❖ **Meri Pehchaan-National Single Sign-On (NSSO) Platform**

The Ministry of Electronics and Information Technology (MeitY), Government of India, has developed a National Single Sign-On (NSSO) platform titled "Meri Pehchaan" in collaboration with the National Informatics Centre (NIC), Centre for Development of Advanced Computing (C-DAC), and National e-Governance Division (NeGD). The platform was launched on 4th July 2022 to facilitate seamless access to multiple Government services through a single set of login credentials.

Meri Pehchaan enables users to authenticate themselves once and securely access various integrated applications without the need for repeated sign-ins. The platform integrates multiple identity providers such as Jan Parichay, Digi Locker, and e-Pramaan, thereby ensuring interoperability and a unified user experience.

Users can register on the platform using basic details such as name, date of birth, and mobile number, and may complete verification through eKYC using Aadhaar, PAN, Driving Licence or APAAR. The platform supports advanced features such as multi-factor authentication, password-less login, and the ability to manage multiple accounts linked to a single mobile number.

The NSSO framework significantly reduces the burden of maintaining multiple credentials, enhances data security, and provides a standardized authentication mechanism for Government services. It also benefits service providers by reducing the cost and complexity of developing independent authentication systems.

Meri Pehchaan thus serves as a secure, scalable, and citizen-centric digital identity solution, contributing to the vision of Digital India by improving ease of access to Government-to-Citizen (G2C) services.

Application form registration has been enabled through the Single Sign-On (SSO) service-Meri Pehchan of Ministry of Electronics and Information Technology, for the convenience of the applicants.

[INTRODUCTION]

1.1 About National Testing Agency (NTA)

The Ministry of Education (MoE), Government of India (GOI) has established the National Testing Agency (NTA) as an independent, autonomous, and self-sustained premier testing organization under the Societies Registration Act (1860) for conducting efficient, transparent and international standards tests in order to assess the competency of candidates for admissions to premier higher education institutions.

The NTA has been entrusted by the University Grants Commission (UGC) with the task of conducting UGC-NET which is a test to determine the eligibility of Indian nationals for '*award of Junior Research Fellowship and appointment as Assistant Professor*', '*appointment as Assistant Professor and admission to Ph.D.*' and '*admission to Ph.D. only*' in Indian universities and colleges.

1.2 About University Grants Commission (UGC)

The University Grants Commission (UGC) is a Statutory Body of Government of India, Ministry of Education, Department of Higher Education, constituted under the University Grants Commission Act, 1956 (3 of 1956), vested with two responsibilities: that of providing funds and that of coordination, determination and maintenance of standards in institutions of higher education. The UGC's mandate includes:

- Advising the Central and State governments on the measures necessary for improvement of university education.

1.3 University Grants Commission - National Eligibility Test (UGC-NET)

(a) UGC-NET is a test to determine the eligibility of Indian nationals for '*award of Junior Research Fellowship and appointment as Assistant Professor*', '*appointment as Assistant Professor and admission to Ph.D.*' and '*admission to Ph.D. only*' in Indian universities and colleges.

- The candidates qualifying under the 'appointment as Assistant Professor and admission to Ph.D.' category will be eligible for appointment as Assistant Professor and admission to Ph.D. but not for the award of JRF.
- The candidates qualifying under the 'admission to Ph.D. only' category will be eligible for admission to Ph.D. only but not for the award of JRF and/or appointment as Assistant Professor.
- The eligibility will be determined in the following manner:

Qualified for	Eligible for		
	JRF	Assistant Professor	Ph.D. admission
Category-1: Award of JRF and appointment as Assistant Professor	Yes	Yes	Yes

Category-3: Admission to Ph.D. only	No	No	Yes

- The JRF-qualified candidates are admitted into the Ph.D. programme based on an

Information Bulletin UGC-NET December 2026 Examination

interview as per the UGC (Minimum Standards and Procedures for Award of Ph.D. Degree) Regulations, 2022.

