Q.1 In the following question, select the odd group of numbers from the given alternatives.

Ans X A. (47, 95, 191)

X B. (31, 63, 127)

X C. (54, 109, 219)

✓ D. (67, 135, 272)

Question ID: 1034357798

Q.2 In the following question below are given some statements followed by some conclusions based on those statements. Taking the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusion logically follows the given statements.

Statements:

I. All P are C.

II. Some C are D.

III. All D are N.

Conclusions:

I. Some N are C.

II. Some P are N.

III. Some D are P.

Ans X A. Only conclusion III follows

X B. All conclusion follows

X C. Only conclusion II follows

D. Only conclusion I follows

Q.3 A piece of paper is folded and punched as shown below in the question figures. From the given answer figures, indicate how it will appear when opened?

Ans

Question ID: 1034357805

- Q.4 Based on the given venn diagram, which of the following statement(s) is/are correct?
 - I. The number of apples which are mango is 81.
 - II. The number of Bananas which are apple is 100.

Ans

A. Only II

X B. Only I

X C. Both I and II

X D. Neither I nor II

Question ID: 1034357800

Q.5 In the following question, four letter pairs are given. The letters on left side of (-) is related to the letters on the right side of (-) with some Logic/Rule/Relation. Three are similar on basis of same Logic/Rule/Relation. Select the odd one out from the given alternatives.

Ans

✓ A. JZ – KY

X B. CF - BE

X C. XQ - WP

X D. NP - MO

 $Q.6 \quad \text{In the following question below are given some statements followed by some} \\$ conclusions based on those statements. Taking the given statements to be true even if they seem to be at variance from commonly known facts. Read all the conclusions and then decide which of the given conclusion logically follows the given statements. Statements: I. Some R are Z. II. Some Z are P. Conclusions: I. Some P are R. II. Some R are not P. Ans A. Neither conclusions follow X B. Only conclusion II follows X C. Both conclusions I and II follow X D. Only conclusion I follows Question ID: 1034357795 Q.7 If a mirror is placed on the line AB, then which of the answer figures is the right image of the given figure? Ans Question ID: 1034357804

Q.8 Six persons A, B, C, D, E and F have their off on six different days of the same week from Monday to Saturday (not necessarily in the same order). No two persons has off on the same day. Two persons have off between D and F. Two persons have off between A and E. C has off just after A has off. D has off on Friday. Which of the following statement is correct? I. A has off on Wednesday. II. One person has off between A and B. X A. Only II X C. Only I X D. Neither I nor II Question ID: 1034357793 In a certain code language, 'VIOLENT' is written as 'ZMSHIRX'. What is the code for 'CORDIAL' in that code language? X A. GSUZMFP Ans X B. GSVZNEP C. GSVZMEP X D. GSUZNEP Question ID: 1034357791 Q.10 Six boys B1, B2, B3, B4, B5 and B6 have six different phones P1, P2, P3, P4, P5 and P6 (not necessarily in the same order). B3 has P6. B1 does not have P3 or P4. B4 does not have P2, P3 or P5. B6 has P1. B5 does not have P3 or P5. Which phone does B2 have? Ans X A. P2 X B. P4 ◆ C. P3 X D. P5 Question ID: 1034357792

Q.11	1 Two figures given on the left side of (::) are related with some logic/rule/relation. Select the missing figure on the right of (::) from the given alternatives based on the same logic/rule/relation.	
Ans	S ★ A. □ □ □	
	★ B.	
	✓ C.	
	X D.	
	Question ID: 1034357803	
Q.12	2 How many red are neither blue nor green?	
	Red — 41 35 49 Green 56 Blue	
Ans	s × A. 16 B. 41	
	★ C. 35★ D. 26	
		— l
	Question ID : 1034357799	
Q.13	3 A series is given with one term missing. Select the correct alternative from the given ones that will complete the series. AL, YP, WT, UX, SB,?	
Ans		
	X B. PF	
	★ C. RF	
	X D. QE	
	Question ID: 1034357786	

