

RRB PO Pre 2022 (21st August) Shift-Wise Previous Year Paper Mock 08

Q1. How many persons sit between T and the one who sits 3rd to the right of P?

Study the information carefully and answer the questions given below.

Six persons sit in a row and facing to the north direction. All have different ages – 15, 18, 20, 21, 25 and 33. V sits immediate right of the one who is 18 years old. Three persons sit between V and P who sits at one of the extreme ends of the row. M sits 2nd to the right of T who is not 18 years old. V's age is equal to the sum of the ages of T and M. The age of Q is a square value of an odd number and sits to the left of S. P is not younger than S.

- (a) One
- (b) Three
- (c) Two
- (d) Four
- (e) None of these

Ans.(a)

Q2. What is the position of Q with respect to the one who is 20 years old?

Study the information carefully and answer the questions given below.

Six persons sit in a row and facing to the north direction. All have different ages – 15, 18, 20, 21, 25 and 33. V sits immediate right of the one who is 18 years old. Three persons sit between V and P who sits at one of the extreme ends of the row. M sits 2nd to the right of T who is not 18 years old. V's age is equal to the sum of the ages of T and M. The age of Q is a square value of an odd number and sits to the left of S. P is not younger than S.

- (a) 3rd to the left
- (b) Immediate right
- (c) 2nd to the right
- (d) 3rd to the right
- (e) Immediate left

Ans.(a)

Q3. How many years old is P?

Study the information carefully and answer the questions given below.

Six persons sit in a row and facing to the north direction. All have different ages – 15, 18, 20, 21, 25 and 33. V sits immediate right of the one who is 18 years old. Three persons sit between V and P who sits at one of the extreme ends of the row. M sits 2nd to the right of T who is not 18 years old. V's age is equal to the sum of the ages of T and M. The age of Q is a square value of an odd number and sits to the left of S. P is not younger than S.

- (a) 25
- (b) 18
- (c) 21
- (d) 33
- (e) None of these

Q4. Four of the following five are alike in a certain way and so form a group. Find the one who does not belong to that group?

Study the information carefully and answer the questions given below.

Six persons sit in a row and facing to the north direction. All have different ages – 15, 18, 20, 21, 25 and 33. V sits immediate right of the one who is 18 years old. Three persons sit between V and P who sits at one of the extreme ends of the row. M sits 2nd to the right of T who is not 18 years old. V's age is equal to the sum of the ages of T and M. The age of Q is a square value of an odd number and sits to the left of S. P is not younger than S.

- (a) V
- (b) The one who is 15 years old
- (c) M
- (d) The one who is 25 years old
- (e) S

Ans.(e)

Q5. V sits ____ to the right of ____?

Study the information carefully and answer the questions given below.

Six persons sit in a row and facing to the north direction. All have different ages – 15, 18, 20, 21, 25 and 33. V sits immediate right of the one who is 18 years old. Three persons sit between V and P who sits at one of the extreme ends of the row. M sits 2nd to the right of T who is not 18 years old. V's age is equal to the sum of the ages of T and M. The age of Q is a square value of an odd number and sits to the left of S. P is not younger than S.

- (a) 2nd, Q
- (b) 3rd, M
- (c) 4th, S
- (d) 2nd, the one who is 25 years old
- (e) Both (a) and (d)

Ans.(e)

Q6. What is the shortest distance between USA and Germany plane?

Study the information carefully and answer the questions given below.

Five countries fighter planes do air force exercise. Russia plane is 10km north of China plane. Port O is exactly in the middle of the point of Russia plane and China plane. Germany plane is 8km east of China plane. India plane is 8km east of port O. USA plane is 6km north of India plane.

- (a) 12km
- (b) 11km
- (c) 8km
- (d) 6km
- (e) 14km

Ans.(b)

Q7. If Germany plane goes 20km in the in the west then, what is the direction of India plane with respect to the Germany plane?

Study the information carefully and answer the questions given below.

Five countries fighter planes do air force exercise. Russia plane is 10km north of China plane. Port O is exactly in the middle of the point of Russia plane and China plane. Germany plane is 8km east of China plane. India plane is 8km east of port O. USA plane is 6km north of India plane.

- (a) North-east
- (b) South-west
- (c) North-west
- (d) South-east
- (e) North

Ans.(a)

Q8. What is the shortest distance between USA plane and port O?