- UGC-NET under category-2 & category-3 can be used as an entrance test for Ph.D. admission in place of entrance tests conducted by the different universities/HEIs for admission to Ph.D.
 - For candidates qualified under the category-2 and category-3, the marks obtained in the NET will have 70% weightage and 30% weightage will be based on the performance in the interview/viva voce conducted by the University/HEI concerned. The Ph.D. admission will be based on the combined merit of NET marks and the marks obtained in the interview/viva voce.
 - For admission to Ph.D., the marks obtained in the NET by the candidates in category-2 and category-3 will be valid for a period of one year from the date of declaration of the result of UGC-NET.
 - The number of candidates who will be qualified for 'admission to the Ph.D. only' will be decided by the results committee.
 - The result of NET will be declared in percentile along with the marks/normalized marks (in case of multiple shifts) obtained by a candidate to utilize the marks for admission to Ph.D. In case the test for a subject(s) is conducted in two or multiple shifts, the marks will be normalized by using the Equi-percentile method (**as per Annexure – XI**), and the result will be declared in percentile along with normalized marks.
- (b) The selection of candidates for the following Fellowships will be made through the Ministry of Social Justice and Empowerment:
- National Fellowship for Scheduled Caste Students (NFSC)
 - National Fellowship for Other Backward Classes (NFOBC)
 - National Fellowship for Persons with Disabilities (NFPwD)
- (c) The data of UGC-NET candidates can be shared by the UGC/NTA with Higher Educational Institutions (HEIs) for admission to Ph.D. programmes and with Public Sector Undertakings (PSUs) & other organizations for their recruitment processes.

11.3 Procedure and Criteria for declaration of result

1) The following steps will be followed for the preparation of Result

Step I: The number of candidates to be qualified for eligibility for Assistant Professor shall be equal to 6% of the candidates appeared in NET (in both the papers) on the basis of their Master's Degree or equivalent examination.

Step II: The total slots shall be allocated to different categories as per the reservation policy of Government of India.

Step III: In order to be considered, the candidate must have appeared in both the papers and secured at least 40% aggregate marks in both the papers taken together for General (Unreserved) / General-EWS category candidates and at least 35% aggregate marks in both the papers taken together for all candidates belonging to the reserved categories (viz., SC, ST, OBC (belonging to Non- Creamy Layer), PwD/PwBD and Third gender).

Step IV: The number of candidates to be declared qualified in any subject for a particular category is derived as per the methodology illustrated below:

Example: Number of candidates to be declared qualified for Eligibility for Assistant Professor in the subject 'Economics' for the Scheduled Caste (SC) category	Number of candidates* belonging to SC category who secure at least 35% aggregate marks in both the papers taken together in 'Economics' (x) Total slots derived for SC category as per Step II (÷) Total number of candidates* belonging to SC category over all subjects who secure at least 35% aggregate marks in both the papers taken together.
---	--

Information Bulletin UGC-NET December 2026 Examination

The aggregate percentage of the two papers corresponding to the number of slots arrived at, shall determine the qualifying cut-off for Eligibility for Assistant Professor 'in 'Economics' for the SC category. Similar yardstick shall be employed for deriving the subject-wise qualifying cut- offs for all categories.

Step V: The total number of slots available for awarding JRF is allocated among different categories as per the reservation policy of Government of India.

It may be noted that, notwithstanding the above, the qualifying criteria as decided by UGC is final and binding. Result of the examination shall be hosted on NTA website; <https://ugcnet.nta.nic.in/>. The candidates will not be individually intimated about their result.

***Appearing on the basis of their master's degree or equivalent examination.**

2) Normalization procedure (Annexure – X & Annexure – XI whichever is applicable):

- a) For multi-shift papers, raw marks obtained by the candidates in different shifts/sessions will be converted to NTA Score (percentile).
- b) The detailed procedure on NTA Score being adopted is available on NTA website under Normalization procedure based on Percentile Score.
- c) In case a subject test is conducted in multi-shifts, NTA Score will be calculated corresponding to the raw marks obtained by a candidate. The calculated NTA Score for the Raw Marks for all the shifts/sessions will be merged for further processing for deciding the allocation.
- d) In the events of the percentiles for the multi-shifts being dissimilar / unequal, the lowest will be the eligibility cut-off for that category for all candidates (i.e. all shifts).
For Example: In the examination held in two shifts, if the 40% marks correspond to a Percentile score of 78 in Shift 1 and 79 in Shift 2, then all those equal to or above 78 percentiles (Percentile score of 100 to 78) in both shifts will become eligible in General Category. Similar methods will be adopted for the other categories to determine eligibility cut-offs. In case the examination is held in a greater number of shifts the same principle shall apply.

