

IBPS RRB Clerk Prelims MBT (Based on 6th Dec 2025 S2)

Q1. Which symbol is fifth to the right of the third letter from the left end in the series?

Study the following series carefully and answer the question given below:

P & K * V Z L # W A % S R ! M @ X F Y ? Q + C ^ U T Z \$

- (a) *
- (b) +
- (c) !
- (d) ?
- (e) &

Ans.(d)

Q2. If all symbols and vowels are removed from the series, which element is sixth from the right end in the remaining series?

Study the following series carefully and answer the question given below:

P & K * V Z L # W A % S R ! M @ X F Y ? Q + C ^ U T Z \$

- (a) F
- (b) X
- (c) M
- (d) T
- (e) R

Ans.(a)

Q3. Which element is fourth to the right of the seventh symbol from the right end?

Study the following series carefully and answer the question given below:

P & K * V Z L # W A % S R ! M @ X F Y ? Q + C ^ U T Z \$

- (a) R
- (b) M
- (c) !
- (d) X
- (e) F

Ans.(b)

Q4. How many letters in the series are immediately preceded and immediately followed by a symbol?

Study the following series carefully and answer the question given below:

P & K * V Z L # W A % S R ! M @ X F Y ? Q + C ^ U T Z \$

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None

Ans.(d)

Q5. How many vowels in the series are immediately followed by a letter?

Study the following series carefully and answer the question given below:

P & K * V Z L # W A % S R ! M @ X F Y ? Q + C ^ U T Z \$

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) None

Ans.(a)

Q6. Who among the following persons sits 11th to the left of A?

Study the following information carefully and answer the questions given below:

A certain number of persons sit in a row and face north. H sits third to the right of K. Five persons sit between H and D. E sits immediately left of K. Only two persons sit between D and J. A sits second to the right of J. A and D are not immediate neighbours. Number of persons sit between E and D is same as the number of persons sit to the right of D. E sits second from one the ends of the row.

- (a) K
- (b) E
- (c) H
- (d) None of these
- (e) D

Ans.(c)

Q7. What is the position of J in the row?

Study the following information carefully and answer the questions given below:

A certain number of persons sit in a row and face north. H sits third to the right of K. Five persons sit between H and D. E sits immediately left of K. Only two persons sit between D and J. A sits second to the right of J. A and D are not immediate neighbours. Number of persons sit between E and D is same as the number of persons sit to the right of D. E sits second from one the ends of the row.

- (a) Sixth from the left end
- (b) Sixth from the right end
- (c) Third from the right end
- (d) Seventh from the right end
- (e) Third from the left end

Ans.(d)

Q8. How many persons sit in the row?

Study the following information carefully and answer the questions given below:

A certain number of persons sit in a row and face north. H sits third to the right of K. Five persons sit between H and D. E sits immediately left of K. Only two persons sit between D and J. A sits second to the right of J. A and D are not immediate neighbours. Number of persons sit between E and D is same as the number of persons sit to the right of D. E sits second from one the ends of the row.

- (a) 20
- (b) 16

- (c) 18
(d) 19
(e) 21
Ans.(e)

Q9. Statements: $K \leq F < R = G > U < V = W$

Conclusions:

- I. $R > W$
II. $K < G$

In this question, the relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- (a) If only conclusion I is true
(b) If only conclusion II is true
(c) If either conclusion I or II is true
(d) If both conclusions I and II are true
(e) If neither conclusion I nor II is true

Ans.(b)

Q10. Statements: $M > B \leq C \leq A = E \leq O \geq F > G = P$

Conclusions:

- I. $P < O$
II. $O \geq B$

In this question, the relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- (a) If only conclusion I is true
(b) If only conclusion II is true
(c) If either conclusion I or II is true
(d) If both conclusions I and II are true
(e) If neither conclusion I nor II is true

Ans.(d)

Q11. Statements: $L = M \leq N \leq O = P > Q \leq R$

Conclusions:

