Question Number : 16 Question Id : 1679437547 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

In this question, two statements are given, which are followed by two conclusions numbered 1 and 2. Take the given statements to be true even if they seem to be at variance from commonly known facts. Read the conclusions and then decide which of the given conclusions logically follow(s) from the given statements, disregarding commonly known facts.

Statements:
All swans are birds.
All birds are mammals.

Conclusions:
1. All mammals are birds.
2. Some mammals are swans.

Options :

✖ Only conclusion 1 follows.

✔ Only conclusion 2 follows.

✖ Neither conclusions 1 nor 2 follows.

✖ Both conclusions 1 and 2 follow.

Question Number : 17 Question Id : 1679437548 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

The statement below is followed by two arguments labeled I and II. Read the arguments in relation with the statement and identify the strong argument.

Statement: Cigarette factories should be shut down immediately.

Argument I: The government is spending more money to prevent and cure oral cancer than the revenue collected by the government and the profit earned by companies put together.

Argument II: About 70% of active smokers and 7% passive smokers have been diagnosed with oral cancer.

Options :

✖ Only argument I is strong.

✖ Only argument II is strong.

✔ Both I and II arguments are strong.

✖ Either argument I or argument II is strong.

Question Number : 18 Question Id : 1679437549 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

The statement below is followed by two conclusions labeled I and II. Assuming that the information in the statement is true, even if it appears at variance from generally established facts, decide which conclusion(s) logically and definitely follow(s) from the information given in the statement.

Statement: Only intelligent people can understand the true meaning hidden in Picasso's paintings. Ayush has written a treatise on Picasso's paintings with a new interpretation of most of his paintings.

Conclusion I: Ayush has studied modern art and is interning at the Contemporary Art Gallery, Paris.

Conclusion II: Ayush is an intelligent person.

Options :

✖ Only conclusion I follows.

- ✔ Only conclusion II follows.

- ✘ Both conclusions I and II follow.

- ✘ Neither conclusion I nor conclusion II follows.

Question Number : 19 Question Id : 1679437550 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

Study the following scenario (situation) and answer the question that follows.

You are playing cricket with your younger brother at your home. Your brother throws a metal object at you, which hits your arm and you start bleeding bit.

Select the option that describes the most appropriate action that you will take in this situation.

Options :

- ✘ You will thrash your brother until he faints or starts bleeding.

- ✘ Laugh and cheer your brother to get a better aim next time.

- ✘ Call up your parents and ask them to rush back home as there's an emergency.

- ✔ Use first aid to clean and bandage the wound and tell your brother that he should be careful when playing.

Question Number : 20 Question Id : 1679437551 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

In this question, two statements labelled I and II are given. Read both the statements and decide which option correctly shows the relationship between these given statements.

Statement I: The police have arrested Jignesh for money laundering.
Statement II: Unaccounted money in the form of new currency was found in Jignesh's possession and he could not explain the source of the money.

Options :

- ✘ Statement I is the cause and Statement II is its effect.

- ✔ Statement II is the cause and Statement I is its effect.

- ✘ Both the statements I and II are independent causes.

- ✘ Both the statements I and II are effects of independent causes.

Read the following passage and answer the questions that follow.

Do you ever find yourself watching an awful TV programme, unable to turn it off? The raucous noises, explosions of gunfire, are upsetting, yet you don't get up and turn it off. Why do you torture yourself in this way? Watching a bad TV programme, we become the TV programme.
We are what we feel and perceive. If we are angry, we are the anger. We can be anything we want. In a single day, how many times do we become lost and scattered because of them? We must be very careful to protect our fate and our peace.
We can open our windows to so many miracles and look at any one of them with awareness. This way, even while sitting beside a clear, flowing stream, listening to beautiful music or watching an excellent movie, we need not lose ourselves entirely in the stream, the music or the film. We can continue to be aware of ourselves and our breathing. We may want to leave the city and go off to the countryside. There we can become one with the quiet forest, and rediscover and restore ourselves, without being swept away by the chaos of the 'outside world'. The fresh and silent woods help us remain in awareness, and when our awareness is well-rooted, and we can maintain it without faltering, we may wish to return to the city and remain there, less troubled.

But sometimes, we have to find the refreshing and peaceful elements that can heal us right in the midst of our busy lives. We may wish to visit a good friend who can comfort us or go for a walk in a park and enjoy the trees and the cool breeze. Whether we are in the city, the countryside or the wilderness, we need to sustain ourselves by choosing our surroundings carefully and nourishing our awareness in each moment.