Study the information carefully and answer the questions given below.

Five countries fighter planes do air force exercise. Russia plane is 10km north of China plane. Port O is exactly in the middle of the point of Russia plane and China plane. Germany plane is 8km east of China plane. India plane is 8km east of port O. USA plane is 6km north of India plane.

- (a) 12km
- (b) 14km
- (c) 8km
- (d) 6km
- (e) None of these

Ans.(e)

Q9. Who among the following person was born in June?

Study the following information carefully and answer the questions given below:

Six persons were born in different months i.e., March, April, May, June, July and August but not necessarily in same order. No one was born between D and K. K was born just before Q who was born just before S. T was born in the month which has even numbers of days. L was born before D but not born just before.

- (a) K
- (b) D
- (c) Q
- (d) L
- (e) None of these

Ans.(a)

Q10. How many persons were born before Q?

Study the following information carefully and answer the questions given below:

Six persons were born in different months i.e., March, April, May, June, July and August but not necessarily in same order. No one was born between D and K. K was born just before Q who was born just before S. T was born in the month which has even numbers of days. L was born before D but not born just before.

- (a) Two
- (b) Three
- (c) Five
- (d) Four

(e) None of these

Ans.(d)

Q11. In which of the following month L was born?

Study the following information carefully and answer the questions given below:

Six persons were born in different months i.e., March, April, May, June, July and August but not necessarily in same order. No one was born between D and K. K was born just before Q who was born just before S. T was born in the month which has even numbers of days. L was born before D but not born just before.

(a) June

(b) July

(c) August

(d) September

(e) None of these

Ans.(e)

Q12. Who among the following person was born in August?

Study the following information carefully and answer the questions given below:

Six persons were born in different months i.e., March, April, May, June, July and August but not necessarily in same order. No one was born between D and K. K was born just before Q who was born just before S. T was born in the month which has even numbers of days. L was born before D but not born just before.

(a) T

(b) S

(c) D

(d) K

(e) None of these

Ans.(b)

Q13. Four of the following five are alike in certain way based from a group, Find the one which does not belong to that group?

Study the following information carefully and answer the questions given below:

Six persons were born in different months i.e., March, April, May, June, July and August but not necessarily in same order. No one was born between D and K. K was born just before Q who was born just before S. T was born in the month which has even numbers of days. L was born before D but not born just before.

(a) L

(b) Q

(c) D

(d) K

(e) S

Ans.(d)

Q14. If we form a meaningful word by the first, second, fourth and fifth letter of the word 'ENSURE', then which of the following will be the first letter of the word thus formed. If more than one word is formed mark Y as your answer. If no meaningful word is formed, mark X as your answer?

- (a) E
- (b) X
- (c) R
- (d) Y
- (e) U

Ans.(b)

Q15. Statements:

Some Silent are Mute.

No Good is Silent.

Only a few Mute is Sound.

Conclusions:

I. All Sound being Silent is a possibility.

II. Some Mute is not Good

In each question below some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

- (a) Only I follows
- (b) Both I and II follow
- (c) Only II follows
- (d) None follows
- (e) None of these

Ans.(b)

Q16. Statements:

Only Purple is Yellow.

Some Olive is Purple.

Only a few Green is Olive.

Conclusions:

I. Some Olive being Yellow is a possibility

II. Some Purple being Green is a possibility

In each question below some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

- (a) Only I follows
- (b) Both I and II follow
- (c) Only II follows
- (d) Either I or II follows
- (e) None follows

Ans.(c)

Q17. Statements:

Only a few Crowd are People.

No People is Social.

Only a few Crowd is Distance.

Conclusions:

I. Some Distance is not Social

II. All Social is Crowd.

In each question below some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

(a) Only II follows

(b) Both I and II follow

(c) Only I follows

(d) Either I or II follows

(e) None follows

Ans.(e)

Q18. Statements:

Only Worm is Virus.

All Harm is Worm.

few Health is Harm.

Conclusions:

I. Some Harm being Virus is a possibility

II. Some Worm being Health is a possibility

In each question below some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

(a) Only I follows

(b) Both I and II follow

(c) Only II follows

(d) Either I or II follows

(e) None follows

Ans.(e)

Q19. Statements:

Some Day are Night.

No Night is Light.

Only a few Day is Dark.

