Read the following passage carefully and answer the questions:

Does more education lead to greater democracy? Or are more democratic countries better at educating their citizens? A recent NBER paper compared a group of Kenyan girls in 69 primary schools whose students were randomly selected to receive a scholarship with similar students in schools which received no such financial aid. Previous studies had shown that the scholarship programme led to higher test scores and increased the likelihood that girls enrolled in secondary school.

Overall, it significantly increased the amount of education obtained. For the new study the authors tried to see how the extra schooling had affected the political and social attitudes of the women in question. Findings suggested that education may make people more interested in improving their own lives but they may not necessarily see democracy as the way to do it.

Even in established democracies, more education does not always mean either more active political participation or greater faith in democracy. Poorer and less educated people often vote in larger numbers than their more educated compatriots, who often express disdain for the messiness of democracy yearning for the kind of government that would deal strongly with the corrupt and build highways, railway lines and bridges at a dizzying pace of authoritarian China.

क्या अधिक शिक्षा वृहत्तर लोकतंत्र की ओर ले जाती है? अथवा क्या अधिक लोकतांत्रिक देश अपने नागरिकों को शिक्षित करने में उत्तम हैं। एन बी ई आर के एक हाल के आलेख में छात्रवृत्ति प्राप्त करने के लिए यादृच्छिक रूप से चुने गई 69 प्राथमिक विद्यालयों में केन्याई लड़कियों के एक समूह की कोई वित्तीय सहायता न पाने वाले विद्यालयों में इसी प्रकार के विद्यार्थियों से तुलना की गई है। विगत अध्ययनों ने दर्शाया था कि छात्रवृत्ति कार्यक्रम के चलते परीक्षा में ऊँचे अंक प्राप्त होते हैं और लड़कियों के माध्यमिक विद्यालय में दाखिले की संभावना बढ़ जाती है। कुल मिलाकर, इससे शिक्षा प्राप्ति की प्रमात्रा में महत्वपूर्ण वृद्धि हुई। नए अध्ययन के लिए, लेखकों ने यह देखने का प्रयास किया कि इस अतिरिक्त स्कूली शिक्षा ने अध्यधीन महिलाओं की राजनीतिक व सामाजिक अभिवृत्तियों को किस प्रकार से प्रभावित किया है। परिणामों से पता चलता है कि शिक्षा ने लोगों को अपने जीवन में सुधार करने में अधिक रूचि लेने वाला बेशक बनाया हो, परन्तु आवश्यक नहीं है कि वे लोकतंत्र को ऐसा करने के एक माध्यम के रूप में देखें। स्थापित लोकतांत्रिक देशों में भी अधिक शिक्षा का अर्थ हमेशा ही लोकतंत्र में अधिक सक्रिय राजनीतिक भागीदारी अथवा अधिक विश्वास नहीं होता है। अधिक गरीब और कम शिक्षित लोग बहुधा अपने अधिक शिक्षित देशवासियों की अपेक्षा बड़ी संख्या में मतदान के लिए आते हैं जो बहुधा लोकतंत्र की गंदगी के प्रति तिरस्कार व्यक्त करते हैं और ऐसी सरकार के प्रति ललक दिखाते हैं जो भ्रष्ट लोगों से सख्ती से निपटे और सत्तावादी चीन की भांति अत्यधिक तेज रफ्तार से राजमार्ग, रेललाइन व पुल बनाए।

Comprehension:

Read the following passage and answer the questions:

A mid-sized IT firm in India is facing multiple HR challenges as it expands. The company recently hired 200 employees but is struggling with high attrition, lack of structured training program and a weak performance appraisal system. Employees often feel over worked and underappreciated, leading to low engagement and motivation. The HR manager Priya wants to improve HR practices by implementing a structured performance appraisal system launching employee wellness program and using HR technology for recruitment. However she face resistance from senior management, who think those initiative will increase cost without direct financial benefits.

Additionally, employee feedback indicates dissatisfaction with work life balance and unclear career progression. Some employees also feel that promotions are biased and that the company lack a proper succession plan.

Priya is considering introducing flexible work arrangements, setting up leadership development program and adopting AI- driven HR analytics to improve decision making. However, she needs to convince top management of the long term benefits of these changes.
