Section : Part I General English

Comprehension:

Rubber, once a natural resource found only in Brazil and South America, has become an indispensable part of modern life. Thanks to the efforts of a man named Wickham, who shipped rubber seeds to England in 1887, the rubber plant now thrives in many parts of the world, particularly in Malaysia, where it has become the country's largest industry. The demand for rubber has grown to such an extent that synthetic and man-made rubber are now being produced on a large scale to keep up with it. Rubber is also used in unexpected ways. For example, it is used in the process of polishing rice, and thin sheets of rubber are used to stamp the names of biscuit brands onto the dough. Rubber is also used to make raincoats, and it is used in the manufacture of balls, from beach balls to golf balls. It is even used in furniture and gymnastic equipment.

Rubber also plays a role in healthcare. It is used for soundproof flooring, tyres on wheelchairs, and rubber rollers on beds and trolleys in hospitals. Rubber is waterproof, which makes it ideal for use in medical environments. In short, rubber has become an essential part of modern life, serving us in countless ways. From household items to transportation, and from healthcare to agriculture, rubber's versatility has made it an indispensable material.

SubQuestion No : 1

Q.1 Identify the central theme of the passage.

Ans

✓ 1.

Rubber is an essential part of modern life and is widely used in all spheres of life including household items to transportation, and from healthcare to agriculture.

✗ 2.

Rubber is not waterproof, which makes it not ideal for use in medical environments.

✗ 3.

Rubber is only used for soundproof flooring, tyres on wheelchairs, and rubber rollers on beds and trolleys in hospitals.

✗ 4.

Rubber cannot be used in the most unexpected ways. It has got lot of limitations to it.

Chosen Option : 4

Q.5 Read the below passage:

The urban population of school-goers and officegoers naturally dislikes the monsoon and its accompanying problems of landslides, muddy streets, and periodic infections. For non-farmers, the month of September can be depressing, when the rainfall is constant, and the awareness persists that the monsoons will last till October. One needs to have the heart of a farmer to remain grateful for the watery days and be able to observe from what seems to the inexperienced a continuous downpour-many kinds of rain.

Which one of the following is the CORRECT logical inference based on the information in the above passage?

- I) Everyone has different definitions of rain and different expectations as well.
- II) Monsoons are the best time for school and office goers, and they thoroughly enjoy it.
- III) Farmers remain grateful for the watery days because it helps with the growth of the crops, which in turn provides food to society as well.

- Ans
- ☒ 1. I & III only
  - ☐ 2. II only
  - ☐ 3. I & II only
  - ☐ 4. I only

Comprehension:

Fly envious Time, till thou run out thy race,  
Call on the lazy leaden-stepping hours,  
Whose speed is but the heavy Plummets pace;  
And glut thy self with what thy womb devours,  
Which is no more than what is false and vain,  
And merely mortal dross;  
So little is our loss,  
So little is thy gain.  
For when as each thing bad thou hast entomb'd,  
And last of all, thy greedy self consum'd,  
Then long Eternity shall greet our bliss  
With an individual kiss;  
And Joy shall overtake us as a flood,  
When everything that is sincerely good  
And perfectly divine,  
With Truth, and Peace, and Love shall ever shine  
About the supreme Throne  
Of him, t'whose happy-making sight alone, When once our heav'nly guided soul shall clime,  
Then all this Earthy grossnes quit,  
Attir'd with Stars, we shall for ever sit, Triumphant over Death, and Chance, and thee O Time.

Q.8 Identify the central theme of the passage.

- Ans ☒ 1.  
Whatever tangible things are present within and around us are not associated with the real world.
- ☒ 2.  
The passage talks about the eternity of time and that it remains immortal.
- ☒ 3.  
The narrator talks about the futility of time. Time has no relevance for us. We know that the time flies, i.e. it never stops.
- ☒ 4.  
The narrator loves to spend time leisurely and is not afraid to accept the reality of life.

Q.10 Read the below passage:

Once an organ donor's family gives its consent and the organs are matched to a recipient, medical professionals are faced with the onerous challenge of transporting organs while ensuring that the harvested organ reaches its destination in the shortest possible time. This is done in order to preserve the harvested organs, which involves the police, especially the traffic police department. The traditional method of transporting organs by road is referred to as a "green corridor". The first green corridor in India was created by Chennai Traffic Police in September 2008, when they accomplished their task of enabling an ambulance to reach its destination within 11 minutes during peak hour traffic. That organ saved a nine-year-old girl whose life depended on the transplant. Similarly, such green corridors have been created by traffic police of various cities such as Pune, Mumbai, Delhi NCR etc.

Which one of the following is the CORRECT logical inference based on the information in the above passage?

- I) There were no green corridors before September 2008 .
- II) The green corridor model was not widely accepted by the other metropolitan cities such as Pune, Mumbai, Delhi etc.
- III) The medical professionals are well equipped to transport the organs in a timely manner without any challenges.

- Ans
- ✗ 1. II only
  - ✗ 2. III only
  - ✗ 3. I & III only
  - ✓ 4. I only

Comprehension:

Read the following passage and answer the questions given below.

India's electricity consumption grew nearly eight per cent to about 847 billion units (BU) in the first half of this fiscal year from April to September, showing uptick in economic activities in the country. According to the official data, electricity consumption rose to about 847 BU during April-September 2023 from 786 BU in the same period of the previous fiscal. The industry experts opined that the widespread unseasonal rain in April, May and June has affected the power consumption as it could have grown in double digits in the country. They stated that there was strong recovery of power demand as well as consumption in August onwards due to unusually high humidity level which increased the use of cooling appliances like fans, coolers and air conditioners.

SubQuestion No : 15

Q.15 Which of the following has affected the power consumption?

- Ans ☒ 1. Bad infrastructure
- ☒ 2. Low humidity level
- ☒ 3. Unseasonal rain
- ☒ 4. Lifestyle of people

Comprehension:

Read the following poem and answer the questions given below.

Nature's first green is gold,  
Her hardest hue to hold.  
Her early leaf's a flower;  
But only so an hour.  
Then leaf subsides to leaf.  
So Eden sank to grief,  
So dawn goes down to day.  
Nothing gold can stay.

SubQuestion No : 22

Q.22 What does the word 'hue' mean here?

- Ans ☒ 1. The belief of leaf  
☒ 2. The colour of leaf  
☒ 3. The shape of leaf  
☒ 4. The strength of leaf
