100 Questions

Que. 1 A chronic alcoholic patient blames his family environment for his alcoholism; which of the following defense mechanism was used by the patient?

1. Denial
2. Projection
3. Rationalization
4. Sublimation

Correct Option - 3

Que. 2 Moro reflex disappears at which age

1. 1-2 months
2. 4-6 months
3. 6-9 months
4. 9-12 months

Correct Option - 2

Que. 3 Minimum scrubbing time for surgical hand wash?

1. 1 min
2. 2 min
3. 3 min
4. 5 min

Correct Option - 4

Que. 4 Which drug is used for prophylaxis of manic-depressive disorder?

1. lithium
2. Valproate
3. Haloperidol
4. Phenytoin

Correct Option - 1

Que. 5 Which electrolyte has to be maintained in lithium therapy?

1. Sodium
2. Potassium
3. Calcium
4. Magnesium

Correct Option - 1

Que. 6 Highly heat resistance vaccine is

1. BCG
2. MMR
3. OPV
4. TT

Correct Option - 4

Que. 7 Which drug is RELATIVELY Contraindicated in breast feeding-

1. Propranolol
2. Sulfonylurea
3. Cephalosporine
4. Zidovudine

Correct Option - 2

Que. 8 Most Common site for central line catheterization?

1. Internal jugular vein
2. Femoral vein
3. Radial vein
4. Biracial vein

Correct Option - 1

Que. 9 Which Syringe is used for flushing PICC?

1. 1 ml.
2. 2 ml.
3. 3 ml.
4. 5 ml.

Correct Option - 4

Que. 10 Delirium tremens are withdrawal symptoms of-

1. Alcoholism
2. Cocaine
3. Opioid
4. Cannabis

Correct Option - 1

Que. 11 Common complication after perforation of appendix?

1. Peritonitis
2. Hemorrhage
3. Intestinal obstruction
4. Pelvic Inflammatory Disease

Correct Option - 1

Que. 12 Tuft of hair are seen in which type of neural tube defect?

1. Spina bifida occulta
2. Spina bifida Cystica
3. Enterocoele
4. Hydrocephalus

Correct Option - 1

Que. 13 Which of the following electrolyte imbalance is associated with Digoxin toxicity?

1. Hypokalemia
2. Hyponatremia
3. Hypernatremia
4. Hypocalcemia

Correct Option - 1

Que. 14 Route of administration of Rota vaccine

1. Oral
2. IM
3. IV
4. Subcutaneous

Correct Option - 1

Que. 15 Whitish discharge from vagina is seen in-

1. Trichomoniasis
2. Syphilis
3. Gonorrhea
4. Candidiasis

Correct Option - 4

Que. 16 Coarse Rattling sound in large airway?

1. Stridor
2. Rhonchi
3. Inspiratory gasp
4. Pleural friction

Correct Option - 2

Que. 17 Red color urine is seen in which antitubercular drug?

1. Rifampicin
2. Ethambutol
3. Isoniazid
4. Streptomycin

Correct Option - 1

Que. 18 Complication associated with massive blood transfusion is

1. Hypokalemia and hypercalcemia
2. Hyponatremia
3. Hypernatremia
4. Hyperkalemia and Hypocalcemia

Correct Option - 4

Que. 19 Ramsay Scale is used for the assessment of

1. Anxious Patient

2. Sedation
3. Arousal
4. Pain

Correct Option - 2

Que. 20 Breast milk can be stored at room temperature for how many hours?

1. 2 hours
2. 4 hours
3. 6 hours
4. 8 hours

Correct Option - 2

Que. 21 If LMP is 25 June, 2018, then what is the EDD?

1. 1 April, 2019
2. 4 April, 2019
3. 2 March, 2019
4. 4 March, 2019

Correct Option - 1

Que. 22 After a road traffic accident which cannula is used for fluid replacement in casualty for an adult patient?

1. Orange
2. Purple
3. Green
4. Grey

Correct Option - 3

Que. 23 Oxygen flow rate of Nasal cannula?

1. 1-4 liter
2. 5-8 liter
3. 1-8 liter
4. 1-3 liter

Correct Option - 1

Que. 24 Chromic catgut absorption time of chromic catgut suture-

1. 7 days
2. 14 days
3. 21 days
4. 90 days

Correct Option - 4

Que. 25 In laparoscopy procedures gases is used for inflation abdominal wall is

1. Nitrous oxide
2. Oxygen

3. Carbon Dioxide
4. Helium

Correct Option - 3

Que. 26 Which of the following is not an input device in a computer?

1. Mouse
2. Keyboard
3. Scanner
4. Printer

Correct Option - 4

Que. 27 Bishops score is used for?