3) Re-Evaluation/Re-Checking of result

- There shall be no re-evaluation/re-checking of the result. No correspondence in this regard shall be entertained.

Procedure for Appearing in Computer Based Test (CBT)

- (a) A computer terminal (node) indicated Roll Number will be allocated to each candidate. Candidates should find and sit on their allocated computers only. Any candidate found to have changed room/hall or the computer on their own rather than the one allotted would be liable to cancellation of candidature and no plea in this regard would be entertained.
- (b) The computer terminal allotted to the candidate will display a Welcome login screen, Candidate's photograph and subject opted by the candidate. For login, the candidate will have to enter **login-ID and password**.
- (c) After logging in, the candidate shall be able to see the detailed instructions for the examination. Candidates are advised to go through the instructions carefully regarding the type of questions and Marking Scheme. At the designated time of the start of the examination, the candidates will be able to proceed and see the questions on the computer screen.

The keyboard attached to the computer, if any, will be disabled during the entire duration of the examination. Depending on the type of question, the answers to questions can either be entered by clicking on the virtual on-screen keyboard (numeric or otherwise) using the computer mouse or by clicking the chosen option(s) using the computer mouse.

Candidates will have the option to change/modify answers already entered anytime during the entire duration of the examination.

In case the computer/mouse allotted to any candidate malfunctions anytime during the test, the candidate will be immediately allotted to another computer system and the time lost due to this will be adjusted in the server so as to give the candidate the full allotted time.

- (d) The on-screen computer clock counter of every candidate will be set at the server. The countdown timer in the top right side of computer screen will display the time remaining (in minutes) available for the candidate to complete the examination. When the timer reaches zero, the examination will end by itself. Candidate will not be required to end or submit the examination.
- (e) The Question Palette displayed on the right side of screen will show the status of each question using one of the following text/color codes/symbols.

-  You have not visited the question yet.
-  You have not answered the question.
-  You have answered the question.
-  You have NOT answered the question but have marked the question for review.
-  The question(s) "answered and marked for Review" will be considered for evaluation.

The question(s) "Answered and Marked for Review" status for a question indicates that candidate would like to have a relook at that question again. A candidate has the option of

Information Bulletin UGC-NET December 2026 Examination

answering a question and simultaneously placing it under “Marked for Review”, these answers will be considered for evaluation. However, if a candidate has simply put “Marked for Review” for a question without answering it, the corresponding question ‘Marked for Review’ without an answer will not be considered for evaluation. It may be noted that a candidate can return to any “Marked for Review” question any time during the examination by clicking on the corresponding question number icon displayed on the Question Palette of the corresponding section.

- (f) Candidate can click on an arrow/symbol which appears to the left of question palette to collapse the question palette thereby maximizing the question viewing window. To view the question palette again, candidate can click on arrow/symbol which appears on the right side of question window.
- (g) Candidate can click to navigate to the bottom and to navigate to the top of the question area, without scrolling. Using the computer mouse the candidate can scroll up and down the question viewing area for viewing the entire question.
- (h) Blank Sheets for doing rough work/calculations shall be provided to the candidates. The Blank Sheets would have a Header page for the candidates to write down his/her Name and Roll Number. All calculations/writing work are to be done only in the Blank Sheets provided at the Centre in the Examination Room/Hall and on completion of the test, candidates must hand over the rough sheets to the invigilator on duty in the Room/Hall.

(i) Navigating to a Question

To navigate between questions within a Paper, candidate needs to do the following:

- (i) Click on the question number in the Question Palette at the right of the screen to go to that numbered question directly. Note that using this option does NOT save the answer to the currently displayed question.
- (ii) Click on “Save & Next” to save the answer to any question. Clicking on “Save & Next” will save the answer for the current question and the next question will be displayed on the candidate’s computer screen.
- (iii) Click on “Mark for Review & Next” to mark a question for review (without answering it) and proceed to the next question.

