Ans.(c)**

**Sol.** Replace ‘competency’ with ‘competence’

**S80. Ans.(b)**

**Sol.** Replace ‘on’ with ‘for’

**S81. Ans.(c)**

**Sol.** Replace ‘does make him feel’ with ‘makes him feel’.

**S82. Ans. (a)**

**Sol.** Replace ‘what he wanted me’ with ‘how he wanted me’.

**S83. Ans.(b)**

**Sol.** Replace ‘that we could extend’ with ‘that we had extended’

**S84. Ans.(e)**

**Ans.** No correction required

**S85. Ans.(e)**

**Sol.** No correction required

**S86. Ans.(c)**

**Sol.** Option (c) is the most appropriate choice. The paragraph talks about the privatization of God, the supreme entity. As the second line refers about how God cannot be controlled by certain individuals or communities or some dominant males , only option (c) fits as it mentions about how equivalently no human can claim copyright over their ‘gods’.

**S87. Ans.(d)**

**Sol.** The sentence that must be filled in the given blank is option (d).This is so because the paragraph is referring about the social expenditure that was raised by the government which raised wages in the informal sector. To portray its aftermaths the only option that suits is option (d) , that is it increased minimum support prices(MSP) for farmers .All other options do not satisfy the given blank .Hence option (d) is the answer.

**S88. Ans.(b)**

**Sol.** Only option (b) fills the blank in the most appropriate way. As the next line after the blank mentions about the specific exception, we have to fill the blank with the exception that is referred. In option (b), the only exception to the rule of anti -corruption law is given that is, when one is forced to give a bribe. Hence option (b) is the answer.

**S89. Ans.(c)**

**Sol.** The most suitable option here is option (c).As the paragraph talks about macroeconomics, the branch of economics concerned with large-scale or general economic factors, such as interest rates and national productivity , which tend to advance ,this is the only statement among the given options which acts as an opener for the paragraph. The next line also supports the first line which talks about the economies which are basically self-correcting. Hence option (c) is the appropriate answer.

**S90. Ans.(e)**

**Sol.** The most appropriate answer here that fills the blank is option (e).This is so because the line before the blank talks about the action which has a goal or destination. So the next line must describe about how that action must be led to or in what way it must work and that is described by the statement (e) .That is , one's concentration should not be diverted as it affects a goal ,once the action starts. Hence option (e) is the answer.

**S91. Ans.(c)**

**Sol.** among the given words, "staunch" has been used correctly in the statements (ii) and (iii). In the statement (i), "staunch" must be replaced with "forlorn". Hence, option (c) is the most suitable answer choice.

Staunch- very loyal and committed in attitude/ (of a wall) of strong or firm construction  
Forlorn is something or someone with a very poor condition, or is pitifully lonely or sad.

**S92. Ans.(d)**

**Sol.** Among the given statements, "magnanimous" has been used incorrectly in the statements (i) and (ii). Hence, option (d) is the most suitable answer choice.

Magnanimous- generous or forgiving, especially towards a rival or less powerful person

**S93. Ans.(e)**

**Sol.** Among the given statements, "tantamount" has been used incorrectly in all the statements. Hence, option (e) is the most suitable answer choice.

Tantamount- equivalent in seriousness to; virtually the same as

**S94. Ans.(b)**

**Sol.** Among the given statements, "delineate" has been correctly used in the statements (i) and (ii). In the statement (iii), "delineate" must be replaced with "tantamount". Hence, option (b) is the most suitable answer choice.

Delineate- describe or portray (something) precisely/ indicate the exact position of (a border or boundary)

**S95. Ans.(c)**

**Sol.** Among the given statements, “ameliorate” has been correctly used in statements (ii) and (iii). In the first statement “ameliorate” must be replaced with “”. Hence, option (c) is the most suitable answer choice.

