Q.13 Relationship between different elements is shown in the statements. Find if the conclusions also follow the same or not.

Statements: $A \geq B = C > D \geq E \leq F$

Conclusions:

- I. $B > F$
- II. $E < A$
- III. $C < D$
- IV. $A < C$

- Ans** 1. If either conclusion I or II is valid.
 2. If only conclusion II is valid.
 3. If only conclusion I is valid.
 4. If neither conclusion I or II is valid.

Question ID : 8401604942

Chosen Option : 4

Q.14 Two statements are followed by two conclusions numbered I and II. You have to consider these statements to be true, even if they seem to be at variance with commonly known facts. Decide which of the given conclusions logically follow/s from the given statements.

Statement

- 1. skilling is a necessity for the performance on the jobs.
- 2. National Education Policy (NEP) is introduced to skill, reskill and upskill people

Conclusions

- I. Unskilled people can also get the job.
- II. NEP will skill the manpower.

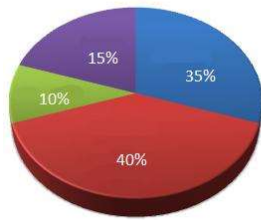

- Ans** 1. Only conclusion I follows.
 2. Either conclusion I or II follows.
 3. Neither conclusion I nor II follows.
 4. Only conclusion II follows.
