A passage is given with 5 blanks in it. Read the passage carefully and choose the best answer to each question out of the four alternatives:

In recent years, there has been a growing movement advocating for a ban on leather products, driven by concerns over (1) ______ practices in the industry. The production of leather involves harsh chemicals and environmentally harmful processes, contributing to pollution and deforestation.

The call for a ban stems from a desire to address the ethical implications associated with the (2) ______ treatment of animals. Animal rights activists argue that the leather industry is inherently linked to inhumane practices, prompting a shift towards alternative, cruelty-free materials.

Advocates of the ban believe that such a measure will not only combat environmental degradation but also encourage the fashion industry to explore (3) ______ materials. These materials are often sustainable, less resource-intensive, and do not involve harm to animals, aligning with a broader commitment to ethical and eco-friendly practices. The (4) ______ of leather alternatives has gained momentum, with consumers increasingly opting for products that align with their values. A passage is given with 5 questions following it. Read the passage carefully and choose the best answer to each question out of the four alternatives:

The dot-com bubble of the late 1990s was a defining moment in the history of technology and finance. Fuelled by unprecedented optimism and speculative frenzy, the stock prices of numerous internet-based companies soared to staggering heights. Investors were captivated by the promise of the digital age, overlooking traditional metrics and valuations. Companies with little or no profits were valued in the billions, and the exuberance reached its peak in the year 2000. However, the bubble eventually burst, leading to a catastrophic market crash. High-flying tech stocks plummeted, and many once-celebrated startups faced bankruptcy. The aftermath of the dot-com bubble served as a cautionary tale, prompting a revaluation of investment strategies and the importance of fundamental business principles. Despite the financial fallout, the period also laid the groundwork for the subsequent rise of resilient and sustainable internet-based businesses. The dot-com bubble remains a vivid reminder of the risks associated with speculative investment and the enduring need for prudence in the ever-evolving landscape of technology and finance.

A passage is given with 5 questions following it. Read the passage carefully and choose the best answer to each question out of the four alternatives:

Over the past decade, several organizations have emerged as industry leaders, reshaping the global business landscape. Tech giants like Apple, Amazon, and Google have ascended to unprecedented heights. Apple's innovative products and seamless user experience propelled it to become the world's most valuable company. Amazon, with its relentless focus on customer convenience and diverse offerings, transformed into an e-commerce behemoth. Google's dominance in search and online services solidified its position as a digital powerhouse.

Beyond technology, companies like Tesla revolutionized the automotive industry with electric vehicles and sustainable energy solutions. Additionally, Chinese conglomerates like Alibaba and Tencent expanded their influence globally, capitalizing on the booming Asian market. These organizations share a common thread of disruptive innovation, strategic vision, and adaptability to market trends. Their rise to the top reflects an era defined by technological advancements, globalization, and a dynamic business environment. As these giants continue to evolve, their impact on industries and societies remains profound, shaping the trajectory of the business landscape in the years to come.

पर्यावरण प्रदूषण उस स्थिति को कहते हैं जब हमारे द्वारा की गई अलग-अलग गतिविधियों से दूषित सामग्री पर्यावरण में मिल जाती है। यह हमारी दिनचर्या की प्रक्रिया को मुख्य रूप से बाधा पहुँचाती है और इस वजह से पर्यावरण में एक बड़ा बदलाव देखने को मिलता है। जो पर्यावरण में प्रदूषण फैलाने का काम करते हैं उन्हें प्रदूषक तत्व कहा जाता है। यह प्रदूषक तत्व पर्यावरण में ऊर्जा की कमी के रूप में भी शामिल हो सकते हैं। प्रकृति से हमें जीवन यापन के लिए, हमारे स्वास्थ्य को ठीक रखने के लिए तथा अपना विकास तेज गित से करने के लिए बहुत से प्राकृतिक संसाधन मुफ्त में मिले हैं। परंतु समय के साथ-साथ हम इतने स्वार्थी और लालची होते जा रहे हैं कि अपने उसी पर्यावरण को प्रदूषित करते हुए उसे नष्ट करने पर तुले हुए हैं। इस बात को समझे बिना ही कि अगर हमारा पर्यावरण पूरी तरह से प्रदूषित हो जाएगा, तो फिर ये आने वाले समय में हमें और हमारी आने वाली पीढ़ी के स्वास्थ्य और भविष्य पर गंभीर रूप से अपना प्रभाव डालेगा। फिर एक समय ऐसा आएगा जब हम सभी के पास पृथ्वी पर जिंदा रहने के लिए कोई प्राकृतिक संसाधन नहीं बचेंगे। इसीलिए हमें पर्यावरण प्रदूषण के कारण को गंभीरता से लेना होगा और जल्द से जल्द इन कारणों को दूर करना होगा।