**S96. Ans.(c)**

**Sol.** ‘pitfalls, systematic’ fits the sentence appropriately where ‘pitfalls’ means a hidden or unsuspected danger or difficulty and ‘systematic’ means done or acting according to a fixed plan or system.

**S97. Ans.(a)**

**Sol.** ‘need, urgency’ fits the sentence appropriately where ‘urgency’ means importance requiring swift action.

**S98. Ans.(b)**

**Sol.** ‘What, blunder’ fits the sentence appropriately where ‘blunder’ means a stupid or careless mistake.

**S99. Ans.(d)**

**Sol.** ‘pushy, persuasive’ fits the sentence appropriately where ‘pushy’ means excessively or unpleasantly self-assertive or ambitious and ‘persuasive’ means good at persuading someone to do or believe something through reasoning or the use of temptation.

**S100. Ans.(e)**

**Sol.** ‘have, exists’ is the correct use.

**S101. Ans.(b)**

**Sol.** Let population of city B =  $100x$

So, population of city A =  $120x$

And, population of city C =  $140x$

30% of population of city A =  $36x$

$28\frac{4}{7}\%$  of population of city C =  $140x \times \frac{2}{7} = 40x$

Required percentage =  $\frac{40x-36x}{40x} \times 100 = 10\%$

**S102. Ans.(b)**

**Sol.** Let length of train be ‘L’ meters

ATQ –

$$(144 + 18) \times \frac{5}{18} = \frac{L}{8}$$

L = 360 meters

Length of platform =  $360 + 360 \times \frac{2}{3} = 600 \text{ meters}$

Let train takes ‘t’ sec to cross the platform

$$144 \times \frac{5}{18} = \frac{360+600}{t}$$

40 t = 960

t = 24 sec

**S103. Ans.(b)**

**Sol.** Let speed of stream =  $s$  km/hr

So, speed of boat in still water =  $2s$  km/hr

ATQ -

$$(2s + s) - (2s - s) = 8$$

$$2s = 8$$

$$s = 4 \text{ km/hr}$$

$$\text{Downstream speed} = (2 \times 4 + 4) = 12 \text{ km/hr}$$

$$\text{Upstream speed} = (2 \times 4 - 4) = 4 \text{ km/hr}$$

$$\text{Required time} = \frac{48}{12} + \frac{32}{4} = 12 \text{ hours}$$

**S104. Ans.(e)**

**Sol.** Let total quantity of mixture in vessel =  $x$  liters

Ratio of milk to water in vessel =  $100\% : 40\% = 5 : 2$

ATQ -

$$\frac{\frac{5x}{7} - 42 \times \frac{5}{7}}{\frac{2x}{7} - 42 \times \frac{2}{7} + 32} = \frac{7}{6}$$

$$\frac{5x - 210}{2x + 140} = \frac{7}{6}$$

$$\frac{5x - 210}{2x + 140} = \frac{7}{6}$$

$$30x - 1260 = 14x + 980$$

$$16x = 2240$$

$$x = 140 \text{ liter}$$

**S105. Ans.(a)**

**Sol.** Given,

Mark price of jeans = 700 Rs

Discount =  $x$  Rs

Cost price of jeans = 560 Rs

ATQ,

$$(700 - x) = 560 \times \frac{112.5}{100}$$

$$x = 70 \text{ Rs}$$

$$\text{Required discount percentage} = \frac{70}{700} \times 100 = 10\%$$

**Solutions (106-110):** Let number of female patients in Q =  $100x$

Then number of male patients in hostel Q =  $200x$

$$\text{Number of female patients in P} = 100x \times \frac{130}{100} = 130x$$

$$\text{Number of male patients in R} = 120 + 100 = 220$$

$$\text{Number of female patients in hostel R} = 1000 - 220 = 780$$

$$\text{Total number of female patients in P and that of in S} = 2 \times 223 = 446$$

$$\text{Number of female patients in hostel S} = (446 - 130x)$$

$$\text{Number of male patients in S} = 302$$

ATQ

$$200x - 302 = 98$$

$$x = 2$$

Hospital	Male patients	Female patients
----------	---------------	-----------------