- I. $P > L$
II. $N < R$

In this question, the relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- (a) If only conclusion I is true
(b) If only conclusion II is true
(c) If either conclusion I or II is true
(d) If both conclusions I and II are true
(e) If neither conclusion I nor II is true

Ans.(e)

Q12. Statements: $X \geq Y > Z = A > B < C > D = E$

Conclusions:

I. $X > B$

II. $Z \leq E$

In this question, the relationship between different elements is shown in the statements. The statements are followed by two conclusions. Study the conclusions based on the given statements and select the appropriate answer:

- (a) If only conclusion I is true
- (b) If only conclusion II is true
- (c) If either conclusion I or II is true
- (d) If both conclusions I and II are true
- (e) If neither conclusion I nor II is true

Ans.(a)

Q13. How is A related to D?

Study the information carefully and answer the questions given below.

C is the sister-in-law of D. A is the son of H. B is the mother-in-law of G. G is the mother of E. E is the sister of A. There is no single parent in the family.

- (a) Son
- (b) Nephew
- (c) Uncle
- (d) Son-in-law
- (e) Grandson

Ans.(e)

Q14. How many female members are there in the family?

Study the information carefully and answer the questions given below.

C is the sister-in-law of D. A is the son of H. B is the mother-in-law of G. G is the mother of E. E is the sister of A. There is no single parent in the family.

- (a) Four
- (b) Three
- (c) Five
- (d) Can't be determined
- (e) Six

Ans.(a)

Q15. How is H related to D?

Study the information carefully and answer the questions given below.

C is the sister-in-law of D. A is the son of H. B is the mother-in-law of G. G is the mother of E. E is the sister of A. There is no single parent in the family.

- (a) Grandson
- (b) Daughter
- (c) Son

- (d) Uncle
- (e) None of these

Ans.(c)

Q16. In the number '5693728', if all the digits are arranged in descending order from left end, then how many digits remain unchanged at its position in the new number formed after rearrangement?

- (a) None
- (b) Two
- (c) Three
- (d) Five
- (e) One

Ans.(a)

Q17. Which box is placed at third position from top?

Read the given information carefully and answer the related questions:

Seven boxes A, B, C, D, E, F and G are placed one above the other in a stack but not in the same order as given.

Three boxes are placed between box B and box D. Box A is placed immediately below box B. Number of boxes placed below box A is same as the number of boxes placed above box G. One box is placed between box G and box C which is placed above box G. Box E is not placed at the bottommost position.

- (a) E
- (b) G
- (c) B
- (d) D
- (e) A

Ans.(a)

Q18. How many boxes are placed above box C?

Read the given information carefully and answer the related questions:

Seven boxes A, B, C, D, E, F and G are placed one above the other in a stack but not in the same order as given.

Three boxes are placed between box B and box D. Box A is placed immediately below box B. Number of boxes placed below box A is same as the number of boxes placed above box G. One box is placed between box G and box C which is placed above box G. Box E is not placed at the bottommost position.

- (a) One
- (b) Three
- (c) Four
- (d) Five
- (e) Two

Ans.(b)

Q19. If all the boxes are arranged in alphabetical order from bottom to top, then how many boxes will remain same at their position?

Read the given information carefully and answer the related questions:

Seven boxes A, B, C, D, E, F and G are placed one above the other in a stack but not in the same order as given.

Three boxes are placed between box B and box D. Box A is placed immediately below box B. Number of boxes placed below box A is same as the number of boxes placed above box G. One box is placed between box G and box C which is placed above box G. Box E is not placed at the bottommost position.

- (a) Three
- (b) None
- (c) Four
- (d) Two
- (e) One

Ans.(e)

Q20. What is the position of box G from bottom?

Read the given information carefully and answer the related questions:

Seven boxes A, B, C, D, E, F and G are placed one above the other in a stack but not in the same order as given.

Three boxes are placed between box B and box D. Box A is placed immediately below box B. Number of boxes placed below box A is same as the number of boxes placed above box G. One box is placed between box G and box C which is placed above box G. Box E is not placed at the bottommost position.