	259, 292, 327, 366, 403, 444	
Ins	X A. 444	
	✓ B. 366	
	X C. 327	
	X D. 403	
		Question ID : 1034357797
.15	In the following question, select the related let MAV: PEA::?	ter pair from the given alternatives.
ns	✓ A. PFE : SJJ	
	X B. NQS: QVX	
	X C. ADX : DHB	
	X D. RCT : UFY	
		Question ID: 1034357790
.16	In the following question, select the related wo School: Teacher :: Hospital:?	rds from the given alternatives.
Ans	✗ A. Scalpel	
	X B. Needle	
	✓ C. Doctor	
	X D. Lawyer	
		Question ID : 1034357789
.17	Eight persons A, B, C, D, E, F, G and H sit around centre (not necessarily in the same order). Three persons sit between B and G. Two persons sit I immediate left of D. H is not the neighbour of E Which of the following statement is correct? I. G sits to the immediate left of F. II. Two persons sit between D and F.	a circular table facing towards the ee persons sit between G and H. Two petween C and E. A sits to the
	centre (not necessarily in the same order). The persons sit between B and G. Two persons sit immediate left of D. H is not the neighbour of D. Which of the following statement is correct? I. Q.19 In which year Vasco Da Gama came to India?

Ans 🕜 A. 1498

X B. 1450

X C. 1445

X D. 1470

Question ID: 1034357816

Q.20 Which of the following statement is NOT correct?

- Ans \times A. The SI unit of force is kg m/s².
 - X B. In an isolate system, the total momentum remains conserved.
 - C. Action and Reaction forces always act on the same object.
 - X D. The mass of an object is a measure of its inertia.

Question ID: 1034357812

Q.1 The table given below shows the number of cars sold by three different companies.

Cars	Co	mpar	ıy
Cars	P	Q	R
C1	40	25	180
C2	20	15	20
C3	80	60	45
C4	105	120	70
C5	35	160	80

Which of the following statement is correct?

- I. The number of car C1 sold by P is 160 percent of number of car C1 sold by Q.
- II. The average number of cars C3, C4 and C5 sold by R is 65.
- III. The sum of number of all cars sold by Q is 380.

Ans X A. Both I and III

X C. Both II and III

X D. Both I and II

Question ID: 1034357843

Q.2 Average of 13 numbers is 22. If each number is multiplied by 3, then what will be the new average?

Ans X A. 48

⊌ B. 66

X C. 68

X D. 44

Q.3 M is 25 percent more than N. N is how much percentage less than M?

X B. 25 percent

X C. 25.5 percent

X D. 15 percent

Question ID: 1034357832

If radius of a sphere is increased by 30 percent, then what will be the percentage increase in its volume?

Ans

X A. 120 percent

X B. 90 percent

✓ C. 119.7 percent

X D. 125.5 percent

Question ID: 1034357833

Q.5 The speed of a bike is 39.6 km/hr. How much time will the bike take to cover a distance of 330 meters?

X B. 24 seconds

X C. 36 seconds

D. 30 seconds

Question ID: 1034357838

Q.6

What is the simplified value of
$$\frac{6}{5+4\sqrt{3}}$$
 ?

Ans

$$\checkmark$$
 A. $\frac{24\sqrt{3}-30}{23}$

X B.
$$\frac{13\sqrt{3}-15}{27}$$

$$\times$$
 c. $\frac{24\sqrt{5}-25}{25}$

$$\times$$
 D. $\frac{15\sqrt{3}-24}{23}$

If $a=\sqrt{6-\sqrt{11}}$ and $b=\sqrt{6+\sqrt{11}}$, then what is the value of (b - a)?