Conclusions:

I. Some Dark is not Light

II. All Light being Day is a possibility.

In each question below some statements are given followed by some conclusions. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts.

- (a) Only II follows
- (b) Both I and II follow
- (c) Only I follows
- (d) Either I or II follows
- (e) None follows

Ans.(a)

Q20. Who among the following sits third to the right of O?

Study the information carefully and answer the questions given below.

Eight persons are sitting around a circular table. Some of them are facing towards the center of the table and some of them are facing outside the center of the table.

N sits third to right of T. One person sits between N and Q. Three persons sit between Q and M. R sits second to the right of M. P sits second to the right of S. P does not sit adjacent to N. Immediate neighbours of M faces the opposite direction. Q sits immediate right of P. Immediate neighbours of T faces opposite direction. S sits immediate right of N. S faces T. Q faces the opposite direction as O.

- (a) S
- (b) R
- (c) Q
- (d) P
- (e) None of these

Ans.(b)

Q21. Who among the following faces R?

Study the information carefully and answer the questions given below.

Eight persons are sitting around a circular table. Some of them are facing towards the center of the table and some of them are facing outside the center of the table.

N sits third to right of T. One person sits between N and Q. Three persons sit between Q and M. R sits second to the right of M. P sits second to the right of S. P does not sit adjacent to N. Immediate neighbours of M faces the opposite direction. Q sits immediate right of P. Immediate neighbours of T faces opposite direction. S sits immediate right of N. S faces T. Q faces the opposite direction as O.

- (a) O
- (b) S
- (c) N
- (d) M
- (e) None of these

Ans.(c)

Q22. How many persons sit between P and M, when counted right of P?

Study the information carefully and answer the questions given below.

Eight persons are sitting around a circular table. Some of them are facing towards the center of the table and some of them are facing outside the center of the table.

N sits third to right of T. One person sits between N and Q. Three persons sit between Q and M. R sits second to the right of M. P sits second to the right of S. P does not sit adjacent to N. Immediate neighbours of M faces the opposite direction. Q sits immediate right of P. Immediate neighbours of T faces opposite direction. S sits immediate right of N. S faces T. Q faces the opposite direction as O.

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None of these

Ans.(d)

Q23. Which of the following statement is true about N?

Study the information carefully and answer the questions given below.

Eight persons are sitting around a circular table. Some of them are facing towards the center of the table and some of them are facing outside the center of the table.

N sits third to right of T. One person sits between N and Q. Three persons sit between Q and M. R sits second to the right of M. P sits second to the right of S. P does not sit adjacent to N. Immediate neighbours of M faces the opposite direction. Q sits immediate right of P. Immediate neighbours of T faces opposite direction. S sits immediate right of N. S faces T. Q faces the opposite direction as O.

- (a) N faces the same direction as M
- (b) P sits opposite to N
- (c) N sits immediate right of O
- (d) R sits second to the right of N
- (e) None is true

Ans.(e)

Q24. Who among the following sits immediate right of the one who sits third to the left of Q?

Study the information carefully and answer the questions given below.

Eight persons are sitting around a circular table. Some of them are facing towards the center of the table and some of them are facing outside the center of the table.

N sits third to right of T. One person sits between N and Q. Three persons sit between Q and M. R sits second to the right of M. P sits second to the right of S. P does not sit adjacent to N. Immediate neighbours of M faces the opposite direction. Q sits immediate right of P. Immediate neighbours of T faces opposite direction. S sits immediate right of N. S faces T. Q faces the opposite direction as O.

- (a) M
- (b) T
- (c) R
- (d) P
- (e) None of these

Ans.(a)

Q25. How X is related to Y?

Read the following information carefully and answer the questions given below:

There are seven members S, T, U, V, W, X and Y in a family among them only 3 females. S is married to V. W is grandson of V who has two children. U is sister-in-law of Y who is unmarried. X is brother-in-law of S who is mother-in-law of U.

- (a) Uncle
- (b) Brother
- (c) Mother
- (d) Sister
- (e) Grandson

Ans.(a)

Q26. Who among the following is the father of W?

Read the following information carefully and answer the questions given below:

There are seven members S, T, U, V, W, X and Y in a family among them only 3 females. S is married to V. W is grandson of V who has two children. U is sister-in-law of Y who is unmarried. X is brother-in-law of S who is mother-in-law of U.

