Question ID : 99836739297

Comprehension:

Read the following information carefully and answer the given questions.

Leadership is getting things done through people. Leadership is required because someone has to point the way and that the same person has to ensure that everyone concerned gets there. The most familiar saying about leadership is that 'leaders are born not made'. Like all cliches, there is some truth in it, although, it cannot be taken literally. There are many successful leaders around who demonstrated their abilities at an early age and have never looked back since. They have natural talents and although, they may not have actually been born with them, these talents have been fostered by their upbringing and experiences at school, university or in the armed forces. Their charisma, inspirational qualities and ways of handling people combine to produce a person about whom everyone says he's a natural leader.

Effective leaders start with same natural talents and then they build on them. They are good at observing how to do it and how not to do it. They learn from their experience and they keep on learning.

SubQuestion No : 16

Q.16 Why can it not always be said that 'leaders are born, not made'?

- Ans ☒ 1. Many have been fostered by their upbringing and environment.
☐ 2. It cannot be taken literally everytime.
☐ 3. The saying loses its importance in some situations.
☐ 4. Leaders are not always born with leadership qualities.
