Q.2 Which of the following statements best describes the mechanism of acid-base catalysis in the hydrolysis of esters?

- Ans  1. The acid catalyst donates an electron pair to the carbonyl group, decreasing its reactivity.
2. A proton is transferred from the acid catalyst to the carbonyl oxygen, increasing electrophilicity and facilitating nucleophilic attack.
3. The base catalyst adds a hydroxide ion to the ester, forming a stable intermediate that halts the reaction.
4. The base catalyst removes a proton from the alcohol group, reducing nucleophilicity and inhibiting the reaction.

Question Type : MCQ  
Question ID : 4410091702406  
Option 1 ID : 4410096714850  
Option 2 ID : 4410096714851  
Option 3 ID : 4410096714853  
Option 4 ID : 4410096714852  
Status : Answered  
Chosen Option : 3

Q.48 In the context of alphabetical classification, what is the primary advantage?

- Ans  1. Easy retrieval of drug information  
 2. Biological source can be traced  
 3. Previous and successive drug entries are related  
 4. Pharmacological action of drugs can be identified

Question Type : MCQ  
Question ID : 4410091561851  
Option 1 ID : 4410096169183  
Option 2 ID : 4410096169185  
Option 3 ID : 4410096169182  
Option 4 ID : 4410096169184  
Status : Answered  
Chosen Option : 1

Q.49 Which of the following is NOT typically considered an Operational Qualification test for an HPLC unit?

- Ans  1. Gradient linearity  
 2. Detector wavelength accuracy  
 3. Routine analytical tests  
 4. Pump flow rate

Question Type : MCQ  
Question ID : 4410091558147  
Option 1 ID : 4410096154923  
Option 2 ID : 4410096154920  
Option 3 ID : 4410096154922  
Option 4 ID : 4410096154921  
Status : Answered  
Chosen Option : 2

Q.50 Which of the following best describes the difference between the alphabetical classification of drugs in the European Pharmacopoeia and the United States Pharmacopoeia (U.S.P.)?

- Ans
- 1. U.S.P. uses scientific names, European Pharmacopoeia uses common names
  - 2. European Pharmacopoeia uses Latin names, U.S.P. uses English names
  - 3. Both use English names
  - 4. Both use Latin names

Question Type : MCQ

Question ID : 4410091702669

Option 1 ID : 4410096715877

Option 2 ID : 4410096715874

Option 3 ID : 4410096715875

Option 4 ID : 4410096715876

Status : Answered

Chosen Option : 1

Q.51 Which of the following routes is considered a non per oral extravascular route for drug absorption?

- Ans
- 1. Gastric
  - 2. Oral
  - 3. Intravenous
  - 4. Buccal

Question Type : MCQ

Question ID : 4410091713671

Option 1 ID : 4410096758763

Option 2 ID : 4410096758761

Option 3 ID : 4410096758762

Option 4 ID : 4410096758760

Status : Answered

Chosen Option : 1

Q.52 In a clinical scenario where bacteria produce aminoglycoside acetyltransferase, which aminoglycoside would likely retain efficacy and why?

- Ans
- 1. Gentamicin, because it has no amino groups
  - 2. Amikacin, due to its L-hydroxyaminobutyryl group at N-1
  - 3. Streptomycin, due to absence of 2-deoxystreptamine nucleus
  - 4. Neomycin, due to its high polarity

Question Type : MCQ

Question ID : 4410091695975

Option 1 ID : 4410096689875

Option 2 ID : 4410096689874

Option 3 ID : 4410096689876

Option 4 ID : 4410096689877

Status : Not Answered

Chosen Option : --

Q.53 Which statement best describes Bronsted acids in the context of acid catalysis?

- Ans
- 1. Bronsted acids are only H<sup>+</sup> ions
  - 2. Bronsted acids are proton acceptors
  - 3. Bronsted acids are always undissociated
  - 4. Bronsted acids are proton donors that can cause acid catalysis

Question Type : MCQ

Question ID : 4410091714246

Option 1 ID : 4410096760899

Option 2 ID : 4410096760896

Option 3 ID : 4410096760897

Option 4 ID : 4410096760898

Status : Answered

Chosen Option : 2

Q.54 Which of the following acids has the lowest pKa value, indicating the highest acid strength?

- Ans
- 1. Acetic acid
  - 2. Sulphuric acid
  - 3. Formic acid
  - 4. Citric acid

Question Type : MCQ

Question ID : 4410091557606

Option 1 ID : 4410096152720

Option 2 ID : 4410096152721

Option 3 ID : 4410096152722

Option 4 ID : 4410096152723

Status : Answered

Chosen Option : 1

Q.55 Which of the following concentration range of sucrose acts as a self preservative in monophasic liquid dosage forms?