1. Induction of labor
2. Fetal Monitoring
3. Progress of labor
4. Fetal wellbeing

Correct Option - 1

Que. 28 In a primigravida mother, engagement occurs at approximately _____ of gestation

1. 30-32 weeks
2. 32-34 weeks
3. 34-36 weeks
4. 38-40 weeks

Correct Option - 3

Que. 29 Oral pills can cause all, except

1. Decreased risk of ovarian cancer
2. Decreased risk of breast cancer
3. Increased risk of breast cancer
4. Increased risk of cervical cancer

Correct Option - 2

Que. 30 Select the ODD one

1. Bed sheets
2. Shirt
3. Tablecloth
4. Curtain

Correct Option - 2

Que. 31 Which of the following nursing action is required before giving clear liquid fluid after anesthesia?

1. Check for bowel sound
2. Check urine output
3. Check weight
4. Check gag reflex

Correct Option - 4

Que. 32 Which of the following nursing action is required before giving solid food after anesthesia?

1. Check for bowel sound and passing flatus
2. Check urine output
3. Check weight
4. Check gag reflex

Correct Option - 1

Que. 33 Drug of choice for Bipolar Affective Disorder is

1. Lithium carbonate
2. Chlorpromazine
3. Bupropion
4. Benzodiazepines

Correct Option - 1

Que. 34 Height measurement of 2 year old child is done by

1. Stadiometer
2. Infantometer
3. Goniometer
4. Refractometer

Correct Option - 1

Que. 35 Current (2018) director of Delhi AIIMS?

1. Dr. S Mishra
2. Dr. CV Mishra
3. Dr. Randeep Guleria
4. J. P. Nadda

Correct Option - 3

Que. 36 Normal value of serum potassium is

1. 3-5 mEq /L
2. 5-8 mEq/L
3. 1-3 meq/l
4. 135-145 meq/l

Correct Option - 1

Que. 37 Major intracellular cation is

1. Potassium
2. Chloride
3. Sodium
4. Magnesium

Correct Option - 1

Que. 38 Foot drop occurs due to

1. Sciatic nerve
2. Superficial peroneal artery
3. Deep peroneal nerve
4. Brachial plexus

Correct Option - 3

Que. 39 Which position is given to a patient after Mastectomy?

1. Side line of affected side
2. Elevate affected hand with a pillow
3. Left lateral position
4. Prone Position

Correct Option - 2

Que. 40 Which position provided to a client after spinal anesthesia?

1. Sim's
2. Supine with under head Pillow
3. Flat
4. High fowler

Correct Option - 3

Que. 41 In Hypotension which fluid is provided

1. Normal Saline
2. Dextrose 10%
3. NS 3%
4. Ringer Lactate

Correct Option - 4

Que. 42 Which of the following condition is a medical emergency that can be fatal

1. Acute epiglottitis
2. laryngo pneumonitis
3. Cystic fibrosis
4. Chronic asthma

Correct Option - 1

Que. 43 ICD tube is attached to

1. Closed drainage
2. Open drainage
3. Water seal chamber
4. Negative suction pressure

Correct Option - 3

Que. 44 Which instruction is given to the patient while removing chest tube?

1. Deep breath, exhale and bear down

2. Hold breath
3. Perform pursed lip breathing
4. Lie down calmly

Correct Option - 1

Que. 45 Most important Nursing action for fracture healing?

1. Immobilization
2. Calcium supplement
3. Exercise
4. Antibiotics

Correct Option - 1

Que. 46 Which complication may be seen in burn patient?

1. Contracture
2. DVT
3. Pulmonary embolism
4. Varicose vein

Correct Option - 1

Que. 47 Sunder Pichai is CEO of

1. Google
2. Microsoft
3. C. Apple
4. Samsung

Correct Option - 1

Que. 48 Confirmatory Diagnostic test of multiple pregnancy is

1. hCG
2. Palpation
3. Ultrasonogram
4. AFP

Correct Option - 3

Que. 49 Which of the following parameter, the nurse must observe in an infant with shock?

1. Urine output
2. HR
3. Weight
4. Respiration

Correct Option - 1

Que. 50 Which value of HbA1c in a Diabetic patient is indication of good control of blood sugar level-

1. 2.5%
2. 6.5%
3. 8.5%

4. 11%

Correct Option - 2

Que. 51 Following plaster cast the nurse should assess first-

1. Color of extremities
2. Temperature
3. Movement of toe
4. Pallor

Correct Option - 3

Que. 52 Normal color of colostomy stoma?

1. Pale pink
2. Brick red
3. Dark red
4. Yellowish

Correct Option - 1

Que. 53 Characteristic feature of pyloric stenosis?

1. Water diarrhea
2. Jelly like stool
3. Projectile vomiting
4. Constipation

Correct Option - 3

Que. 54 In a 50 over cricket match, the chasing team scored 5 runs per over in the first 30 over. Required run rate is 10 runs per over; what is the score of first team?

