Section - I (English)

Q.No: 1 Choose the correct part of speech for the underlined word in the sentence.

He walked quickly to catch the bus.

Verb

Adverb

Adjective

Q.No: 2 Read the following paragraph and then answer the questions given below by choosing the most appropriate option based on what is said in the paragraph:

Technology and its Impact

Technology has become an integral part of our daily lives, shaping the way we work, communicate, and access information. With the rapid advancement of digital technologies, the world has witnessed a paradigm shift in various sectors. From healthcare to education, technology has played a pivotal role in transforming traditional practices. While it brings convenience and efficiency, there are concerns about its impact on privacy and the need for ethical considerations in its development.

How has technology impacted various sectors?

Negatively

Positively

Indifferently

Unpredictably

Not Answered

Q.No: 3 Read the following paragraph and then answer the questions given below by choosing the most appropriate option based on what is said in the paragraph:

Technology and its Impact

Technology has become an integral part of our daily lives, shaping the way we work, communicate, and access information. With the rapid advancement of digital technologies, the world has witnessed a paradigm shift in various sectors. From healthcare to education, technology has played a pivotal role in transforming traditional practices. While it brings convenience and efficiency, there are concerns about its impact on privacy and the need for ethical considerations in its development.

What phrase describes the speed of technological advancement?

Gradual improvement

Paradigm shift

Consistent decline

Traditional practice

Q.No: 4 Read the following paragraph and then answer the questions given below by choosing the most appropriate option based on what is said in the paragraph:

Technology and its Impact

Technology has become an integral part of our daily lives, shaping the way we work, communicate, and access information. With the rapid advancement of digital technologies, the world has witnessed a paradigm shift in various sectors. From healthcare to education, technology has played a pivotal role in transforming