P	120	260
Q	400	200
R	220	780
S	302	186

**S106. Ans.(b)**

**Sol.** Required percent =  $\frac{(302-186)}{(400-200)} \times 100 = 58\%$

**S107. Ans.(a)**

**Sol.** Required difference =  $(302 + 186) - (120 + 260) = 108$

**S108. Ans.(a)**

**Sol.** Required ratio =  $\frac{600}{1000} = \frac{3}{5}$

**S109. Ans.(d)**

**Sol.** Required average =  $\frac{100+380+200+282}{4} = 240.5$

**S110. Ans.(b)**

**Sol.** Total number of male patients in P and female patients in R together = 900

Required percentage =  $\frac{900-400}{400} \times 100 = 125\%$

**S111. Ans.(d)**

**Sol.** Let present age of Ankita and Saumya be x and y respectively.

$$\frac{x-4}{y-4} = \frac{9}{7}$$

$$\Rightarrow -7x + 9y = 8 \dots\dots(i)$$

Also,

$$\frac{x+8}{y+8} = \frac{11}{9}$$

$$\Rightarrow 9x - 11y = 16 \dots\dots(ii)$$

Solving (i) and (ii)

$$x = 58 \text{ yr}$$

$$y = 46 \text{ yr}$$

$$\text{required average} = \frac{1}{2}(58 + 46) = 52 \text{ yr}$$

**S112. Ans.(a)**

**Sol.** Let per day work of A = 2x units

So, per day work of B = x unit

So, total unit of work =  $(2x + x) \times 60 = 180x$  units

Let, per day work of C = y unit

$$(2x + x + y) \times 45 = 180x \text{ units}$$

$$y = x$$

Time required to complete the work by B & C together

$$= \frac{180x}{(x+x)} = 90 \text{ days}$$

**S113. Ans.(a)**

**Sol.** ATQ,

$$P \times \frac{120}{100} \times \frac{120}{100} \times \frac{120}{100} - P \times \frac{120}{100} \times \frac{120}{100} = 2700$$

$$P \times \frac{12 \times 12}{100} [1.2 - 1] = 2700$$

$$P = \frac{2700 \times 100}{12 \times 12 \times 0.2}$$

$$P = \text{Rs } 9375$$

**S114. Ans.(d)**

**Sol.** Let the radius of smaller and bigger circle be  $2x$  cm and  $3x$  cm respectively.

ATQ—

$$2\pi 2x + 2\pi 3x = 220$$

$$2\pi (2x + 3x) = 220$$

$$5x = \frac{110 \times 7}{22}$$

$$5x = 35$$

$$x = 7 \text{ cm}$$

radius of smaller circle = 14 cm

radius of larger circle = 21 cm

$$\text{Required sum of area} = (2 \times 14)^2 + \frac{22}{7} \times 21 \times 21$$

$$= 784 + 1386$$

$$= 2170 \text{ cm}^2$$

**S115. Ans.(c)**

**Sol.** Veer : Arun profit ratio = 12000 : (18000 - 12000)

$$= 2 : 1$$

ATQ,

Let Arun invested  $X$  Rs. and Veer invested  $X + 16000$  Rs.

$$\frac{(16000+X)8}{X \times 12} = \frac{2}{1}$$

$$128000 + 8X = 24X$$

$$X = \frac{128000}{16}$$

$$X = 8000 \text{ Rs.}$$

$$\text{Veer Capital} = 8000 + 16000$$

$$= 24000 \text{ Rs.}$$

**S116. Ans.(b)**

**Sol.** Favorable cases = (one red and one blue ball) or both red

$$\text{So, required probability} = \frac{6 \times 8 \times 2}{14 \times 13} + \frac{6 \times 5}{14 \times 13}$$

$$= \frac{48}{91} + \frac{30}{182}$$

$$= \frac{96+30}{182}$$

$$= \frac{126}{182}$$

$$= \frac{9}{13}$$

**S117. Ans.(a)**

**Sol.** Let the first number =  $4x$

So, second number =  $4x \times \frac{125}{100} = 5x$

And third number =  $5x \times \frac{120}{100} = 6x$

Let the fourth and fifth number be  $y$  and  $z$  respectively.