- (a) U
- (b) T
- (c) X
- (d) Y
- (e) None of these

Ans.(b)

Q27. If Z is the husband of Y, then how T is related to Z?

Read the following information carefully and answer the questions given below:

There are seven members S, T, U, V, W, X and Y in a family among them only 3 females. S is married to V. W is grandson of V who has two children. U is sister-in-law of Y who is unmarried. X is brother-in-law of S who is mother-in-law of U.

- (a) Father-in-Law
- (b) Son
- (c) Brother-in-Law
- (d) Uncle
- (e) None of these

Ans.(c)

Q28. The position of how many alphabets will remain unchanged if each of the alphabets in the word 'TRANSTROMER' is arranged in alphabetical order from left to right?

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) More than Three

Ans.(c)

Q29. Which of the following symbols should replace the question mark in the given expression to make $N \geq D$ definitely true?

$A = G \geq B, N ? F ? M = D, B > N$

- (a) $>, >$
- (b) $=, >$
- (c) $\leq, \leq$
- (d) $\leq, <$
- (e) None of these

Ans.(e)

Q30. If all the numbers are arranged in ascending order from left to right, then which number will come in the middle of the series?

Study the following series of five three-digit numbers and answer the questions.

593 723 437 562 628

- (a) 628
- (b) 593
- (c) 723
- (d) 562
- (e) None of these

Ans.(b)

Q31. If all the digits are arranged in descending order within the number, then which number will be the lowest number?

Study the following series of five three-digit numbers and answer the questions.

593 723 437 562 628

- (a) 593
- (b) 437
- (c) 562
- (d) 628
- (e) None of these

Ans.(c)

Q32. If in each number first and second digit are added and then subtract third digit from the resultant, after performing the operation how many numbers will be greater than 10?

Study the following series of five three-digit numbers and answer the questions.

593 723 437 562 628

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None of these

Ans.(a)

Q33. If the third digit of the 2nd highest number is divided by the second digit of the highest number, then what will be the resultant?

Study the following series of five three-digit numbers and answer the questions.

593 723 437 562 628

- (a) 4
- (b) 3
- (c) 2
- (d) 5
- (e) None of these

Ans.(a)

Q34. If all the digits are arranged in ascending order within the number, then which number will be the highest number?

Study the following series of five three-digit numbers and answer the questions.

593 723 437 562 628

- (a) 593
- (b) 437
- (c) 562
- (d) 628
- (e) None of these

Ans.(a)

Q35.

Statements:

$F > R = T \geq Y > W \leq Q \leq P$

Conclusions:

I. $Q > R$

II. $P > T$

In these questions, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.
- (e) If both conclusions I and II follow.

Ans.(d)

Q36.

Statements:

$$S > F \geq H = U \leq B \leq N = K < L$$

Conclusions:

I. $N > H$

II. $K = H$

In these questions, the relationship between different elements is shown in the statements. The statements are followed by conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- (a) If only conclusion I follows.
- (b) If only conclusion II follows.
- (c) If either conclusion I or II follows.
- (d) If neither conclusion I nor II follows.
- (e) If both conclusions I and II follow.

Ans.(c)

Q37. Who among the following sits third to the left of F?

Study the following information carefully and answer the questions given below:

There are Ten friends E, F, G, H, I, J, K, L, M and N sitting around a circular table facing towards the center of the table. M sits third to the right of E. G sits fourth to the right of M. There are as many persons sit between M and F as between J and M. I is not an immediate neighbor of F. One person sits between G and H. I sits fourth to the left of H. Neither J nor F is an immediate neighbor of N. Two persons sit between I and L who is not an immediate neighbor of M. K sits second to the left of L.

- (a) K
- (b) G
- (c) I
- (d) E
- (e) N

Ans.(c)

Q38. Who among the following sits exactly between I and H counting from right of I?

Study the following information carefully and answer the questions given below:

There are Ten friends E, F, G, H, I, J, K, L, M and N sitting around a circular table facing towards the center of the table. M sits third to the right of E. G sits fourth to the right of M. There are as many persons sit between M and F as between J and M. I is not an immediate neighbor of F. One person sits between G and H. I sits fourth to the left of H. Neither J nor F is an immediate neighbor of N. Two persons sit between I and L who is not an immediate neighbor of M. K sits second to the left of L.