नीचे दिये गए गद्यांश को पढ़कर पूछे गये प्रश्नों के उत्तर दीजिए।

जिस प्रकार भक्ति आंदोलन ने हिन्दी को कबीर, जायसी, सूर, तुलसी, मीरा जैसे रचनाकार दिए, उसी प्रकार स्वाधीनता आंदोलन की देन प्रेमचंद, रामचंद्र शुक्ल, निराला, प्रसाद, पंत और महादेवी वर्मा हैं। स्वाधीनता का लक्ष्य इस युग में अधिक स्पष्ट हुआ, वैज्ञानिक दृष्टि अधिक सक्रिय हुई। वैज्ञानिकता का अर्थ केवल भौतिक विज्ञान नहीं, समाज विज्ञान भी है। रूस में 1917 ई. की समाजवादी क्रांति ने मार्क्सवाद को कभी परस्पर विरोधी और कभी एक दूसरे का पूरक समझा। इस दौर में फ्रायड के मनोविश्लेषण का प्रभाव भी रचनाकारों पर पड़ा। अतः इस काल में रचित साहित्य पर इन सभी विचारों का प्रभाव मिलता है। इसके कारण साहित्य में एक ओर यथार्थ को परखने की सूक्ष्म दृष्टि आई और दूसरी ओर कल्पना-प्रवणता दिखलाई पड़ती है। वैज्ञानिक दृष्टि स्वाधीन चेतना से मिलकर यथार्थपरक और कल्पनाशील हुई। यथार्थपरकता और कल्पनाशीलता ऊपर-ऊपर से ही परस्पर विरोधी लगती हैं। वैज्ञानिक विकास जब ज्ञान के लिए नए क्षितिज खोलता है, तो मनुष्य इस ज्ञान के आलोक में जीवन-जगत् का नया परिचय प्राप्त करता है। वह इन्हें पहले से अधिक समझता है। यह यथार्थ की बेहतर परख हुई। लेकिन यही नई जानकारी उसे कल्पना के पंख भी प्रदान करती है।

Correct : 1 Wrong : 0.25

Which of the following perceptions is related to Opportunity Cost?

Options :

✅ Next best alternative that is given up

❌ Supply of public goods

❌ Satisfaction of Wants

❌ Choice among different goods

Question Number : 102 Question Id : 1679437638 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

Production possibility curve represents:

Options :

❌ Alarming production

✅ Opportunity Set

❌ Unattainable combinations

❌ Group of options in openness

Question Number : 103 Question Id : 1679437639 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

Why the production possibility curve is concave?

Options :

✗ Because of the law of diminishing opportunity cost

✗ Because of the law of constant opportunity cost

✓ Because of the law of increasing opportunity cost

✗ Because economic resources are completely adaptable to alternative uses

Question Number : 104 Question Id : 1679437640 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

Which of the following basic economic concept is not demonstrated by a production possibility curve?

Options :

✗ Scarcity of resources

✗ Choice by society from the opportunity set

✓ Open possibility

✗ Opportunity cost

Question Number : 105 Question Id : 1679437641 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

What is problem of choice?

Options :

✓ Choice among multiple wants which are to be satisfied

✗ Choice of equal society

✗ Choice of limited wants

✗ Choice of resources

Correct : 1 Wrong : 0.25

Demand is a Consumer's:

Options :

✖ Desire for a commodity

✖ Willingness to get a commodity

✖ Ability to get a commodity

✔ Desire to purchase and ability to pay for a commodity

Question Number : 111 Question Id : 1679437647 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

Which is not the limitation of Consumer's equilibrium under equi-marginal utility?

Options :

✖ Difficult to measure marginal utilities on different commodities

✔ Rational Consumer

✖ Indivisibility of certain goods

✖ Habits and customs of the consumers while spending money

Question Number : 112 Question Id : 1679437648 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

One condition of equilibrium of the consumer under indifference curve is:

Options :

* Marginal Rate of Substitution (MRS) of good x for good y must be increasing.

* MRS of good x for good y must be less than price ratio of two goods.

✓ MRS of good x for good y must be equal to price ratio of two goods.

* MRS of good x for good y must be more than price ratio of two good.

Question Number : 113 Question Id : 1679437649 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

How is the working of the 'income effect' and the 'substitution effect' in case of 'inferior good'?

Options :

* Income effect outweigh substitution effect

✓ Income effect works in opposite direction to the substitution effect

* Income effect moves and substitution effect remains constant

* Quantity demanded varies positively with price when negative income effect is weaker than the substitution effect.

Question Number : 114 Question Id : 1679437650 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

In terms of Utility Analysis, the price of a commodity is determined by:

Options :

* Total utility

✓ Marginal utility

* Diminishing marginal utility

* Equi-marginal utility

Question Number : 115 Question Id : 1679437651 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical
Correct : 1 Wrong : 0.25

Which of the following is related to Engle Curve?