- (a) First
- (b) Third
- (c) Second
- (d) Fifth
- (e) Sixth

Ans.(c)

Q21. Which of the following box is placed two boxes below box A?

Read the given information carefully and answer the related questions:

Seven boxes A, B, C, D, E, F and G are placed one above the other in a stack but not in the same order as given.

Three boxes are placed between box B and box D. Box A is placed immediately below box B. Number of boxes placed below box A is same as the number of boxes placed above box G. One box is placed between box G and box C which is placed above box G. Box E is not placed at the bottommost position.

- (a) G
- (b) F
- (c) C
- (d) B
- (e) D

Ans.(c)

Q22. If the first and third digit of each number is interchanged within the number, then which of the following will be the second highest number?

The following questions are based on the five three-digit numbers given below:

492 625 381 967 154

- (a) 492
- (b) 154
- (c) 625
- (d) 381
- (e) 967

Ans.(c)

Q23. If the digits are arranged in ascending order within the number, then what will be the sum of first and the second highest numbers?

The following questions are based on the five three-digit numbers given below:

492 625 381 967 154

- (a) 824
- (b) 387
- (c) 935
- (d) 505
- (e) 748

Ans.(c)

Q24. What will be the sum of the second digits of 'highest and the second smallest' number?

The following questions are based on the five three-digit numbers given below:

492 625 381 967 154

- (a) 15
- (b) 10
- (c) 17
- (d) 14
- (e) 19

Ans.(d)

Q25. If 2 is added to each number then how many numbers will be completely divisible by 3?

The following questions are based on the five three-digit numbers given below:

492 625 381 967 154

- (a) None
- (b) One
- (c) Two
- (d) Three
- (e) More than three

Ans.(d)

Q26. Who among the following was born in July?

Read the given information carefully and answer the related question:

A, B, C, D, E, F and G were born on same date of different months in a year (but not in same order as given). The months are – March, April, May, June, July, August and September.

A was born in the month having even number of days. Three persons were born between A and C. G is two months older to C. E was born immediately after G. Two persons were born between E and B. D is younger to B.

- (a) F
- (b) B
- (c) E
- (d) D
- (e) C

Ans.(b)

Q27. Four of the following five are similar in a certain manner and form a group. Who among the following is not related to the group?

Read the given information carefully and answer the related question:

A, B, C, D, E, F and G were born on same date of different months in a year (but not in same order as given). The months are – March, April, May, June, July, August and September.

A was born in the month having even number of days. Three persons were born between A and C. G is two months older to C. E was born immediately after G. Two persons were born between E and B. D is younger to B.

- (a) A
- (b) D
- (c) B
- (d) C
- (e) G

Ans.(a)

Q28. D was born in which of the following month?

Read the given information carefully and answer the related question:

A, B, C, D, E, F and G were born on same date of different months in a year (but not in same order as given). The months are – March, April, May, June, July, August and September.

A was born in the month having even number of days. Three persons were born between A and C. G is two months older to C. E was born immediately after G. Two persons were born between E and B. D is younger to B.

- (a) May
- (b) March
- (c) September
- (d) August
- (e) June

Ans.(d)

Q29. How many persons were born between G and F?

Read the given information carefully and answer the related question:

A, B, C, D, E, F and G were born on same date of different months in a year (but not in same order as given). The months are – March, April, May, June, July, August and September.

A was born in the month having even number of days. Three persons were born between A and C. G is two months older to C. E was born immediately after G. Two persons were born between E and B. D is younger to B.

- (a) None
- (b) Four
- (c) One
- (d) Three
- (e) Two

Ans.(e)

Q30. If all the persons are arranged in alphabetical order from March to September, then how many persons will remain same at their position?

Read the given information carefully and answer the related question:

A, B, C, D, E, F and G were born on same date of different months in a year (but not in same order as given). The months are – March, April, May, June, July, August and September.

