**Read the passage and answer the question that follows :**

Education has always been considered the cornerstone of human progress. From the earliest civilizations, people recognized the importance of passing knowledge from one generation to the next. In ancient times, oral traditions were the primary means of teaching, with elders sharing stories, myths, and practical skills. As societies grew more complex, the need for formal education became evident. Schools emerged, often attached to religious institutions, where reading, writing, and moral lessons were taught.

The invention of the printing press in the 15th century revolutionized education by making books more accessible. Knowledge was no longer confined to the wealthy or the clergy; ordinary citizens could now learn to read and explore new ideas. This democratization of learning paved the way for scientific discoveries, social reforms, and cultural growth. Education became a powerful tool for shaping societies, encouraging critical thinking, and promoting equality.

In the modern era, education has expanded beyond traditional classrooms. Technology has introduced new methods of learning, such as online courses, interactive platforms, and virtual classrooms. Students today can access information instantly, collaborate with peers across the globe, and develop skills that prepare them for a rapidly changing world. However, this progress also raises challenges. The digital divide means that not everyone has equal access to technology, and questions about the quality of online education continue to emerge.

Despite these challenges, the value of education remains undeniable. It empowers individuals to pursue their dreams, equips them with the tools to solve problems, and fosters empathy by exposing them to diverse perspectives. A well-educated society is better prepared to face global issues such as climate change, poverty, and inequality. Ultimately, education is not just about acquiring knowledge; it is about cultivating wisdom, responsibility, and the ability to contribute meaningfully to the world.

What is the tone of the passage?

|        |             |
|--------|-------------|
| 310107 | Humorous    |
| 310108 | Critical    |
| 310109 | Informative |
| 310110 | Angry       |

202445 ENGLISH

### Law and Society

In every country, laws are made to ensure that citizens live peacefully and in harmony. Laws help in maintaining order, protecting individual rights, and preventing harm. They also provide a system for resolving disputes fairly. For example, when someone is accused of a crime, the law ensures they get a fair trial. This allows the accused person to defend themselves and provides the opportunity for the judge or jury to make an unbiased decision. Without laws, society would be chaotic, and it would be difficult to ensure justice for everyone. Therefore, laws play a crucial role in keeping society organized and just.

What is not the role of judges and courts as described in the passage?

|        |                                                 |
|--------|-------------------------------------------------|
| 310087 | To make laws.                                   |
| 310088 | To ensure that evidence is presented in trials. |
| 310089 | To interpret the law impartially.               |
| 310090 | To decide guilt or innocence without trial.     |

Correct Option: 310090

In this question, a statement is given, followed by two courses of action, numbered I and II. You must assume everything in the statement to be true, and on the basis of the information given in the statement, decide which of the given courses of action logically follow(s) for pursuing.

**Statement:** "The number of pending cases in the district court has sharply increased over the last year."

**Course of Actions:**

- I. Additional judges should be appointed to handle the increased workload.  
II. All cases should be transferred to higher courts for quicker disposal.

|        |                      |
|--------|----------------------|
| 309923 | Only I follows       |
| 309924 | Only II follows      |
| 309925 | Both I and II follow |

In this question, a statement is given, followed by three courses of action, numbered I, II and III. You must assume everything in the statement to be true, and on the basis of the information given in the statement, decide which of the given courses of action logically follow(s) for pursuing.

**Statement:** A large number of undertrial prisoners are spending years in jail because their cases are delayed.

**Course of Actions:**

- I. The government should establish more fast-track Courts to clear pending cases.
- II. The prisoners should be released without any trial to reduce overcrowding.
- III. The number of judges should be increased to ensure faster disposal of cases.

In this question, a statement is given, followed by three courses of action, numbered I, II and III. You must assume everything in the statement to be true, and on the basis of the information given in the statement, decide which of the given courses of action logically follow(s) for pursuing.

**Statement:** The Government notices that the air quality in major cities is becoming dangerous to health.

**Course of Actions:**

- I. The government should immediately enforce stricter pollution control Laws.
- II. The public should be educated and encouraged to use public transport instead of private vehicles.
- III. The government should wait until pollution becomes critical before taking action.

|        |                      |
|--------|----------------------|
| 309683 | Only I follows       |
| 309684 | Only II follows      |
| 309685 | Both I and II follow |
| 309686 | Only III follows     |

Correct Option: 309685

Given below are two statements; one is labelled as Assertion (A) and other one labelled as Reason (R).

**Assertion (A) :** The NGT has jurisdiction over civil cases relating to environmental protection, forest conservation, and pollution control.

**Reason (R) :** The NGT can enforce criminal penalties under the Bharatiya Nyaya Sanhita, 2023 against polluters.

In light of the above statements, choose the most appropriate answer from the options given below :

|        |                                                                    |
|--------|--------------------------------------------------------------------|
| 309679 | Both (A) and (R) are correct and (R) is the correct reason of (A). |
|--------|--------------------------------------------------------------------|

LEGAL  
APTITUDE

The drama "Justice" authored by John Galsworthy addresses the theme of criminality and retribution, censuring the legal framework of the Victorian period wherein affluent individuals consistently evaded punishment while the impoverished endured incarceration. By spotlighting a forgery incident where the perpetrator is incarcerated, ultimately leading to the vindication of justice, Galsworthy aims to compel his audience to acknowledge the dire circumstances prompting a destitute and vulnerable individual to resort to unlawful deeds. The destitute protagonist, Falder, is convicted of check forgery out of necessity to rescue his paramour, Ruth. Meanwhile, Ruth's affluent spouse faces no repercussions for his mistreatment of her. This depiction of judicial double standards is vehemently denounced in the play.