- (a) J
- (b) M
- (c) F
- (d) K
- (e) E

Ans.(b)

Q39. Who among the following sits immediate right of J?

Study the following information carefully and answer the questions given below:

There are Ten friends E, F, G, H, I, J, K, L, M and N sitting around a circular table facing towards the center of the table. M sits third to the right of E. G sits fourth to the right of M. There are as many persons sit between M and F as between J and M. I is not an immediate neighbor of F. One person sits between G and H. I sits fourth to the left of H. Neither J nor F is an immediate neighbor of N. Two persons sit between I and L who is not an immediate neighbor of M. K sits second to the left of L.

- (a) I
- (b) N
- (c) L
- (d) M
- (e) None of these

Ans.(d)

Q40. Who among the following sits second to the right of G?

Study the following information carefully and answer the questions given below:

There are Ten friends E, F, G, H, I, J, K, L, M and N sitting around a circular table facing towards the center of the table. M sits third to the right of E. G sits fourth to the right of M. There are as many persons sit between M and F as between J and M. I is not an immediate neighbor of F. One person sits between G and H. I sits fourth to the left of H. Neither J nor F is an immediate neighbor of N. Two persons sit between I and L who is not an immediate neighbor of M. K sits second to the left of L.

- (a) N
- (b) L
- (c) E
- (d) K
- (e) H

Ans.(a)

Directions (41-46): Study the table given below and answer the following questions.

Table gives information about total number of smart phone users in 3 different offices (A, B and C) in 1999 & 2000 and also gives information about total number of IOS phone users in these three offices in 1999 & 2000.

Offices	Years			
	1999		2000	
	Total smart phone users	Total IOS phone users	Total smart phone users	Total IOS phone users
A	720	360	900	450
B	360	180	600	180
C	450	270	400	120

Note: Total smart phone users in any office = (Total IOS phone users

+ Total android phone users) in that office in that year.

Q41. If average number of smart phone users in A in 1999, 2000 & 2001 are 700, then find total number of smart phone users in A in 2001?

- (a) 540
- (b) 480
- (c) 420
- (d) 600
- (e) 360

Ans.(b)

Q42. Total number of IOS phone users A & B together in 2000 are what percent more or less than total number of smart phone users B & C together in 2000?

- (a) 27%
- (b) 42%
- (c) 37%
- (d) 30%
- (e) 45%

Ans.(c)

Q43. Find total number of android phone users A, B & C together in 1999?

- (a) 720
- (b) 640
- (c) 680
- (d) 760
- (e) 800

Ans.(a)

Q44. Average number of smart phone users A, B & C in 1999 are what percent of total smart phone users in B in 2000?

- (a) 95%
- (b) 85%
- (c) 75%
- (d) 55%
- (e) 65%

Ans.(b)

Q45. Find ratio of total number of android phone users in B in 2000 to total number of android phone users in C in 2000?

- (a) 5:4
- (b) 4:5
- (c) 2:3
- (d) 3:2

(e) None of the above.

Ans.(d)

Q46. Total number of IOS phone users in A, B & C together in 1999 are how much more or less than total number of IOS phone users in A, B & C together in 2000?

(a) 140

(b) 60

(c) 180

(d) 90

(e) 100

Ans.(b)

Q47. A vessel contains mixture of milk and water, in which water is 12.5%. When 48 liters mixture is removed from the vessel then the quantity of milk in the remaining mixture is 112 liters, then find quantity of water in the vessel initially?

(a) 22 liters

(b) 32 liters

(c) 30 liters

(d) 18 liters

(e) 16 liters

Ans.(a)

Q48. A and B invested in the ratio 7 : 8 in a business .They got an annual profit of Rs.34450. If A withdrew her entire amount at the end of 9 months, then find the difference between their share in profit?

(a) Rs 6400

(b) Rs 8180

(c) Rs 7150

(d) Rs 6450

(e) Rs 7560

Ans.(c)

Q49. A alone takes 60% more time than A & B takes together to finish a piece of work. If B alone can finish the same work in 160 days, then find in how much day's A alone can finish the work?

(a) 45 days

(b) 96 days

(c) 120 days

(d) 84 days

(e) 136 days

Ans.(b)

Q50. Diameter of a cylindrical jar is increased by 25%. By what percent must the height be decreased so that there is no change in its volume?