A was born in the month having even number of days. Three persons were born between A and C. G is two months older to C. E was born immediately after G. Two persons were born between E and B. D is younger to B.

- (a) Two
- (b) One
- (c) Four
- (d) None
- (e) Three

Ans.(b)

Q31. Statements: Only a few cup is can

All cup is kettle

No can is jar

Conclusions:

I. Some kettle is not jar

II. No Cup is jar

In the question below, some statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer-

- (a) If only conclusion I follows
- (b) If only conclusion II follows
- (c) If either conclusion I or II follows
- (d) If neither conclusion I nor II follows
- (e) If both conclusions I and II follow

Ans.(a)

Q32. Statements: Some colours are pens

All pens are pencils

Only a few pencils are glitters

Conclusions:

I. All pencils being glitters is a possibility

II. Some colours are pencils

In the question below, some statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer-

(a) If only conclusion I follows

(b) If only conclusion II follows

(c) If either conclusion I or II follows

(d) If neither conclusion I nor II follows

(e) If both conclusions I and II follow

Ans.(b)

Q33. Statements: All lines are square

Only a few square are circles

Conclusions:

I. Some square are not circles

II. Some lines being circles is a possibility

In the question below, some statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions logically follows from the given statements, disregarding commonly known facts. Give answer-

(a) If only conclusion I follows

(b) If only conclusion II follows

(c) If either conclusion I or II follows

(d) If neither conclusion I nor II follows

(e) If both conclusions I and II follow

Ans.(e)

Q34. In the question below, some statements are given followed by two conclusions numbered I and II. You have to take the given statements to be true even if they seem to be at variance with commonly known facts. Read all the conclusions and then decide which of the given conclusions *logically doesn't follow* from the given statements, disregarding commonly known facts. Give answer-

Statements: All fruits are vegetable

Only a few vegetable are carrot

Some carrot are not tomato

Conclusions:

I. All fruits being tomato is a possibility

II. No vegetable is carrot

(a) If only conclusion I

- (b) If only conclusion II
- (c) If either conclusion I or II
- (d) If neither conclusion I nor II
- (e) If both conclusions I and II

Ans.(b)

Q35. In the word 'SOLVENT', how many pairs of the letters have the same number of letters between them (both forward and backward direction) as in the English alphabet?

- (a) One
- (b) Two
- (c) Four
- (d) Three
- (e) Five

Ans.(d)

Q36. What is the position of F with respect to B?

Read the given information carefully and answer the related question:

Seven persons A, B, C, D, E, F and G sit around a circular table facing inside (equidistant from each other) but not in same order as given.

One person sits between G and D. B does not sit adjacent to G and D. C sits second to the left of B. The number of persons sit between B and G (when counted from the right of B) is one more than the number of persons A and E (when counted from the left of E).

- (a) Immediate left
- (b) Third to the right
- (c) Second to the right
- (d) Immediate right
- (e) Third to the left

Ans.(d)

Q37. Who among the following sits second to the right of G?

Read the given information carefully and answer the related question:

Seven persons A, B, C, D, E, F and G sit around a circular table facing inside (equidistant from each other) but not in same order as given.

One person sits between G and D. B does not sit adjacent to G and D. C sits second to the left of B. The number of persons sit between B and G (when counted from the right of B) is one more than the number of persons A and E (when counted from the left of E).

- (a) E
- (b) D
- (c) A
- (d) F
- (e) B

Ans.(a)

Q38. How many persons sit between D and E when counted from the right of D?

Read the given information carefully and answer the related question:

Seven persons A, B, C, D, E, F and G sit around a circular table facing inside (equidistant from each other) but not in same order as given.

One person sits between G and D. B does not sit adjacent to G and D. C sits second to the left of B. The number of persons sit between B and G (when counted from the right of B) is one more than the number of persons A and E (when counted from the left of E).

- (a) None
- (b) Two
- (c) Four
- (d) One
- (e) Three

Ans.(e)

Q39. If B is related to E, in the similar way C is related to G, then who among the following is related to F?