(j) Answering a Question

To navigate between questions within a Paper, candidate needs to do the following:

(i) Procedure for answering a multiple-choice type of question:

- a. To select the option(s), click on the corresponding button(s) of the option(s).
- b. To deselect the chosen answer, click on the button of the chosen option again or click on the “Clear Response” button.
- c. To save the answer, the candidate MUST click on the “Save & Next” button.

National Testing Agency (NTA)

Procedure to be adopted for compilation of NTA scores for Multi Session Papers (Normalization procedure based on Percentile Score)

NTA may conduct examinations on multiple dates, generally in two sessions per day. The candidates will be given different sets of questions per session, and it is quite possible that in spite of all efforts of maintaining equivalence among various question papers, the difficulty level of these question papers administered in different sessions may not be exactly the same. Some of the candidates may end up attempting a relatively tougher set of questions when compared to other sets. The candidates who attempt the comparatively tougher Examination are likely to get lower marks as compared to those who attempt the easier one. In order to overcome such a situation, **“Normalization procedure based on Percentile Score”** will be used for ensuring that candidates are neither benefitted nor disadvantaged due to the difficulty level of the examination. With the objective of ensuring that a candidate’s true merit is identified, and that a level playing field is created in the above context, the Normalization Procedure, set out below shall be adopted, for compiling the NTA scores for multi session papers.

The process of Normalization is an established practice for comparing candidate scores across multi session papers and is similar to those being adopted in other large educational selection tests conducted in India. For normalization across sections, NTA shall use the percentile equivalence.

Percentile Scores: Percentile scores are scores based on the relative performance of all those who appear for the examination. Basically, the marks obtained are transformed into a scale ranging from 100 to 0 for each session of examinees.

The Percentile Score indicates the percentage of candidates that have scored EQUAL TO OR BELOW (same or lower raw scores) that particular Percentile in that examination. Therefore, the topper (highest score) of each session will get the same Percentile of 100 which is desirable. The marks obtained in between the highest and lowest scores are also converted to appropriate Percentiles.

The Percentile score will be the Normalized Score for the Examination (instead of the raw marks of the candidate) and shall be used for preparation of the merit lists.

The Percentile Scores will be calculated up to 7 decimal places to avoid bunching effect and reduce ties. The Percentile score of a Candidate is calculated as follows:

$$\frac{100 \times \text{Number of candidates appeared in the 'Session' with raw score EQUAL TO OR LESS than the candidate.}}{\text{Total number of the candidates appeared in the 'Session'}}$$

Note: The Percentile of the Total shall **NOT be** an aggregate or average of the Percentile of individual subject.

Percentile score is not the same as percentage of marks obtained.

Information Bulletin UGC-NET December 2026 Examination

Example: Suppose a test was held in 4 sessions of examinees as per details given below:-
(Allocation of Days and shifts were done randomly)

(a) Distribution of candidates were as follows:

Session-1: Day-1 Shift-1, **Session-2:** Day-1 Shift-2, **Session-3:** Day-2 Shift-1 and **Session-4:** Day-2 Shift-2

Session	Day/Shift	No of Candidates			Marks	
		Absent	Appeared	Total	Highest	Lowest
Session - 1	Day - 1, Shift - 1	3974	28012	31986	335	-39
Session - 2	Day - 1, Shift - 2	6189	32541	38730	346	-38
Session - 3	Day - 2, Shift - 1	6036	41326	47362	331	-49
Session - 4	Day - 2, Shift - 2	9074	40603	49677	332	-44
Total (Session - 1 to Session - 4)		25273	142482	167755	346	-49

In this method of scoring the HIGHEST RAW SCORE in each paper (irrespective of the raw scores) will be the 100 Percentile indicating that 100% of candidates have scores equal to or lesser than the highest scorer/ topper for that session.

Highest Raw Score and Percentile Score: All the highest raw scores will have normalized Percentile Score of 100 for their respective session.