ATQ,

$$y + z = 126 \times 5 - (4x + 5x + 6x)$$

$$y + z = 630 - 15x \quad \dots(i)$$

$$\text{and, } 4x + y + z = 300$$

$$\Rightarrow 630 - 15x + 4x = 300 \text{ (from (i))}$$

$$x = 30$$

$$\text{Sum of last two numbers} = 630 - 15x = 180$$

**S118. Ans.(e)**

**Sol.** Let his speed be  $x$  km/hr

$$\frac{48}{x} - \frac{48}{x+8} = \frac{60}{60}$$

$$\Rightarrow x^2 + 8x - 384 = 0.$$

$$\Rightarrow (x + 24)(x - 16) = 0 \Rightarrow x = 16.$$

$$a = \frac{48}{16} = 3 \text{ hours.}$$

**S119. Ans.(c)**

**Sol.** Let breadth of rectangle be  $b$  cm.

From I: Side of square = 24 cm

Perimeter of square = 96 cm = perimeter of the rectangle.

ATQ

$$2(30 + b) = 96 \Rightarrow b = 18 \text{ cm}$$

From II: Side of a square = 24 cm

$$\text{Breadth of the rectangle} = \frac{24\sqrt{2}}{4\sqrt{2}} \times 3 = 18 \text{ cm}$$

Either statement I or statement II by itself is sufficient to answer the question.

**S120. Ans.(d)**

**Sol.** Let the length of the train be  $x$  meter and  $y$  meter respectively.

And let the speeds of the trains be  $a$  m/s and  $b$  m/s respectively.

$$\text{Statement I. } a - b = 8 \dots(1)$$

$$\text{Statement II. } a + b = 24$$

$$\text{So, } \frac{x+y}{24} = 12$$

$$\text{So, } x + y = 288$$

So, data given in both the statements together is not sufficient to answer the question.

**S121. Ans.(e)**

**Sol.** Statement I. efficiency of pipe P =  $\frac{500}{25} = 20$  litre per minute.

Statement II. efficiency of pipe Q = 2 litres per minute.

$$\text{So, time taken by pipes P and Q together to fill the tank} = \frac{500}{20+2} = 22\frac{8}{11} \text{ minutes}$$

So, both the statements together are necessary to answer the questions.

**S122. Ans.(d)**

**Sol.** Let the four numbers be a, b, c and d respectively.

$$\frac{a+b+c}{3} = 3d$$

$$a + b + c = 9d$$

Statement I.  $\frac{a+b}{2} = \frac{c+d}{2}$

$$a+b = c+d \text{---(1)}$$

Statement II.  $\frac{b+c+d}{3} = 2a$

$$b+c+d = 6a \text{---(2)}$$

So, data given in both the statements together is not sufficient to answer the question.

**S123. Ans.(c)**

**Sol. Statement I.**

Time taken by X and Y together to complete the same work =  $\frac{1}{\frac{5}{16} - \frac{1}{12}} = \frac{48}{11} = 4\frac{4}{11}$  days.

Statement II,

Required time =  $\frac{12 \times 4}{8+3} = \frac{48}{11} = 4\frac{4}{11}$  days.

So, either statement I alone or statement II alone are sufficient to answer the question.