- (a) 18%
- (b) 25%
- (c) 32%
- (d) 36%
- (e) None of these

Ans.(d)

Q51. A table was sold at Rs 2520 after giving 30% discount on market price. If discount was not given on table, then he would have earned 50% profit. Find cost price of table?

- (a) Rs 2400
- (b) Rs 2560
- (c) Rs 2000
- (d) Rs 1600
- (e) Rs 1800

Ans.(a)

Q52. Satish invested Rs. 14,000 partially in scheme A which offer 20% p.a. at C.I. and remaining in scheme B which offer 25% at S.I. Find the amount (in Rs.) invested in scheme B if total interest earns after 2 years is Rs. 6640.

- (a) 6000
- (b) 7000
- (c) 8000
- (d) 9000
- (e) 10,000

Ans.(c)

Q53. A train can cross a platform of 100 m length completely in 12 seconds while covers a platform of double of its length in 21 seconds. Find the speed of the train? (in m/s)

- (a) 12
- (b) 15
- (c) 18
- (d) 20
- (e) 24

Ans.(d)

Q54. A boat takes $\frac{1}{120}$ D hours more to cover a certain distance in upstream than in downstream. If speed of boat in downstream in 30 km/h. Find speed of boat in upstream?

D = Distance in upstream = Distance in downstream

- (a) 24 km/h
- (b) 27 km/h

- (c) 20 km/h
(d) 25 km/h
(e) 18 km/h

Ans.(a)

Q55. Ratio of area of rectangle to area of square is 1 : 4. Ratio of perimeter of rectangle to perimeter of square is 1 : 2. If length is 5 cm, then find area of square ?

- (a) None of these
(b) 64 cm^2
(c) 125 cm^2
(d) 25 cm^2
(e) 100 cm^2

Ans.(e)

Q56. What is the ratio between cost price of small size calculator to cost price of small size bat?

- Read the data carefully and answer the question.

On a store there are three items available i.e. (book, bat and calculator). Bat and calculator are available in three sizes i.e., small, medium and large. Shopkeeper sold a book for Rs. 540 after giving 10% discount and earn 20% profit. Cost price of a small size bat or a large calculator is equal to selling price of book and small size of each item is 25% cheaper than its medium size and medium size is $\frac{8}{9}$ times of large size of its respective item.

- (a) 3:4
(b) 2:3
(c) 1:3
(d) 1:2
(e) 3:5

Ans.(b)

Q57. Average cost price of all size of bat is how much percent more than marked price of a book?

- Read the data carefully and answer the question.

On a store there are three items available i.e. (book, bat and calculator). Bat and calculator are available in three sizes i.e., small, medium and large. Shopkeeper sold a book for Rs. 540 after giving 10% discount and earn 20% profit. Cost price of a small size bat or a large calculator is equal to selling price of book and small size of each item is 25% cheaper than its medium size and medium size is $\frac{8}{9}$ times of large size of its respective item.

- (a) 10% less
(b) 25% less
(c) 25% more
(d) 15% more
(e) None of these.

Ans.(d)

Q58. If a large size calculator is sold at 10% profit, find difference between profit earned on selling such two calculators and 2 books?

- Read the data carefully and answer the question.

On a store there are three items available i.e. (book, bat and calculator). Bat and calculator are available in three sizes i.e., small, medium and large. Shopkeeper sold a book for Rs. 540 after giving 10% discount and earn 20% profit. Cost price of a small size bat or a large calculator is equal to selling price of book and small size of each item is 25% cheaper than its medium size and medium size is $\frac{8}{9}$ times of large size of its respective item.

- (a) Rs. 36
- (b) Rs. 108
- (c) Rs. 18
- (d) Rs. 54
- (e) Rs. 72

Ans.(e)

Q59. Cost price of a book is what percent of $\frac{5}{4}$ th of cost price of a medium size bat?

- Read the data carefully and answer the question.

On a store there are three items available i.e. (book, bat and calculator). Bat and calculator are available in three sizes i.e., small, medium and large. Shopkeeper sold a book for Rs. 540 after giving 10% discount and earn 20% profit. Cost price of a small size bat or a large calculator is equal to selling price of book and small size of each item is 25% cheaper than its medium size and medium size is $\frac{8}{9}$ times of large size of its respective item.