Session	Total Candidates Appeared	Highest Raw Score	Candidates who scored EQUAL OR LESS THAN Highest Raw Score	Percentile Score	Remarks
Session-1	28012	335	28012	100.0000000 $[(28012/28012) * 100]$	i.e. all the highest raw scores would be normalized to 100 Percentile Score for their respective session.
Session -2	32541	346	32541	100.0000000 $[(32541/32541) * 100]$	
Session -3	41326	331	41326	100.0000000 $[(41326/41326) * 100]$	
Session -4	40603	332	40603	100.0000000 $[(40603/40603) * 100]$	

Lowest Raw Score and Percentile Score: Percentile Score of all the lowest raw scores will depend on the total number of candidates who have taken the Examination for their respective session.

Session	Total Candidates Appeared	Lowest Raw Score	Candidates who scored EQUAL OR LESS THAN Lowest Raw Score	Percentile Score	Remarks
Session -1	28012	-39	1	0.0035699 $[(1/28012) * 100]$	i.e. Percentile Score of all the lowest raw scores are different i.e. Percentile Score depend on the total number of candidates who have taken the Examination for their respective session.
Session -2	32541	-38	1	0.0030730 $[(1/32541) * 100]$	
Session -3	41326	-49	1	0.0024198 $[(1/41326) * 100]$	
Session -4	40603	-44	1	0.0024629 $[(1/40603) * 100]$	

Information Bulletin UGC-NET December 2026 Examination

The following is a further explanation of the interpretation of the raw scores and Percentile Score in Session-3 (Day-2 and Shift-1) with 41326 candidates who have taken the examination.

Candidate	Percentile Score	No of Candidates	Raw Score	Remark
A	100.0000000 [(41326/41326) *100]	1	331	Indicates that amongst those appeared, 100% have scored either EQUAL TO OR LESS THAN the candidate A (331 raw score).
				It also indicates that no candidate has scored more than the candidate A (331 raw score).
B	90.1224411 [(37244/41326) *100]	77	121	Indicates that amongst those appeared, 90.1224411% have scored either EQUAL TO OR LESS THAN the candidate B (121 raw score).
				It also indicates that remaining candidates have scored more than candidate B (121 raw score).
C	50.4549194 [(20851/41326) *100]	381	41	Indicates that amongst those appeared, 50.4549194% have scored either EQUAL TO OR LESS THAN the candidate C (41 raw score).
				It also indicates that remaining those appeared have scored more than candidate C (41 raw score).
D	31.7040120 [(13102/41326) *100]	789	25	Indicates that amongst those appeared, 31.7040120% have scored either EQUAL TO OR LESS THAN the candidate D (25 raw score)
				It also indicates that remaining candidates have scored more than candidate D (25 raw score).
E	1.1034216 [(456/41326) *100]	100	-15	Indicates that amongst those appeared, 1.1034216% have scored either EQUAL TO OR LESS THAN the candidate E (-15 raw score)
				It also indicates that remaining candidates have scored more than candidate E (-15 raw score)

STEP-BY-STEP PROCEDURE FOR NORMALIZATION AND PREPARATION OF RESULT:

Step-1: Distribution of Examinees in two shifts:

Candidates have to be distributed into two sessions randomly so that each session has approximately equal number of candidates. These two sessions would be as follows:

Session-1: Day-1 Shift-1, **Session-2:** Day-1 Shift-2

In the event of more number of days or less number of shifts, the candidates will be divided accordingly. This will ensure that there is no bias in the distribution of candidates who shall take the examination. Further, with a large population of examinees spread over the entire country the possibility of such bias becomes remote.

Step-2: Preparation of Results for each Session:

The Examination results for **each session** would be prepared in the form of

- Raw Scores
- Percentiles Scores of Total raw scores.

The Percentiles would be calculated for each candidate in the Session as follows: Let TP1 be the Percentile Scores of Total Raw Score of that candidate.

Total Percentile (TP1):	100 X	No. of candidates appeared from the session with raw score EQUAL TO OR LESS than T1 score
		Total No. of candidates appeared in the session

Step-3: Compilation of NTA score and Preparation of Result:

The Percentile scores for the Total Raw Score for all the sessions (**Session-1:** Day - 1 Shift - 1, **Session-2:** Day - 1 Shift - 2) as calculated in Step-2 above would be merged and shall be called the NTA scores which will then be used for compilation of result and further processing for

Information Bulletin UGC-NET December 2026 Examination

deciding the allocation.

