Directions (59-63): Read the following passage carefully and answer the questions based on the passage:

Swachh Bharat Abhiyan (2014): The fast urbanization of Indian cities has led to the problem of waste disposal becoming a major concern. The latest data indicate that waste collection is at 68%, but the treatment stage is only 28%. The Swachh Bharat Abhiyan was initiated to tackle issues in waste management, hygiene, and sanitation at the national level in 2014.

This scheme brings along new and better waste collection systems, more sophisticated sorting and recycling methods, and full support of the concepts of reducing, reusing, and recycling. The Swachh Bharat Abhiyan, through community participation and better sanitation, aspires to cut down waste in the landfills and, consequently, also the negative impact on nature. The project also insists on the necessity of proper waste handling and treatment. The aspect of public awareness is vital in the project, since it is through this that people get to be informed about eco-friendly practices. The construction of toilets in millions has greatly reduced the incidence of open defecation and the health issues associated with it. Local bodies have also experimented with waste management techniques, thus contributing to the country being cleaner and more civilized.

Q59. The passage indicates that the primary objective of the Swachh Bharat Abhiyan was to:

- (a) Address the increasing challenge of waste disposal resulting from rapid urbanization in Indian cities.
- (b) Provide technological upgrades to industries that specialize in commercial recycling systems
- (c) Promote the development of large-scale waste-to-energy facilities in major metropolitan regions.
- (d) Enhance tourism by improving the aesthetics of public spaces without addressing sanitation concerns.

Ans.(a)

Q60. According to the passage, one of the key strengths of the Abhiyan is its emphasis on:

- (a) Replacing all existing municipal systems with privately managed services.
- (b) Encouraging community participation and widespread public awareness.
- (c) Investing heavily in advanced machinery at the cost of public involvement.
- (d) Enforcing strict penalties on households generating large quantities of solid waste.

Ans.(b)

Q61. The passage indicates that Abhiyan's contribution to sanitation is most clearly seen in:

- (a) The privatization of rural water systems for better efficiency.
- (b) The introduction of imported sanitation technology for urban households.
- (c) The construction of millions of toilets that reduced open defecation.
- (d) A significant expansion of sewage treatment plants in industrial zones.

Ans.(c)

Q62. Which of the following best describes the environmental goal of the Abhiyan?

- (a) Expanding landfill space to handle more waste.
- (b) Encouraging citizens to rely solely on biodegradable materials for daily use.
- (c) Getting rid of all plastic waste by banning it nationwide.
- (d) Reducing waste sent to landfills by improving collection, treatment, and recycling.

Ans.(d)

Q63. The reference to local bodies experimenting with waste management suggests that:

- (a) Innovative sanitation techniques were not taken up by the municipal authorities.
- (b) Local governments were instrumental in the formation of cleaner and tidier communities.
- (c) Waste management was completely handed over to private companies.
- (d) Experimental methods were applied without much consideration of public opinion, replacing traditional systems.

Ans.(b)