- (a) 25%
- (b) 50%
- (c) 20%
- (d) 15%
- (e) 60%

Ans.(b)

Q60. If all large items are sold at 25% profit, find average profit earned on selling three large size calculator and 2 large bats?

- Read the data carefully and answer the question.

On a store there are three items available i.e. (book, bat and calculator). Bat and calculator are available in three sizes i.e., small, medium and large. Shopkeeper sold a book for Rs. 540 after giving 10% discount and earn 20% profit. Cost price of a small size bat or a large calculator is equal to selling price of book and small size of each item is 25% cheaper than its medium size and medium size is $\frac{8}{9}$ times of large size of its respective item.

- (a) 162
- (b) 172
- (c) 180
- (d) 200
- (e) 210

Ans.(a)

Q61.

I. $x^2 + 14x + 33 = 0$

II. $y^2 - 7y + 10 = 0$

Solve the given quadratic equations and mark the correct option based on your answer.

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

Ans.(c)

Q62.

I. $2x^2 - 16x + 24 = 0$

II. $y^2 - 17y + 72 = 0$

Solve the given quadratic equations and mark the correct option based on your answer.

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

Ans.(c)

Q63.

I. $x^2 - 18x + 56 = 0$

II. $y^2 - 11y + 30 = 0$

Solve the given quadratic equations and mark the correct option based on your answer.

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$
- (d) if $x \leq y$
- (e) if $x = y$ or no relation can be established between x and y .

Ans.(e)

Q64.

I. $x^2 = 529$

II. $y = \sqrt{529}$

Solve the given quadratic equations and mark the correct option based on your answer.

- (a) if $x > y$
- (b) if $x \geq y$
- (c) if $x < y$

- (d) if $x \leq y$
(e) if $x = y$ or no relation can be established between x and y .

Ans.(d)

Q65.

I. $x^2 - 21x + 38 = 0$

II. $y^2 - 38y + 361 = 0$

Solve the given quadratic equations and mark the correct option based on your answer.

- (a) if $x > y$
(b) if $x \geq y$
(c) if $x < y$
(d) if $x \leq y$
(e) if $x = y$ or no relation can be established between x and y .

Ans.(d)

Q66.

?² = 49.01 + 40.099% of 199.98 - 28.99

What approximate value will come in place of question (?) in the following questions?

- (a) 15
(b) 12
(c) 11
(d) 10
(e) 13

Ans.(d)

Q67. 24.99% of 119.96 + 20.10% of 499.99 = ?

What approximate value will come in place of question (?) in the following questions?

- (a) 130
(b) 150
(c) 90
(d) 160
(e) 200

Ans.(a)

Q68. 124.95 ÷ 25.01 + 49.90 - 19.99% of 120.20 = ?

What approximate value will come in place of question (?) in the following questions?

- (a) 21
(b) 26
(c) 31
(d) 39
(e) 41

Ans.(c)

Q69. $\sqrt{960.93} \times 11.9 - 172.1 = (?)^2 \div 2$

What approximate value will come in place of question (?) in the following questions?

- (a) 15
- (b) 20
- (c) 18
- (d) 12
- (e) 17

Ans.(b)

Q70. $231.001 + 320.001 \div 9.999 = ? - 11.909$

What approximate value will come in place of question (?) in the following questions?

- (a) 270
- (b) 316
- (c) 253
- (d) 275
- (e) 305

Ans.(d)

Q71. 983, 1080, 886, 1177, 789, ?

What will come in the place of the question mark (?) in the following number series?

- (a) 1280
- (b) 1278
- (c) 1276
- (d) 1274
- (e) 1272

Ans.(d)

Q72. 0, 6, 24, 60, ?, 210

What will come in the place of the question mark (?) in the following number series?

- (a) 80
- (b) 90
- (c) 120
- (d) 150
- (e) 180

Ans.(c)

Q73. 16, 16, 8, 24, 6, ?

What will come in the place of the question mark (?) in the following number series?

- (a) 30
- (b) 24
- (c) 18

(d) 27

(e) 36

Ans.(a)

Q74. 786, 1810, 2066, 2130, 2146, ?

What will come in the place of the question mark (?) in the following number series?

(a) 2152

(b) 2150

(c) 2156

(d) 2160

(e) 2164

Ans.(b)

Q75. 9, 5, 6, 14, ?, 488

What will come in the place of the question mark (?) in the following number series?