In the events of the percentiles for the multi-shifts being dissimilar / unequal, the lowest will be the eligibility cut-off for that category for all candidates (i.e. all shifts).

For Example: In the Examination held in two shifts, if the 40% marks correspond to a Percentile score of 78 in Shift 1 and 79 in Shift 2, then all those equal to or above 78 percentiles (Percentile score of 100 to 78) in both shifts will become eligible in General Category. Similar method will be adopted for the other categories to determine eligibility cut-offs. In case the Examination is held in more number of shifts the same principle shall apply.

Procedure to be adopted for compilation of NTA scores for multi-session Papers
(Normalization procedure based on Percentile and Equi percentile method)

Need for Normalization

For several subjects, the UGC-NET December 2026 may be conducted in different shifts. Since the question papers for any subject in different shifts are different and it is quite possible that despite all the best possible efforts of maintaining equivalence among various question papers, the difficulty level of these question papers administered in different sessions may not be the same or similar. Some of the candidates might have ended up attempting a relatively tougher set of questions when compared to other sets. The candidates who attempted the comparatively tougher examination are likely to get lower marks as compared to those who attempted the easier one; the scores of the students across shifts are not directly comparable. There is a need for normalizing the marks across shifts to make them amenable to such comparisons.

A Committee headed by a Senior Professor from the Indian Statistical Institution Delhi and comprising of Senior Professors from the Indian Institute of Technology Delhi and the University of Delhi had detailed deliberations to arrive at the methodology.

As per Information Bulletin of UGC-NET December 2026 the raw score of each candidate in each subject will be normalized using the Equi-percentile method. This is done separately for each subject for which the examination is held in multiple shifts.

For each subject for which the examination is held in multiple shifts, the raw score for each candidate appearing for the subject will be converted into NTA Score (Percentile Score & Normalized Score) in the following three steps.

Step 1: Convert Raw Scores into Percentile Scores.

The percentiles are calculated separately for each shift.

Record the number of candidates who have appeared in a shift. Denote this number by N . Sort all the candidates in one shift in decreasing order of their marks.

Note the *raw marks* for each candidate. Suppose this is denoted by T . Count the number of candidates in that shift whose raw scores are less than or equal to T . Denote this number by m .

The percentile score for this candidate is then calculated as:

$$P = \frac{m}{N} * 100$$

Illustration:

Suppose that the examination in a certain subject is held in two different shifts, S_1 and S_2 , say. Consider six candidates A, B, C, D, E , and F out of which A, B , and C are from shift S_1 and the other three are from shift S_2 .

Let the raw marks of the six candidates be x_A, x_B, x_C (shift S_1 marks) and y_D, y_E, y_F (shift S_2 marks).

Information Bulletin UGC-NET December 2026 Examination

For candidates A , B , and C , the percentiles are calculated using the total marks obtained by candidates appearing in shift $S1$ (in the same subject) as explained above. Similarly, for candidates D , E , and F , the percentiles are calculated using the total marks obtained by candidates appearing in shift $S2$ (in the same subject) as explained above.

Let the respective percentiles be denoted by PA , PB , PC , PD , PE , and PF .

The above data is summarized in the following table. The terms in red colour indicate that these are the output of this step.

Shift S1			Shift S2		
Candidate	Raw score	Percentile	Candidate	Raw score	Percentile
A	X_A	PA	D	Y_D	PD
B	X_B	PB	E	Y_E	PE
C	X_C	PC	F	Y_F	PF

Since the calculation for percentiles in any shift depends only on the data from that shift alone, there is a separate table for each shift.

Step 2: Pull the percentiles to the marks scale for each session to get a Normalized Score.

The data across all sessions tabulated at the end of *step 1* is collated into a single table. The columns for the shift-wise raw score should be kept separate.

All the records are then sorted in decreasing order of the percentiles.