Ans
$$\times$$
 A $\sqrt{6}$

$$\times$$
 D. $\sqrt{3}$

Question ID: 1034357829

Q.8 Amar, Ritesh and Karan start a partnership. They invested Rs. 10000, Rs. 24000 and Rs. 16000 respectively. Amar, Ritesh and Karan stay in partnership for 2 months, 6 months and 8 months respectively. If total profit is Rs. 146000, then what is the combined share of Amar and Karan in the profit?

Ans

Question ID: 1034357836

Q.9 P and Q together can complete a work in 10 days. Q and R together can complete the same work in 15 days. If P, Q and R all work together, then the same work gets completed in 7.5 days. How many days will P and R together take to complete the same work?

Question ID: 1034357840

Diagonal of a square is $~26\sqrt{2}~cm$. What is the area of this square?

Question ID: 1034357841

Q.11 If a number 5872Y is exactly divisible by 9, then what is the value of Y?

Q.12 Simple interest on a sum of Rs. 2400 for 2 years is Rs. 288. What is the annual rate of interest?

Ans

X A. 5 percent

B. 6 percent

X C. 4 percent

X D. 8 percent

Question ID: 1034357837

Q.13 The bar graph given below shows the marked price and discount of 7 articles.

Selling price = Marked price - Discount

J1 = The average selling price of articles P, Q, R and S.
J2 = The difference between total marked price and total selling price of all 7

What is the value of (J2 - J1)?

Ans X A. 1050

X B. 1250

✓ C. 1150

X D. 1390

Question ID: 1034357845

Q.14 What is value of $(24 \div 8 \times 5) - (8 \times 3 \div 2)$?

Ans X A. 1.5

X B. 9

√ C. 3

X D. 2

Ans	during the journey?	
	X A. 316400	
	X B. 226500	
	X C. 172500	
	✓ D. 262500

Read the following information carefully and answer the given questions.

Albert Einstein, German-born physicist who developed the special and general theories of relativity and won the Nobel Prize for Physics in 1921 for his explanation of the photoelectric effect. Einstein is generally considered the most influential physicist of the 20th century. Einstein's parents were secular, middle-class Jews. His father, Hermann Einstein, was originally a featherbed salesman and later ran an electrochemical factory with moderate success. His mother, the former Pauline Koch, ran the family household. He had one sister, Maria, born two years after Albert.

Einstein would write that two "wonders" deeply affected his early years. The first was his encounter with a compass at age of five. He was mystified that invisible forces could deflect the needle. This would lead to a lifelong fascination with invisible forces. The second wonder came at age 12 when he discovered a book of geometry, which he devoured, calling it his "sacred little geometry book."

Einstein became deeply religious at age 12, even composing several songs in praise of God and chanting religious songs on the way to school. This began to change, however, after he read science books that contradicted his religious beliefs. This challenge to established authority left a deep and lasting impression. At the Luitpold Gymnasium, Einstein often felt out of place and victimized by a Prussian-style educational system that seemed to stifle originality and creativity. One teacher even told him that he would never amount to anything. Einstein's education was disrupted by his father's repeated failures at business. In 1894, after his company failed to get an important contract to electrify the city of Munich, Hermann Einstein moved to Milan to work with a relative. Einstein was left at a boarding house in Munich and expected to finish his education. Alone, miserable, and repelled by the looming prospect of military duty when he turned 16, Einstein ran away six months later and landed on the doorstep of his surprised parents. His parents realized the enormous problems that he faced as a school dropout and draft dodger with no employable skills. His prospects did not look promising.

Fortunately, Einstein later got admission to Eidgenössische Polytechnische Schule in Zurich. Einstein would recall that his years in Zürich were some of the happiest years of his life

SubQuestion No:16

Q.16 What contradicted Einstein's religious beliefs?

Ans 🥪

A. Science books

X B. His fathers' work tragedy

🗶 C. Prussian-style educational system

X D. Book of geometry

Read the following information carefully and answer the given questions.

Albert Einstein, German-born physicist who developed the special and general theories of relativity and won the Nobel Prize for Physics in 1921 for his explanation of the photoelectric effect.