1. 350
2. 349
3. 250
4. 399

Correct Option - 1

Que. 55 Golden color of amniotic fluid indicates which condition?

1. Fetal distress
2. Post maturity
3. Rh incompatibility
4. IUD

Correct Option - 3

Que. 56 Which diagnostic test is performed for Rh incompatibility?

1. Indirect Coomb test
2. Direct Coomb test
3. Hemogram
4. Blood group

Correct Option - 1

Que. 57 Which of the following is Negative symptom of Schizophrenia?

1. Delusion
2. Anhedonia
3. Hallucination
4. Clang association

Correct Option - 2

Que. 58 Which of the following is Positive symptom of Schizophrenia?

1. Stupor
2. Apathy
3. Delusion
4. Alogia

Correct Option - 3

Que. 59 Kegel exercise used after delivery to?

1. Strengthening urinary muscles rectal muscles.
2. Strengthening of abdominal muscles
3. Subinvolution
4. Prevent PPH

Correct Option - 1

Que. 60 Major depressive episodes are characterized by low mood for at least

1. One week
2. Two weeks
3. Four weeks
4. Eight weeks

Correct Option - 2

Que. 61 Nasopharyngeal tube is used in all, except

1. Basilar skull fracture.
2. Oral surgery.
3. Sedation.
4. Prolonged seizure activity

Correct Option - 1

Que. 62 After Vesicovaginal fistula repair, important intervention is

1. Avoid urine collection in bladder
2. Adequate rest
3. Antibiotics
4. Early ambulation

Correct Option - 1

Que. 63 Kwashiorkor doesn't include

1. Edema
2. Decrease weight
3. Fatty liver
4. Change in skin and hair

Correct Option - 2

Que. 64 Normal fetal heart rate at birth in a term Newborn is

1. 70-110
2. 80-100
3. 100-120
4. 120-160

Correct Option - 4

Que. 65 Ascites Occurs due to

1. Hypoalbuminemia
2. Hyperalbuminemia
3. Hyperkalemia
4. Hypokalemia

Correct Option - 1

Que. 66 Which of the following drug is a skeletal muscle relaxant

1. Ketamine
2. Pentothal Sodium
3. Atropine
4. Fentanyl

Correct Option - 2

Que. 67 In general anesthesia, which of the following sensation disappear at last

1. Pupil response
2. Consciousness
3. Pain response
4. Hearing

Correct Option - 4

Que. 68 Which surgery is used in surgical menopause?

1. Bilateral oophorectomy
2. Unilateral oophorectomy
3. Bilateral tubectomy
4. Trachelectomy

Correct Option - 1

Que. 69 After hydatidiform mole surgery the nurse should assess.

1. Urinary output

2. hCG
3. Vaginal discharge
4. Biopsy result

Correct Option - 2

Que. 70 Which of the following action is not used to prevent excessive hemorrhage in third stage of labor?

1. Oxytocin administration
2. Uterine massage
3. Methergine administration
4. Right mediolateral episiotomy

Correct Option - 4

Que. 71 In case of multiple delivery which action is not appropriate after birth of first baby?

1. Methergine administration
2. Cord clamping
3. Oxytocin administration
4. Episiotomy

Correct Option - 1

Que. 72 In appendicitis, pain is located in which quadrant of the abdomen

1. Left lower quadrant
2. Left upper quadrant
3. Right lower quadrant
4. Right upper quadrant

Correct Option - 3

Que. 73 Transfer of frustration due to not meeting goal to another person or weaker subject is known as

1. Displacement
2. Projection
3. Rationalization
4. Regression

Correct Option - 1

Que. 74 Laryngeal mask airway location-

1. Glottis
2. Supraglottic
3. Informalities
4. Endotracheal

Correct Option - 2

Que. 75 A case of gangrene foot removal in OT usually scheduled

1. All the end
2. At the beginning
3. As per the convenience of the surgeon

4. As per the roll number of the day

Correct Option - 1

Que. 76 Gaseous anesthetic is

1. Ketamine
2. Pentothal
3. Isoflurane
4. Propofol

Correct Option - 3

Que. 77 Which of the following drug is used together with other anesthetic agent?

1. Fentanyl
2. Atropine
3. Phenobarbitone
4. Phenytoin

Correct Option - 1

Que. 78 Lactation acts as a natural contraceptive in lactating mother for how many days?

1. 42 days
2. 60 days
3. 75 days
4. 90 days

Correct Option - 4

Que. 79 In a Burn patient, fluid loss occurs due to

1. Increased capillary permeability
2. Increased tissue perfusion
3. Paralytic ileus and vomiting
4. NG drainage

Correct Option - 1

Que. 80 Which of the following is an indication of adequate breastfeeding in newborn?

1. Passes urine 8 to 10 times per day
2. Cries frequently
3. Restless
4. Good sucking reflex

Correct Option - 1

Que. 81 Effluent stool consistency in ileostomy?