Read the given information carefully and answer the related question:

Seven persons A, B, C, D, E, F and G sit around a circular table facing inside (equidistant from each other) but not in same order as given.

One person sits between G and D. B does not sit adjacent to G and D. C sits second to the left of B. The number of persons sit between B and G (when counted from the right of B) is one more than the number of persons A and E (when counted from the left of E).

- (a) E
- (b) A
- (c) D
- (d) C
- (e) B

Ans.(c)

Q40. If all the are made to sit in alphabetical order starting from A in clockwise direction, then how many persons will remain same at their position (excluding A)?

Read the given information carefully and answer the related question:

Seven persons A, B, C, D, E, F and G sit around a circular table facing inside (equidistant from each other) but not in same order as given.

One person sits between G and D. B does not sit adjacent to G and D. C sits second to the left of B. The number of persons sit between B and G (when counted from the right of B) is one more than the number of persons A and E (when counted from the left of E).

- (a) One
- (b) Two
- (c) Three
- (d) Four
- (e) Five

Ans.(b)

Directions (41-45): The table given below shows the marks scored by P, Q, R, S and T in three different subjects (i.e. English, Hindi and Maths). Read the data carefully and answer the following question.

Students	English	Hindi	Maths
P	120	100	130
Q	100	132	70
R	80	130	90
S	50	150	110
T	40	80	100

Q41. Find the ratio of marks scored by P and Q in English to marks score by S in maths.

- (a) 7:9
- (b) 3:2
- (c) 3:1
- (d) 2:1
- (e) 1:1

Ans.(d)

Q42. The total marks scored by P and T in Hindi is what percentage of marks scored by S in English and in Hindi together.

- (a) 90%
- (b) 33%
- (c) 66%
- (d) 76%
- (e) 75%

Ans.(a)

Q43. If total mark score by A in all the subjects is equal to sum of the marks scored by P and R together in all the given subjects and the ratio of marks scored by A in English, hindi and maths is 3:6:4 respectively, find the marks obtained by A in English.

- (a) 120
- (b) 150
- (c) 100
- (d) 190
- (e) 110

Ans.(b)

Q44. Find the average mark scored by all in Hindi.

- (a) 114.4
- (b) 113.4
- (c) 118.4
- (d) 117.4
- (e) 110.4

Ans.(c)

Q45. Find the difference between mark score by T and Q together in English and R and S together in Hindi.

- (a) 120
- (b) 150
- (c) 100
- (d) 140
- (e) 110

Ans.(d)

Directions (46-50): The bar graph shows the number of students taking online and off-line classes on five different days. Read the data and answer the following question.

Q46. Find the difference between total student taking online classes and total student taking off-line classes on all the given days.

- (a) 120
- (b) 150
- (c) 100
- (d) 190
- (e) 110

Ans.(c)

Q47. Find the ratio of student taking online classes on Monday and Tuesday together to students taking off-line classes on Friday.

- (a) 7:9
- (b) 3:2
- (c) 3:1
- (d) 2:1

(e) 7:8

Ans.(e)

Q48. On Saturday the number of online classes taken by students is 20% less than the off-line classes taken by students on Monday, then find the sum of online class taken by students on Saturday and Friday.

(a) 120

(b) 150

(c) 100

(d) 140

(e) 110

Ans.(a)

Q49. Online class taken by students on Monday and Friday is what percentage of total off-line classes taken by students on Wednesday.

(a) 120

(b) 150

(c) 100

(d) 140

(e) 110

Ans.(c)

Q50. If the ratio of online classes taken by students on Friday and Sunday is 5:4, then the online classes taken on Sunday is what percentage more/less than offline classes taken by students on Tuesday.

(a) 20

(b) 50

(c) 0

(d) 40

(e) 10

Ans.(a)

Q51. A 42-liter mixture contains milk and water in the ratio 2 : 5, respectively. After adding some quantity of milk, the ratio of water to milk becomes 1 : 4. Find the quantity of milk added (in liters).

