

OICL AO Mains 2026 Reasoning Memory Based (28 feb 2026) Quiz Part C

Q.1 Who among the following was born on 27th May?

Study the following information carefully and answer the questions given below.

Ten persons – A, B, C, D, E, F, G, H, I and J – were born on two different dates: 12th and 27th of the months January, April, May, August, and October of the same year.

D was born on an even date in the month having odd number of days. Four persons were born between D and B. More than three persons were born between B and C. One person was born between C and E but on the same date. C was not born before May. As many persons were born before E as after J. J was not born in the month of January month. A was born three months before F. Three persons were born between A and H. H and G were born on the same date. G was not born in the month of May.

- A. E
- B. D
- C. I
- D. H
- E. F

Answer: C

Sol: Final Arrangement is here:

Months	Dates	Persons
January	12	A
	27	B
April	12	J
	27	F
May	12	H
	27	I
August	12	D
	27	E
October	12	G
	27	C

Clues: D was born on an even date in the month having odd number of days. Four persons were

born between D and B. More than three persons were born between B and C. One person was born between C and E but on the same date. C was not born before May.

Inference: Here we get two possible cases here:

Months	Dates	Persons	Persons
		Case 1	Case 2
January	12		
	27	B	
April	12		
	27		B
May	12		
	27	E/	
August	12	D	
	27	C/E	E
October	12		D
	27	C/	C

Clues: As many persons were born before E as after J. J was not born in the month of January month. A was born three months before F. Three persons were born between A and H. H and G were born on the same date. G was not born in the month of May.

Inference: Case 2 gets cancelled here:

I was born on 27th May

Q.2 Which among the following statement(s) is/are true?

- I. G was born in the month of October.
- II. The number of persons born after H is one more than the number of persons born before D.
- III. B was born after J

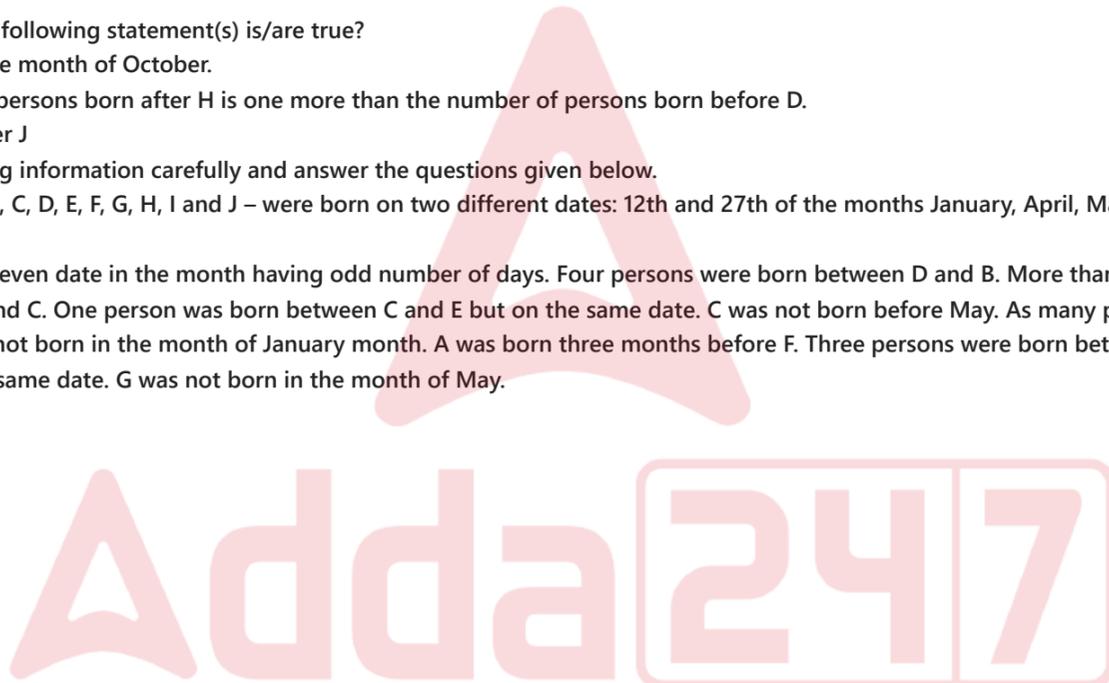

Study the following information carefully and answer the questions given below.

Ten persons – A, B, C, D, E, F, G, H, I and J – were born on two different dates: 12th and 27th of the months January, April, May, August, and October of the same year.

D was born on an even date in the month having odd number of days. Four persons were born between D and B. More than three persons were born between B and C. One person was born between C and E but on the same date. C was not born before May. As many persons were born before E as after J. J was not born in the month of January month. A was born three months before F. Three persons were born between A and H. H and G were born on the same date. G was not born in the month of May.

- A. Only III
- B. Only II
- C. Both I and II
- D. Only I
- E. All I, II and III

Answer: D

Sol: Final Arrangement is here:

Months	Dates	Persons
January	12	A
	27	B

	27	E
October	12	G
	27	C

Three persons were born between B and I.

Q.4 On which date and in which month was E born?

Study the following information carefully and answer the questions given below.

Ten persons – A, B, C, D, E, F, G, H, I and J – were born on two different dates: 12th and 27th of the months January, April, May, August, and October of the same year.

D was born on an even date in the month having odd number of days. Four persons were born between D and B. More than three persons were born between B and C. One person was born between C and E but on the same date. C was not born before May. As many persons were born before E as after J. J was not born in the month of January month. A was born three months before F. Three persons were born between A and H. H and G were born on the same date. G was not born in the month of May.

- A. 12th April
- B. 27th August
- C. 27th January
- D. 12th October
- E. 12th August

Answer: B

Sol: Final Arrangement is here:

Months	Dates	Persons
January	12	A
	27	B
April	12	J
	27	F
May	12	H
	27	I
August	12	D
	27	E
October	12	G
	27	C

Clues: D was born on an even date in the month having odd number of days. Four persons were

born between D and B. More than three persons were born between B and C. One person was born between C and E but on the same date. C was not born before May.

	27	E
October	12	G
	27	C

E was born on 27 August

Q.5 The number of persons born between J and C is _____ the number of persons born between E and F.

Study the following information carefully and answer the questions given below.

Ten persons – A, B, C, D, E, F, G, H, I and J – were born on two different dates: 12th and 27th of the months January, April, May, August, and October of the same year.

D was born on an even date in the month having odd number of days. Four persons were born between D and B. More than three persons were born between B and C. One person was born between C and E but on the same date. C was not born before May. As many persons were born before E as after J. J was not born in the month of January month. A was born three months before F. Three persons were born between A and H. H and G were born on the same date. G was not born in the month of May.

- A. Twice
- B. Equal to
- C. One more than
- D. Two less than
- E. One less than

Answer: A

Sol: Final Arrangement is here:

Months	Dates	Persons
January	12	A
	27	B
April	12	J
	27	F
May	12	H
	27	I
August	12	D
	27	E
October	12	G
	27	C

Clues: D was born on an even date in the month having odd number of days. Four persons were

born between D and B. More than three persons were born between B and C. One person was born between C and E but on the same date. C was not born before May.

Months	Dates	Persons	Persons