1. Watery
2. Solid
3. Thick liquid
4. Reddish paste

Correct Option - 3

Que. 82 Which of the following is a non-absorbable suture

1. Polyester
2. Vicryl
3. Monocryl
4. Chromic catgut

Correct Option - 1

Que. 83 Folic acid prevents which of the following congenital abnormalities?

1. Neural tube defect.
2. Congenital heart disease
3. Down syndrome
4. Congenital hypothyroidism

Correct Option - 1

Que. 84 Position of child in nose bleeding

1. Supine
2. Lean forward sitting
3. Lean backward sitting
4. Trendelenburg

Correct Option - 2

Que. 85 Most common cause of post-partum Hemorrhage?

1. Retained placenta
2. Poor maternal effort
3. Atonic uterus
4. Lack of skilled birth attendant

Correct Option - 3

Que. 86 Anticoagulant present in hemogram vial?

1. EDTA
2. Heparin
3. Sodium citrate
4. Lithium heparin

Correct Option - 1

Que. 87 Color code of cannula used for child?

1. Pink
2. Blue
3. Green
4. Yellow

Correct Option - 4

Que. 88 Infected and soiled dressing has to discarded in

1. Black bag
2. Yellow bag
3. Red bag
4. Blue bag

Correct Option - 2

Que. 89 Which drug is used to prevent bradycardia during surgery?

1. Succinyl chloride
2. Nitrous oxide
3. Amiodarone
4. Atropine

Correct Option - 4

Que. 90 Painless bleeding after 28 weeks of pregnancy is associated with

1. Placenta Previa
2. Hydatidiform mole
3. Molar Pregnancy
4. Ectopic pregnancy

Correct Option - 1

Que. 91 Dexamethasone is used to treat

1. Infection
2. Cardiac dysrhythmia
3. Hyperglycemia
4. Anaphylaxis

Correct Option - 4

Que. 92 Disinfectant used for cleaning HIV infected blood

1. Sodium hypochlorite
2. Hydrogen peroxide
3. Alcohol 70%
4. All of the above

Correct Option - 1

Que. 93 Hospital acquired infection referred as an infection acquired after _____ hrs of admission

1. 24 hours
2. 48 hours
3. 72 hours
4. After discharge

Correct Option - 2

Que. 94 Which of the following food should be avoided when the patient is on MAOI?

1. Calcium rich food
2. Tyramine containing food

3. Gluten rich food
4. Alanine containing food

Correct Option - 2

Que. 95 Parkland formula for fluid calculation in burn patients

1. $4 \text{ ml} \times \text{BSA} \times \text{weight}$
2. $3 \text{ ml} \times \text{BSA} \times \text{weight}$
3. $2 \text{ ml} \times \text{BSA} \times \text{weight}$
4. $1 \text{ ml} \times \text{BSA} \times \text{weight}$

Correct Option - 1

Que. 96 Simple test for varicose vein.

1. Homan's sign
2. Cold calorie test
3. Weber test
4. Trendelenburg test

Correct Option - 4

Que. 97 All of the following are assessed in mental status examination, except

1. General appearance
2. Judgement
3. Prejudice
4. Intelligence

Correct Option - 3

Que. 98 Priority nursing intervention in Guillain-Barre Syndrome is

1. Maintenance of airway and breathing pattern
2. Nutritional management
3. Appropriate Positioning
4. Early mobility

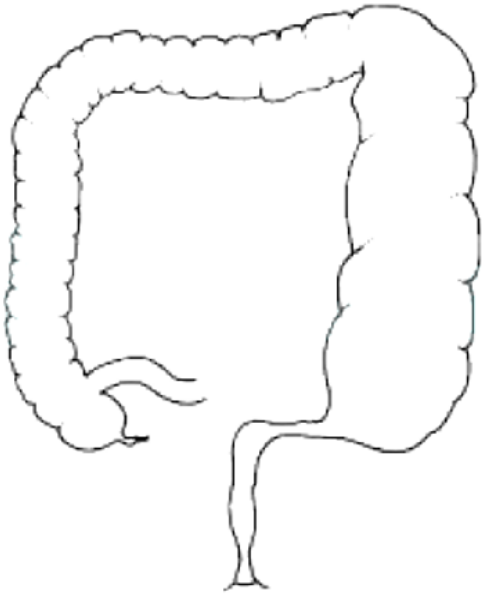

Correct Option - 1

Que. 99 To convert pressure reading from cm of water to mm of hg, the reading has to be multiplied with a factor

1. 1.36
2. 1.56
3. 1.86
4. 1.96

Correct Option - 1

Que. 100 Identify the disease condition in the given picture

1. Paralytic ileus
2. Intussusception
3. Hirschsprung's disease
4. Internal hemorrhoid

Correct Option - 3
