Subject	12 Home Science

Section : General Paper

Comprehension:

The following table shows the cumulative percentage of the total number of students appearing in the Hindi and Punjabi examination and the cumulative number of students appearing in the Hindi examination and scoring marks in five different categories, namely, 80 and above; 70 and above; 60 and above; 50 and above; and 40 and above. Based on the data in the table, answer the questions that follow.

Marks-wise distribution of students

Marks (Out of 100)	Cumulative percentage of the total number of students who appeared in Hindi and Punjabi	Cumulative number of students who appeared in Hindi
80 and above	15%	108
70 and above	35%	264
60 and above	65%	424
50 and above	90%	554
40 and above	100%	624

- Note :
- (1) Total number of students who attended the exam is 1200.
 - (2) No student failed in the examination.
 - (3) Each student appeared in only one exam, that is, either in Hindi or in Punjabi exam.

SubQuestion No : 1

Q.1 What is the difference between the number of students who scored 70 or more than 70 marks but less than 80 marks in Punjabi and the number of students who scored 40 or more than 40 marks but less than 50 marks in Hindi ?

- (1) 20
- (2) 16
- (3) 14
- (4) 30

Options 1. 1

2. 2

3. 3

4. 4

Comprehension:

Read the following passage carefully and answer the questions .

Forced by circumstances and in search of success and status, educated young men and women settle far away from their parents. Some go abroad. The very education that the parents manage to give to their children turns against them in the end. Their children go away in search of green pastures leaving them alone. International community as well as our government is aware of their problems. The UNO proclaimed the year 1999 as 'International Year for the Aged'. In our own country too the year 2000 was proclaimed 'The Year for the Aged'.

Article 41 of our constitution clearly makes it incumbent on the state to look after the aged. There is a social welfare ministry responsible for the welfare of the aged. Laws are made from time-to-time to protect the rights of senior citizens. For example under law parents cannot be evicted from a house without due process of law under section 105 of the Criminal Procedure Code. A magistrate can order a person to maintain his/her old parents under the Maintenance of Parents Act. The Hindu Adoption and Maintenance act says that the aged parents can demand for maintenance from their children. The Domestic Violence Act also provides parents with the rights to seek relief from any kind of abuse.

SubQuestion No : 46

- Q.46** Under section 105 of the criminal procedure code, parents cannot be evicted from a house :

Q.87 If you have faced any product related problem and you want to file a case to claim a compensation of Rs. 1 crore, which redressal agency would you approach ?

- (1) National Commission
- (2) District Commission
- (3) State Commission
- (4) Gram Panchayat

Options 1. 1

- 2. 2
- 3. 3
- 4. 4

Question Type : MCQ

Question ID : 4255893761

Option 1 ID : 42558914604

Option 2 ID : 42558914605

Option 3 ID : 42558914606

Option 4 ID : 42558914607

Status : Answered

Chosen Option : 1

Q.88 Which of the following are primary antioxidants used in fats/oils to delay rancidity ?

- A. Butylated hydroxyanisole
- B. Propyl gallate
- C. Tertiary butylhydroquinone
- D. Ethylene diamine tetra acetic acid
- E. Sodium erythorbate

Choose the **most appropriate** answer from the options given below :

- (1) A, B, C Only
- (2) B, C, D Only
- (3) C, D, E Only
- (4) A, B, E Only

Options 1. 1

2. 2

3. 3

4. 4

Question Type : MCQ

Comprehension:

Read the following passage and answer the questions below :

A forty year old female patient is having BMI = 28. The patient is complaining of polydipsia, polyuria and fatigue. Her Random blood glucose is 480 mg/dl. Glycosylated haemoglobin A1C is 7.5 %. Mean five day blood pressure is 145/92 mmHg. Mean five day fasting venous/capillary plasma glucose is 140 mg/dl. Her serum total cholesterol, low density lipoprotein cholesterol (LDLc) are elevated. High density lipoprotein cholesterol (HDLc) is below normal. The Kidney function tests are normal. Clinical history indicates that she had impaired glucose tolerance during her first pregnancy. She has been diagnosed to be suffering from non-insulin dependent diabetes mellitus.

The patient spends around 8-10 hours in an office sitting job. She is fond of nibbling and binging on food which usually happens during office hours, during travelling and weekends. She does not follow any regular exercise or physical activity schedule. The patient has been recommended to consume low fat, low glycemic index weight reduction diet. She has been prescribed hypoglycemic drugs and advised to follow an active lifestyle with a regular exercise schedule.

SubQuestion No : 141

Q.141

What is the meaning of polydipsia ?

- (1) Increased urination
- (2) Increased urination at night
- (3) Increased hunger
- (4) Increased thirst

Options 1. 1

Comprehension:

Read the following passage and answer the questions below :

A forty year old female patient is having BMI = 28. The patient is complaining of polydipsia, polyuria and fatigue. Her Random blood glucose is 480 mg/dl. Glycosylated haemoglobin A1C is 7.5 %. Mean five day blood pressure is 145/92 mmHg. Mean five day fasting venous/capillary plasma glucose is 140 mg/dl. Her serum total cholesterol, low density lipoprotein cholesterol (LDLc) are elevated. High density lipoprotein cholesterol (HDLc) is below normal. The Kidney function tests are normal. Clinical history indicates that she had impaired glucose tolerance during her first pregnancy. She has been diagnosed to be suffering from non-insulin dependent diabetes mellitus.

The patient spends around 8-10 hours in an office sitting job. She is fond of nibbling and binging on food which usually happens during office hours, during travelling and weekends. She does not follow any regular exercise or physical activity schedule. The patient has been recommended to consume low fat, low glycemic index weight reduction diet. She has been prescribed hypoglycemic drugs and advised to follow an active lifestyle with a regular exercise schedule.

SubQuestion No : 145

Q.145 The patient is suffering from which grade of hypertension as per Government of India, Standard Treatment Guidelines for hypertension (2016) ?

- (1) Grade 1 hypertension
- (2) Grade 2 hypertension
- (3) Grade 3 hypertensive crisis
- (4) Isolated systolic hypertension

Options 1. 1

2. 2

3. 3

4. 4

Option 3 ID : 42558914830

Option 4 ID : 42558914831

Status : Answered

Chosen Option : 1

Comprehension:

Read the following passage and answer the questions below :

The World Happiness Report, 2025 is based on the data collected in Gall-up poll. There is a growing global understanding of the importance of social connections and generosity in driving overall happiness. The report emphasizes that individuals often perceive themselves as less kind and generous than they truly are, which can greatly enhance their wellbeing.

For the eighth consecutive year, Finland tops the list of the world's happiest nations while Nordic countries remain the highest ranked regions. India has seen some improvement in its ranking, but still trails behind other South Asian countries despite performing economically better.

The report emphasizes the strong correlation between social connections, shared meals and life satisfaction. While many tend to be pessimistic about other people's generosity, acts of kindness are more common than expected and significantly impact happiness. Increasing prosocial behaviours like donating, volunteering and helping strangers is linked to 'deaths of despair'. The report introduces the WELLBY (Well-Being Life Years) metric to measure the cost effectiveness of charities and to promote responsible giving.

SubQuestion No : 146

Q.146 The World Happiness Report 2025 emphasizes strong correlation between :

- (1) Social connection, shared meals and life satisfaction