Options :

* Price consumption curve

✖ Diminishing marginal rate of substitution curve

✔ Income consumption curve

✖ Supply curve

Question Number : 116 Question Id : 1679437652 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

Decrease in demand means?

Options :

✖ Rise in demand due to fall in price

✖ Fall in demand due to rise in price

✖ More demand at same price

✔ Less demand at same price

Question Number : 117 Question Id : 1679437653 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

In case of a Giffen commodity, a fall in price tends to:

Options :

✖ Increase in demand

✔ Decrease in demand

✖ Constant demand

✖ Extension in demand

Question Number : 118 Question Id : 1679437654 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

A demand curve which is horizontal and parallel to the x-axis represents:

Options :

✖ Perfectly inelastic demand

✔ Infinitely elastic demand

✖ Unitary elastic demand

✖ Relatively inelastic demand

Question Number : 119 Question Id : 1679437655 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

The demand curve has the shape of a rectangular hyperbola when point price elasticity has:

Options :

✖ Perfectly elastic demand

✖ Perfectly inelastic demand

✖ Relatively elastic demand

✔ Unitary elasticity throughout on a demand curve

Question Number : 120 Question Id : 1679437656 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

Which of the following commodities has the lowest price elasticity of demand?

Options :

✔ Common salt

✖ Car

✖ Coffee

✖ Cloth

Correct : 1 Wrong : 0.25

The concept of Supply of a commodity refers to:

Options :

✖ Stock

✔ Flow

✖ Both stock and flow

✖ Neither stock nor flow

Question Number : 129 Question Id : 1679437665 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

If the supply curve is upward-sloping, a rise in price of the commodity results:

Options :

✔ Increase in the quantity supplied

✖ Decrease in the quantity supplied

✖ Increase in supply

✖ Decrease in supply

**Question Number : 130 Question Id : 1679437666 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical**
Correct : 1 Wrong : 0.25

Increase in supply occurs due to:

Options :

✖ Rise in price of inputs

✔ Fall in price of inputs

✖ Increase in taxes

✖ Downgrading of technology

**Question Number : 131 Question Id : 1679437667 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical**
Correct : 1 Wrong : 0.25

If the supply curve is vertical straight line parallel to the Y-axis, then elasticity of supply will be:

Options :

✔ Zero

✖ Infinity

✖ Unitary

✖ Positive

**Question Number : 132 Question Id : 1679437668 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical**
Correct : 1 Wrong : 0.25

Pareto's concept of maximum social welfare is based on?

Options :

✖ Cardinal utility

✔ Ordinal utility

- ✖ Immobility of factors of production

- ✖ Indivisible goods

Question Number : 133 Question Id : 1679437669 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

A monopolist can control over:

Options :

- ✖ Production and price

- ✔ Either production or price

- ✖ Production, price and consumers

- ✖ Neither production nor price

Question Number : 134 Question Id : 1679437670 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

Under monopoly, social welfare is:

Options :

- ✔ Less

- ✖ High

- ✖ Constant

- ✖ Can't be said

Question Number : 135 Question Id : 1679437671 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

It will not profitable for the monopolist to discriminate between the two markets, if the price elasticity of demand is:

Options :

- ✖ Different

- ✔ Same

- ✖ Infinity

✖ Zero

Question Number : 136 Question Id : 1679437672 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

If price does not cover the average cost in the short run under perfect competition, the firm will even then stay in the market as long as price covers:

Options :

✖ Average fixed cost

✔ Average variable cost

✖ Explicit costs

✖ Some profit is earned

Question Number : 137 Question Id : 1679437673 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

Which of the following is the condition of equilibrium of the firm in the short run under perfect competition?

Options :

✖ Average cost is equal to marginal cost

✖ Average cost is equal to price

✔ Marginal cost is equal to price

✖ Average is more than marginal cost

Question Number : 138 Question Id : 1679437674 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes Single Line Question Option : No Option Orientation : Vertical

Correct : 1 Wrong : 0.25

The concept of selling costs under imperfect competition was introduced in the Price Theory by:

Options :

✖ Stonier and Hague

✔ Edward H. Chamberlin

✖ John Robinson

✖ James E. Hibdon

**Question Number : 139 Question Id : 1679437675 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical**

Correct : 1 Wrong : 0.25

Under the influence of selling costs in imperfect competition, price elasticity of demand for a profit maximizing firm will:

Options :

✔ Decline

✘ Increase

✘ Constant

✘ Infinity

**Question Number : 140 Question Id : 1679437676 Question Type : MCQ Option Shuffling : Yes Display Question Number : Yes
Single Line Question Option : No Option Orientation : Vertical**

Correct : 1 Wrong : 0.25

Above the point of kink, a kinked demand curve has a:

Options :

✔ Higher elasticity

✘ Lower elasticity

✘ Uniform elasticity

✘ Can't be said