**S124. Ans.(a)**

**Sol.**  $\sqrt{360 - 421 + 350} + 272 = (?)^2$

$$? = \sqrt{289} = 17$$

**S125. Ans.(c)**

**Sol.**  $2^? = (2)^6 \times (2^5)^2 \div 2^9$

$$2^? = 2^7$$

$$? = 7$$

**S126. Ans.(b)**

**Sol.**  $? = 572 \div 26 \times 12 - 200$

$$? = 64$$

**S127. Ans.(a)**

**Sol.**  $? + 2197 = 3481 - 681$

$$? = 2800 - 2197$$

$$? = 603$$

**S128. Ans.(e)**

**Sol.**  $49\% \text{ of } 180 - 70\% \text{ of } 120 = 9 - ?$

$$88.2 - 84 = 9 - ?$$

$$? = 4.8$$

**S129. Ans.(b)**

**Sol.** I.  $x^2 + x - 6 = 0$

$$x^2 + 3x - 2x - 6 = 0$$

$$x(x + 3) - 2(x + 3) = 0$$

$$(x + 3)(x - 2) = 0$$

$$x = -3, 2$$

II.  $y^2 + 7y + 12 = 0$

$$y^2 + 4y + 3y + 12 = 0$$

$$y(y + 4) + 3(y + 4) = 0$$

$$y = -3, -4$$

So,  $x \geq y$

**S130. Ans.(a)**

**Sol.**  $2x^2 - 17x + 35 = 0$

$$2x^2 - 10x - 7x + 35 = 0$$

$$2x(x - 5) - 7(x - 5) = 0$$

$$(2x - 7)(x - 5) = 0$$

$$x = \frac{7}{2}, 5$$

II.  $4y^2 - 19y + 21 = 0$

$$4y^2 - 12y - 7y + 21 = 0$$

$$4y(y - 3) - 7(y - 3) = 0$$

$$(4y - 7)(y - 3) = 0$$

$$y = \frac{7}{4}, 3$$

So,  $x > y$

**S131. Ans.(c)**

**Sol.** I.  $x - 512 = 1331$

$$x = 1843$$

II.  $y = 2197 - 353$

$$y = 1844$$

So,  $y > x$

**S132. Ans.(d)**

**Sol.** I.  $x^2 + 39x + 380 = 0$

$$x^2 + 19x + 20x + 380 = 0$$

$$x(x + 19) + 20(x + 19) = 0$$

$$(x + 19)(x + 20) = 0$$

$$x = -19, -20$$

II.  $y^2 + 37y + 342 = 0$

$$y^2 + 18y + 19y + 342 = 0$$

$$y(y + 18) + 19(y + 18) = 0$$

$$(y + 18)(y + 19) = 0$$

$$y = -18, -19$$

So,  $y \geq x$

**S133. Ans.(e)**

**Sol.** I.  $x = \frac{2}{x} + \frac{2}{x}$

$x^2 = 4$

$x = \pm 2$

II.  $y^2 - y - y + 1 = 0$

$y(y - 1) - 1(y - 1) = 0$

$(y - 1)^2 = 0$

$y = 1$

So, no relation can be established.

