\* Note  
Correct Answer will carry 1 mark per Question.  
Incorrect Answer will carry 1/3 Negative mark per Question.

- Options shown in green color with a tick icon are correct.
- Chosen option on the right of the question indicates the option selected by the candidate.

Section : General Ability

**Q.1** A concave mirror with a focal length 'f' is cut into two equal halves along the principal axis. What happens to the focal length of each half?

- Ans
- 1. It doubles to 2f.
  - 2. It remains f.
  - 3. It becomes undefined.
  - 4. It becomes f/2.

**Q.9** Two sets of numbers are given below. In each set of numbers, certain mathematical operation(s) on the first number results in the second number. Similarly, certain mathematical operation(s) on the second number results in the third number and so on. Which of the given options follows the same set of operations as in the given sets?

(Note: Operations should be performed on the whole numbers, without breaking down the numbers into their constituent digits. E.g., 13 – Operations on 13 such as adding/subtracting/multiplying to 13 can be performed. Breaking down 13 into 1 and 3 and then performing mathematical operations on 1 and 3 is not allowed.)

155 – 125 – 100 – 80; 125 – 95 – 70 – 50

Ans  1. 95 – 70 – 45 – 35

2. 100 – 70 – 45 – 25

3. 140 – 110 – 85 – 60

4. 80 – 50 – 35 – 15
