On the basis of your reading of the following passage answer the questions given:

The education that has prevailed in the past is insufficient, incomplete and superficial. It only creates people who can earn their livelihood but it does not give any insight into living itself. It is not only incomplete, it is harmful too — because it is based on competition. Any type of competition is violent deep down and creates people who are unloving. Their whole effort is to be achievers — of name, fame and all kinds of ambitions. That destroys their joys; that destroys their friendliness. Education up to now has been goal-oriented: learning is not important; what is important is the examination that will come a year later. It makes the future more important than the present.

There should not be any kind of examination as part of education, but every-day, every-hour observation by the teachers. Nobody fails, nobody passes. So, examinations will not have any place. That will change the whole perspective from the future to the present.

I divide education into five dimensions. The first is informative, like history, geography, etc. which can be dealt with by television and computer together. The second part should be sciences. They can be imparted by television and computer too.

And the third will be what is missing in present-day education, the art of living. People have taken it for granted that they know what love is. They don't know. . . and by the time they know, it is too late. Every child should be helped to transform his anger, hatred and jealousy into love.

The fourth dimension should be of art and creativity: painting, music, craftsmanship, pottery — anything that is creative. And the fifth dimension should be the art of dying. In this fifth dimension will be all the meditations, so that you can know there is no death, so that you can become aware of an eternal life inside you.

निम्नलिखित गद्यांश को पढ़कर पूछे गए प्रश्नों के उत्तर लिखिए।

राजनीति ने भ्रष्टाचार का पूरा-पूरा साथ दिया है। आज राजनेताओं की पूरी पीढ़ी ही भ्रष्ट है। सत्ता पाने के बाद हमारे नेताओं को यह आशंका सताती रहती है कि पता नहीं फिर उन्हें यह सत्ता-सुख नसीब हो या न हो, इसलिए ये अधिक-से-अधिक धन एकत्रित कर लेना चाहती हैं। भारत सरकार ने भ्रष्टाचार के उन्मूलन के लिए 'आचार-संहिता' तैयार की। काम-काज योजना का ऐलान हुआ है। मगर परिणाम कुछ भी नहीं, क्योंकि सुधार घर से आरंभ होता है। आज हमारे देश के कर्णधार नेता लंबे-लंबे भाषण झाड़ते हैं, बड़ी-बड़ी घोषणाएँ करते हैं, परंतु इसका कोई असर नहीं होता। भ्रष्टाचार को रोकने के लिए जहाँ हमारे नेताओं को "पर उपदेश कुशल बहुतेरे" की नीति को त्यागना पड़ेगा, वहाँ नागरिकों को भी आत्म-संयम से काम लेना होगा। आज नैतिकता को बढ़ावा देने की आवश्यकता है। सरकार का कर्तव्य है कि वह निष्पक्ष व्यक्तियों की जाँच समिति बनाए, जो सबसे पहले बड़े लोगों पर आरोपों की जाँच करें। भ्रष्टाचार की जड़ें हमारे जीवन के प्रत्येक क्षेत्र में फैल चुकी हैं। इस रोग के निदान के लिए आवश्यक है कि समाज को आर्थिक विषमता के जाल से निकला जाए।