(a) 120

(b) 108

(c) 90

(d) 85

(e) 112

Ans.(b)

Q52. A and B together can complete a piece of work in 15 days, while B alone can complete it in 36 days. If both A and B start working together, but B leaves 6 days before the work is finished, find the total time taken by A to complete the remaining work.

(a) 12.5

(b) 17.5

(c) 15.5

(d) 11.5

(e) 19.5

Ans.(b)

Q53. The breadth of a rectangle is 25% less than the length of the rectangle. If the perimeter of the rectangle is 70 cm, then find the area of the rectangle (in cm^2).

(a) 300

(b) 450

(c) 320

(d) 280

(e) 480

Ans.(a)

Q54. A shopkeeper allowed a 20% discount off the marked price of an article. If he earned a profit of Rs 450 and the difference between the cost price and marked price of the article is Rs 1900, then find the cost price of the article (in Rs).

(a) 5650

(b) 5850

(c) 5350

(d) 5550

(e) 5150

Ans.(c)

Q55. A can travel 54 km in 2 hours. If the speed of A is 20% more than the speed of B, then how many km are travelled by B in 4 hours (in km)?

(a) 100

(b) 80

(c) 90

(d) 75

(e) 120

Ans.(c)

Q56. The upstream speed of a boat is 6 km/hr, and the speed of a stream is 2 km/hr. Find the time taken by the boat to cover 80 km downstream (in hours).

(a) 12

(b) 7

(c) 5

(d) 10

(e) 8

Ans.(e)

Q57. A, B, and C started a business with investments of Rs 2800, Rs 5400, and Rs 3600, respectively. After 8 months, A left the business, and at the end of the year, the profit share of B is Rs 2430. Find the total profit (in Rs).

(a) 4080

- (b) 4480
- (c) 4980
- (d) 4890
- (e) 4908

Ans.(d)

Q58. A man invested Rs X in compound interest at 10% p.a. for three years and received interest of Rs 1324. If he invested Rs (X + 500) in simple interest for two years at 15% p.a., then find the simple interest he received (in Rs).

- (a) 1800
- (b) 1250
- (c) 1550
- (d) 1400
- (e) 1350

Ans.(e)

Q59. Pipe A can fill a tank in 15 hours and Pipe B can fill it in 20 hours. Both pipes are opened together, but after 4 hours, Pipe A is closed. Find the total time (in hours) taken to fill the tank.

- (a) $14\frac{2}{3}$
- (b) $14\frac{1}{3}$
- (c) $16\frac{2}{3}$
- (d) $12\frac{2}{3}$
- (e) $15\frac{1}{3}$

Ans.(a)

Q60. Two trains of lengths 180 m and 120 m are moving in opposite directions at speeds of 54 km/h and 72 km/h respectively. How long will they take to completely cross each other (in seconds)?

- (a) 40/7
- (b) 60/7
- (c) 44/7
- (d) 66/7
- (e) 70/7

Ans.(b)

Q61. 2, 4, 12, ?, 240, 1440

What will come in the place of question mark (?) in the following questions.

- (a) 24
- (b) 48
- (c) 60
- (d) 72
- (e) 84

Ans.(b)

Q62. 1200, 300, 150, 112.5, ?, 140.625

What will come in the place of question mark (?) in the following questions.

- (a) 128
- (b) 112.5
- (c) 225
- (d) 227.5
- (e) 126.5

Ans.(b)

Q63. 1600, 1088, 1039, 823, 798, ?

What will come in the place of question mark (?) in the following questions.

- (a) 754
- (b) 714
- (c) 704
- (d) 724
- (e) 734

Ans.(e)

Q64. 147, ?, 111, 88, 59, 28

What will come in the place of question mark (?) in the following questions.

- (a) 130
- (b) 126
- (c) 128
- (d) 133
- (e) 116

Ans.(a)

Q65. 148, ?, 203, 243, 294, 358, 437

What will come in the place of question mark (?) in the following questions.