(a) 30

(b) 45

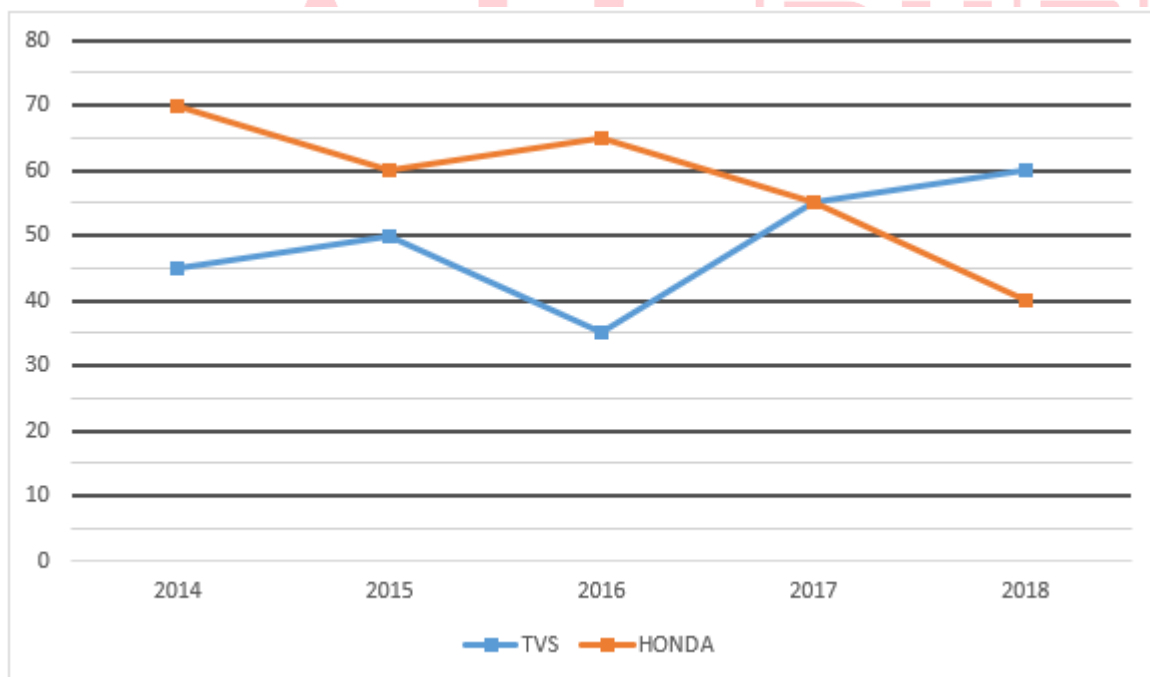

(c) 52

(d) 56

(e) 60

Ans.(e)

Directions (76-80): Line-graph shows number of people (in hundred) using two different types of bike services over the five different years. Study the given line graph carefully and answer the questions given below:

Q76. What is the average number of people using the HONDA bike service in all over the years?

- (a) 6400
- (b) 4900
- (c) 5800
- (d) 6125
- (e) 6800

Ans.(c)

Q77. Find the ratio of number of people using the HONDA service in year 2015 and 2016 together to number of people using the TVS service in year 2017 and 2014 together.

- (a) 4 : 5
- (b) 3 : 4
- (c) 5 : 4
- (d) 6 : 5
- (e) 4 : 3

Ans.(c)

Q78. What is the difference between number of people using TVS service all over the years (excluding 2016) and number of people using HONDA service all over the years (excluding 2015)?

- (a) 2000
- (b) 2500
- (c) 3500
- (d) 1500
- (e) none of these

Ans.(a)

Q79. Total bike service in year 2018 is what percentage more/less than the total bike service in year 2014 and 2015 together?

- (a) $45\frac{4}{9}\%$
- (b) $55\frac{5}{9}\%$
- (c) $54\frac{4}{9}\%$
- (d) $65\frac{5}{9}\%$
- (e) $64\frac{4}{9}\%$

Ans.(b)

Q80. If per service cost of TVS is 20% more than HONDA, then total service cost of TVS in year 2015 is what percent of total service cost of HONDA in same year?

- (a) 125%
- (b) 150%
- (c) 200%
- (d) 100%
- (e) 50%

Ans.(d)
