

To,
The Chairman
UGC
Government of India
New Delhi, India

Subject: Justice be given to the 11 Lakh students who appeared for the UGC NET Exam.

Dear Sir/Madam,

We, the undersigned students and concerned citizens of India write to express our deep concerns regarding the recent cancellation of the UGC-NET June 2024 examination due to reported irregularities. It is disheartening to witness a repetition of such events, which severely compromises the integrity of our educational system and our futures. Listed below are a few of our key concerns:

1. Exam Integrity Compromised: The Ministry of Education announced that the integrity of the UGC-NET June 2024 exam had been compromised, leading to its cancellation.
2. Cybersecurity Threats: On June 19, 2024, cybersecurity experts reported irregularities during the exam, further indicating a significant lapse in securing the examination process.
3. Immediate Cancellation Impact: Over 11 lakh candidates. The sudden cancellation has led to considerable emotional, psychological, and financial stress among candidates who have invested substantial time and resources in preparation.

Our Requests:

1. Explanation required on why the exam has been cancelled
2. What was the reason that the mode of exam was changed from online to offline after 6 years?
3. Timelines on action which NTA is taking to ensure that these things are not getting repeated.
4. It should be notified if such or similar issues have occurred before; if yes, then what was done about it?
5. How will the students be compensated as they have faced financial, emotional and psychological trauma?
6. Why did NTA release a circular of successful completion of UGC NET Exam hours before the news broke? What is the intention behind that?
7. Timelines and information of the CBI enquiry, and complete transparency of the proceedings and re-exam dates of June and exam dates for December 2024?
- 8- Implementation of Robust Security Measures: Enhanced cybersecurity measures and other safeguards must be implemented to prevent future irregularities and ensure the integrity of all national examinations.

Yours Sincerely
Deepak Kumar