- (a) 172
- (b) 162
- (c) 150
- (d) 160
- (e) 182

Ans.(a)

Q66. $50 - 45 + 145 = 2.5 \times ?$

What will come in the place of question (?) mark in the following questions?

- (a) 50
- (b) 60
- (c) 30
- (d) 20
- (e) 10

Ans.(b)

Q67. $\sqrt{225} \div \sqrt{25} \times 6 = ?\%$ of 200

What will come in the place of question (?) mark in the following questions?

- (a) 6
- (b) 9
- (c) 12
- (d) 4
- (e) 15

Ans.(b)

Q68. $16 \times 25 + 280 - (25)^2 = 25\%$ of ?

What will come in the place of question (?) mark in the following questions?

- (a) 180
- (b) 260
- (c) 220
- (d) 240
- (e) 300

Ans.(c)

Q69. $\sqrt{49} \times \sqrt{196} + 430 = (?)^2 - 48$

What will come in the place of question (?) mark in the following questions?

- (a) 34
- (b) 14
- (c) 16
- (d) 26
- (e) 24

Ans.(e)

Q70.

$$118 + \sqrt{484} + \frac{6}{13} \times 260 + ? = (17)^2$$

What will come in the place of question (?) mark in the following questions?

- (a) 29
- (b) 31
- (c) 27
- (d) 39
- (e) 19

Ans.(a)

Q71. $108 \div 3 \times 5 - 225 \div 9 \times 4 = 400\%$ of ?

What will come in the place of question (?) mark in the following questions?

- (a) 50
- (b) 10
- (c) 30
- (d) 20
- (e) 40

Ans.(d)

Q72.

$$40\% \text{ of } 825 = 16 \frac{2}{3} \% \text{ of } 1260 + ?$$

What will come in the place of question (?) mark in the following questions?

- (a) 120
- (b) 140
- (c) 160
- (d) 100
- (e) 180

Ans.(a)

Q73.

$$18 \div 1.5 + 153 \div 17 + \sqrt{256} = \frac{629}{?}$$

What will come in the place of question (?) mark in the following questions?

- (a) 9
- (b) 19
- (c) 27
- (d) 7
- (e) 17

Ans.(e)

Q74.

$$(110 + 70 - \sqrt{6400}) \div 25 + ? = (4)^2$$

What will come in the place of question (?) mark in the following questions?

- (a) 24
- (b) 14
- (c) 12
- (d) 22
- (e) None of the above.

Ans.(c)

Q75.

$$\frac{25\% \text{ of } 680}{50\% \text{ of } 340} = ?$$

What will come in the place of question (?) mark in the following questions?

- (a) 5
- (b) 4
- (c) 3
- (d) 2
- (e) 1

Ans.(e)

Q76. $15\% \text{ of } 60 \text{ of } 36000 = 12 \times ?^3$

What will come in the place of question (?) mark in the following questions?

- (a) 25
- (b) 40
- (c) 10
- (d) 20
- (e) 30

Ans.(e)

Q77.

$$\frac{170}{34} \div \frac{25}{5} \div \frac{742}{2226} = ?$$

What will come in the place of question (?) mark in the following questions?

- (a) 7
- (b) 5
- (c) 4
- (d) 2
- (e) 3

Ans.(e)

Q78.

$$\frac{4}{10.5} \times \sqrt{441} - \sqrt{25} = \sqrt{?}$$

What will come in the place of question (?) mark in the following questions?

- (a) 81
- (b) 9
- (c) 1
- (d) 25
- (e) 49

Ans.(b)

Q79. $12.5\% \text{ of } 400 = ? - 60\% \text{ of } 1800$

What will come in the place of question (?) mark in the following questions?

- (a) 1150
- (b) 1160
- (c) 1170
- (d) 1190
- (e) 1130

Ans.(e)

Q80. $((36)^{1/2} + (169)^{1/2}) \times ? = 95$

What will come in the place of question (?) mark in the following questions?

- (a) 5
- (b) 4
- (c) 3
- (d) 2
- (e) 1

Ans.(a)