Illustration (Continued):

In the illustrative example given above, suppose that the percentiles of the six candidates satisfy

$$PE > PA > PC = PF > PB > PD$$

Then the collated table would look as given below:

Candidate	Percentile	RawscoreS1	RawScoreS2
E	PE	–	Y_D
A	PA	X_A	–
$C \& F$	$PC = PF$	X_B	Y_E
B	PB	X_C	–
D	PD	–	Y_F

Candidate C from shift $S1$ and candidate F from shift $S2$ have the same percentile.

The relevant entries under “Raw Score $S1$ ” and “Raw Score $S2$ ” are the actual raw scores x_C and

y_F respectively. This has the obvious interpretation that marks x_C of shift $S1$ are equivalent to marks y_F of shift $S2$.

Candidates A and B , appearing in shift $S1$, have a blank entry in column “Raw Score $S2$ ”, as there is no corresponding candidate having exactly the same percentile from shift $S2$. Similarly, Candidates D and E , appearing in shift $S2$, have a blank entry in column “Raw Score $S1$ ”, as there is no corresponding candidate having exactly the same percentile from shift $S1$.

Information Bulletin UGC-NET December 2026 Examination

- In the remaining part of this *Step 2*, the blank entries in the two “*Raw Score*” columns are filled up using linear interpolation.
- Consider a record (row) whose entry in the column “*Raw Score S1*” is blank. The blank will be replaced by the interpolated score X which is calculated as:

$$X = x_1 + \frac{x_2 - x_1}{p_2 - p_1} (P - p_1)$$

Where:

P is the corresponding entry in the “*Percentile*” column

x_1 is the first *non-blank* entry BELOW X . i.e., $x_1 < X$ and there is no other non-blank entry in the column between x_1 and X .

x_2 is the first *non-blank* entry ABOVE X . i.e., $x_2 > X$ and there is no other non-blank entry in the column between x_2 and X .

p_1 is the entry in the “*Percentile*” column corresponding to x_1 from the column “*Raw Score S1*”. p_2 is the entry in the “*Percentile*” column corresponding to x_2 from the column “*Raw Score S1*”. Note that there may be several blank entries between x_1 and x_2 .

All the blank entries in column “*Raw Score S1*” can now be replaced by the interpolated values. The blank entries in column “*Raw Score S2*” are also replaced using a similar procedure.

Illustration (Continued):

The table in the illustrative example would look like the following, where the entries in red indicate the additional output at the end of this step.

Candidate	Percentile	Raw Score S1	Raw Score S2
E	PE	X_E	Y_E
A	PA	X_A	Y_A
C&F	$PC=PF$	X_C	Y_F
B	PB	X_B	Y_B
D	PD	X_D	Y_D

Step3: Calculation of the Normalized Score

Now for each subject, there is a score assigned to each percentile value for each session. The *Normalized score, Z*, corresponding to a percentile value P , is calculated as:

$$Z = \text{Average of } (u_A, u_B, u_C, \dots, u_t) = \frac{u_A + u_B + u_C + \dots + u_t}{t}$$

Where $u_A, u_B, \dots, u_t$ denote the raw scores corresponding to the percentile P in each of the different sessions.

Information Bulletin UGC-NET December 2026 Examination

Illustration (Continued):

The **final** table in the *illustrative example* would be as follows:

Candidate	Percentile	Raw ScoreS1	Raw ScoreS2	Normalized Score
E	PE	XE	YE	$(X_E + Y_E)/2$
A	PA	X _A	YA	$(x_A + Y_A)/2$
C&F	PC=PF	X _C	yF	$(x_C + y_F)/2$
B	PB	X _B	YB	$(x_B + Y_B)/2$
D	PD	XD	yD	$(X_D + y_D)/2$

Information Bulletin UGC-NET December 2026 Examination

The above method is based on the work: "Normalization of marks in multi-session examinations", Abhay G. Bhatt et al, CURRENT SCIENCE, Vol. 118, No. 1, 10 January 2020

Note: *The NTA is planning to do the UGC-NET December 2026 examination in a single shift for each language/subject/General Test, so that the need for Normalization will not exist. However, under unavoidable circumstances, if any subject is conducted in multi-shifts, then normalization will be done. The performance of every candidate will be evaluated using the equi-percentile method wherein normalized marks of each candidate will be calculated using the percentiles of each group of students in a given shift across multiple days for the same subject.*