**S134. Ans.(d)**

**Sol.** I.  $x^2 - 21x + 38 = 0$

$x^2 - 19x - 2x + 38 = 0$

$x(x-19) - 2(x-19) = 0$

$x = 19, 2$

II.  $y^2 - 38y + 361 = 0$

$y^2 - 19y - 19y + 361 = 0$

$y(y-19) - 19(y-19) = 0$

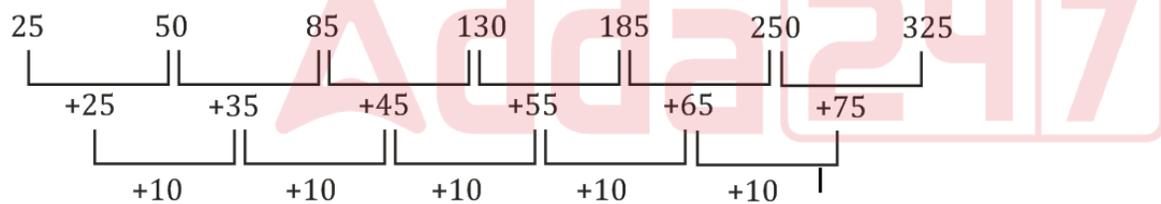

$y = 19$

So,  $x \leq y$

**S135. Ans.(b)**

**Sol.** Wrong number = 245

Pattern of series -

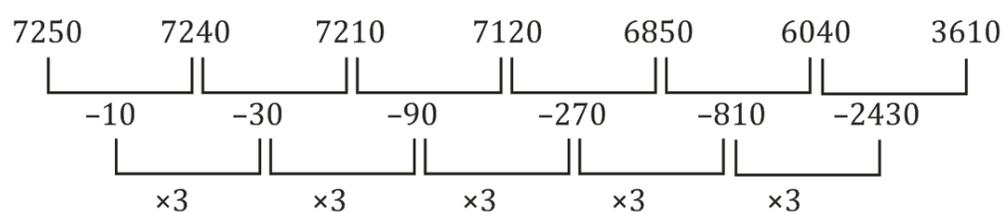

So, there should be 250 in place of 245.

**S136. Ans.(e)**

**Sol.** Wrong number = 7260

Pattern of series -

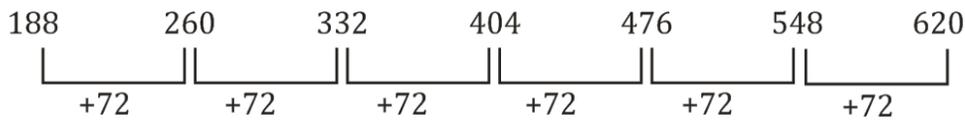

So, there should be 7250 in place of 7260.

**S137. Ans.(b)**

**Sol.** Wrong number = 550

Pattern of series -

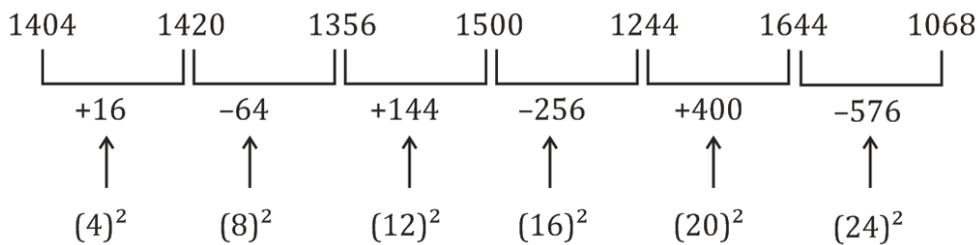

So, there should be 548 in place of 550.

**S138. Ans.(c)**

**Sol.** Wrong number = 1406

Pattern of series -

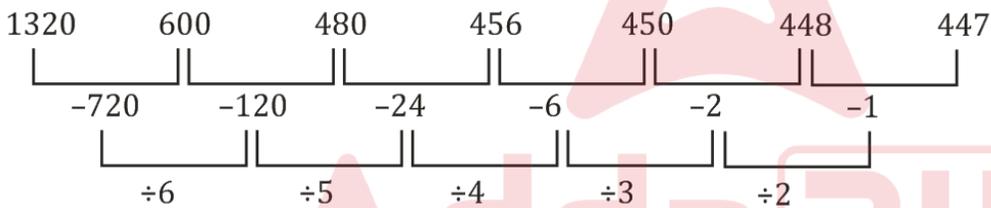

So, there should be 1404 in place of 1406.

**S139. Ans.(b)**

**Sol.** Wrong number = 598

Pattern of series -

So, there should be 600 in place of 598.

**S140. Ans.(d)**

**Sol.** Pattern of series -

Wrong number = 235

$$5+1^3+1=7$$

$$7+2^3+2=17$$

$$17+3^3+3=47$$

$$47+4^3+4=115$$

$$115+5^3+5=245$$

$$245+6^3+6=467$$
