Comprehension:

एक गद्यांश दिया गया है। गद्यांश के आधार पर चार प्रश्न दिए गए हैं। गद्यांश को ध्यानपूर्वक पढ़ें तथा प्रत्येक प्रश्न के चार विकल्पों में से सही विकल्प चुने।

केला एक ऐसा फल है, जिसकी पैदावार पूरे साल होती है। केला मौसमी फल नहीं होता है इसलिए यह पूरे साल बाजार में उपलब्ध रहता है।

यही कारण है कि यह सबसे अधिक खाए जाने वाले फलों में से एक है। पूरे विश्व में केले का सबसे अधिक उत्पादन भारत में ही होता है। केला पीले रंग का होता है जिस पर अक्सर काले धब्बे भी पड़ जाते हैं।

केले में विटामिन ए, विटामिन बी और विटामिन सी भरपूर मात्रा में पाया जाता है। इसके अतिरिक्त केले में पोटेशियम, कैल्शियम, सोडियम, फास्फोरस, मैग्नीशियम और आयरन जैसे खनिज भी होते हैं। कैल्शियम और फास्फोरस हड्डियों और दाँतों के लिए अत्यंत ही लाभदायक होता है, क्योंकि हमारी हड्डियां और दाँत इन्हीं दोनों खनिजों से मिलकर बने होते हैं। पके केले को दूध के साथ खाने से वजन बढ़ता है, इसीलिए लोग वजन बढ़ाने के लिए केले को दूध के साथ भी खाते हैं।

जब पेड़ पर केला कच्ची अवस्था में होता है तो यह हरे रंग का होता है, परंतु पकने के बाद यह पीले रंग का हो जाता है। कच्चे केले का उपयोग सब्जी बनाने में भी किया जाता है। केले के फल के अलावा केले के पत्तों के भी अनेक फायदे होते हैं। केले के पत्ते पर भोजन खाना सेहत के लिए अत्यंत ही लाभदायक माना जाता है। दक्षिण भारत में आज भी समारोह आदि पर लोग केले के पत्तों पर ही खाना खाते हैं।

केले की खेती करने वाले मुख्य देश भारत, चीन, युगांडा, इंडोनेशिया, ब्राजील और फिलीपींस हैं। भारत में केले की खेती मुख्य रूप से तमिलनाडु, आंध्र प्रदेश, कर्नाटक, महाराष्ट्र, गुजरात, उत्तर प्रदेश, मध्य प्रदेश, बिहार, पश्चिम बंगाल और असम में की जाती है।

SubQuestion No : 17

Q.17 गद्यांश के अनुसार कौन सा विटामिन केले में नहीं पाया जाता है?

Ans ✗ 1. विटामिन सी

✓ 2. विटामिन डी

✗ 3. विटामिन ए

✗ 4. विटामिन बी

Comprehension:

Rubber, once a natural resource found only in Brazil and South America, has become an indispensable part of modern life.. The demand for rubber has grown to such an extent that synthetic and man-made rubber are now being produced on a large scale to keep up with it.

Rubber can be found in practically every aspect of our lives. In our homes, it can be found on radios, televisions, telephones, and electric appliances such as irons, toasters, and coffee percolators. It is used in kitchen appliances such as vacuum cleaners and refrigerators. Rubber is also found in common household items such as erasers, elastic bands, and vulcanized fountain pens. Foam rubber is used to make mattresses, and rubber hot water bottles are essential in colder climates.

Rubber is also used in unexpected ways. Rubber is also used to make raincoats, and it is used in the manufacture of balls, from beach balls to golf balls. It is even used in furniture and gymnastic equipment. Rubber is an essential component of transportation. Pneumatic tires, first patented by J.B. Dunlop in 1888, are used on motor vehicles, and rubber is used in the construction of roads, pavements, and the steps of buses and trams. Rubber bearing springs and sealing systems in the rake mechanisms of airplanes, ships, and cars add considerably to our comfort.

Rubber also plays a role in healthcare. It is used for soundproof flooring, tyres on wheelchairs, and rubber rollers on beds and trolleys in hospitals. Rubber is waterproof, which makes it ideal for use in medical environments.
In short, rubber has become an essential part of modern life, serving us in countless ways. From household items to transportation, and from healthcare to agriculture, rubber's versatility has made it an indispensable material.

SubQuestion No : 17

Q.17 Identify the inferences drawn from the passage

Ans   ✗ 1. Rubber is not easily found in household items and thus is quite expensive

   ✗ 2. Rubber is not and indispensable material and can be easily replaced by other materials

   ✔ 3. From household items to transportation, and from healthcare to agriculture, rubber's versatility has made it an indispensable material

   ✗ 4. Rubber bearing springs and sealing systems are the only source of comfort

Q.19 **Identify the central theme of the passage**

Ans   ✗ 1. Rubber is an expensive material and should not be used

   ✓ 2. Various form of rubber and its versatile uses are great for modern life

   ✗ 3. Rubber cannot be found in practically every aspect of our lives

   ✗ 4. Rubber plays an important role only in healthcare industry

Question ID : **630680312146**
Option 1 ID : **6306801214477**
Option 2 ID : **6306801214478**
Option 3 ID : **6306801214480**
Option 4 ID : **6306801214479**
Status : **Answered**
Chosen Option : **2**

Comprehension:

Rubber, once a natural resource found only in Brazil and South America, has become an indispensable part of modern life.. The demand for rubber has grown to such an extent that synthetic and man-made rubber are now being produced on a large scale to keep up with it.

Rubber can be found in practically every aspect of our lives. In our homes, it can be found on radios, televisions, telephones, and electric appliances such as irons, toasters, and coffee percolators. It is used in kitchen appliances such as vacuum cleaners and refrigerators. Rubber is also found in common household items such as erasers, elastic bands, and vulcanized fountain pens. Foam rubber is used to make mattresses, and rubber hot water bottles are essential in colder climates.

Rubber is also used in unexpected ways. Rubber is also used to make raincoats, and it is used in the manufacture of balls, from beach balls to golf balls. It is even used in furniture and gymnastic equipment. Rubber is an essential component of transportation. Pneumatic tires, first patented by J.B. Dunlop in 1888, are used on motor vehicles, and rubber is used in the construction of roads, pavements, and the steps of buses and trams. Rubber bearing springs and sealing systems in the rake mechanisms of airplanes, ships, and cars add considerably to our comfort.

Rubber also plays a role in healthcare. It is used for soundproof flooring, tyres on wheelchairs, and rubber rollers on beds and trolleys in hospitals. Rubber is waterproof, which makes it ideal for use in medical environments.
In short, rubber has become an essential part of modern life, serving us in countless ways. From household items to transportation, and from healthcare to agriculture, rubber's versatility has made it an indispensable material.

SubQuestion No : 20

Q.20 Identify the suitable title for the passage

Ans ✔ 1. The Versatility of Rubber in Modern Life

✘ 2. Evolution of Rubber in Human life

✘ 3. Rubber and its usage

✘ 4. Healthcare & Rubber