- Ans
- 1. 60-85%
  - 2. 20-30%
  - 3. 40-45%
  - 4. 50-55%

Question Type : MCQ

Question ID : 4410091589283

Option 1 ID : 4410096277720

Option 2 ID : 4410096277723

Option 3 ID : 4410096277722

Option 4 ID : 4410096277721

Status : Answered

Chosen Option : 1

**Q.56** Methotrexate and Riboflavin are unsuitable for sustained release because they are absorbed through:

- Ans
- 1. Passive diffusion
  - 2. Pinocytosis
  - 3. Paracellular diffusion
  - 4. Active transport

Question Type : MCQ

Question ID : 4410091560078

Option 1 ID : 4410096162434

Option 2 ID : 4410096162437

Option 3 ID : 4410096162436

Option 4 ID : 4410096162435

Status : Not Answered

Chosen Option : --

**Q.57** How can temperature fluctuations during storage destabilize a suspension?

- Ans
- 1. They can cause particle growth or Ostwald ripening, affecting particle size distribution and polymorphic form.
  - 2. They increase the viscosity of the suspension, making it more stable.
  - 3. They permanently eliminate all risks of particle caking.
  - 4. They make all particles dissolve completely.

Question Type : MCQ

Question ID : 4410091701354

Option 1 ID : 4410096710730

Option 2 ID : 4410096710733

Option 3 ID : 4410096710731

Option 4 ID : 4410096710732

Status : Not Answered

Chosen Option : --

**Q.58** Evaluate the following scenario: An elderly patient is prescribed a high-fibre diet for chronic constipation. Which precaution should be emphasized to avoid adverse effects?

- Ans
- 1. Increase fibre intake rapidly to maximize benefits.
  - 2. Restrict fibre intake if taking calcium supplements to prevent mineral binding interactions.
  - 3. Ensure adequate fluid intake to prevent gastrointestinal obstruction.
  - 4. Take fibre supplements immediately before bedtime to enhance overnight bowel movement.

Question Type : MCQ

Question ID : 4410091696113

Option 1 ID : 4410096690375

Option 2 ID : 4410096690377

Option 3 ID : 4410096690374

Option 4 ID : 4410096690376

Status : Not Answered

Chosen Option : --

**Q.59** What is the primary purpose of using chemical methods in sterilization?

- Ans
- 1. To remove toxic residues
  - 2. To improve nutrient content of media
  - 3. To eliminate microorganisms
  - 4. To remove visible dirt

Question Type : MCQ  
 Question ID : 4410091589456  
 Option 1 ID : 4410096278415  
 Option 2 ID : 4410096278414  
 Option 3 ID : 4410096278413  
 Option 4 ID : 4410096278412  
 Status : Answered  
 Chosen Option : 3

**Q.60** When submitting a herbal medicinal product for marketing authorization in Europe requiring efficacy comparable to conventional medicines, which guideline applies?

- Ans
- 1. ICH Q10 Pharmaceutical Quality System
  - 2. EU Regulation 536/2014 on clinical trials
  - 3. ICH S7A Safety Pharmacology Studies
  - 4. EU Directive 2001/83/EC as amended by Directive 2004/24/EC

Question Type : MCQ  
 Question ID : 4410091696235  
 Option 1 ID : 4410096690843  
 Option 2 ID : 4410096690844  
 Option 3 ID : 4410096690845  
 Option 4 ID : 4410096690842  
 Status : Answered  
 Chosen Option : 2

**Q.61** A patient with significant weight loss due to cancer is started on an appetite stimulant. Which of the following drugs, a progestational agent, is most appropriate for this indication?

- Ans
- 1. Naltrexone
  - 2. Lorcaserin
  - 3. Orlistat
  - 4. Megestrol acetate

Question Type : MCQ  
 Question ID : 4410091689288  
 Option 1 ID : 4410096663573  
 Option 2 ID : 4410096663572  
 Option 3 ID : 4410096663571  
 Option 4 ID : 4410096663570

 Chosen Option : 1

Q.62 Which of the following best defines a drug?

- Ans
- 1. A substance that causes addiction
  - 2. A substance used to diagnose, prevent, or treat diseases
  - 3. A chemical used in laboratory experiments
  - 4. A nutrient essential for growth

Question Type : MCQ

Question ID : 4410091689119

Option 1 ID : 4410096662921

Option 2 ID : 4410096662918

Option 3 ID : 4410096662920

Option 4 ID : 4410096662919

Status : Answered

Chosen Option : 2

Q.63 A pharmacist is tasked with choosing an appropriate indicator for titrating a weak acid with a strong base. Which factor should most influence their choice?

- Ans
- 1. The cost of the indicator
  - 2. The container material used
  - 3. The pH range at the equivalence point
  - 4. The color of the indicator

Question Type : MCQ

Question ID : 4410091598874

Option 1 ID : 4410096315290

Option 2 ID : 4410096315292

Option 4 ID : 4410096315289

Status : Answered

Chosen Option : 3

Q.64 Which property makes glutaraldehyde suitable for sterilizing medical equipment?

- Ans
- 1. Low boiling point for easy evaporation
  - 2. Broad-spectrum antimicrobial action including spores
  - 3. Selective activity against spores only
  - 4. Narrow-spectrum antimicrobial action

Question Type : MCQ

Question ID : 4410091589457

Option 1 ID : 4410096278417

Option 2 ID : 4410096278418

Option 3 ID : 4410096278416

Option 4 ID : 4410096278419

Status : Not Answered

Chosen Option : --

Q.65 A pharmacist needs to distinguish between an unknown sample of aldehyde and ketone. Which chemical test would provide a positive result only for aldehydes and not for ketones?

- Ans
- 1. Iodoform test
  - 2. Sodium nitroprusside test
  - 3. Schiff's test
  - 4. Tollen's reagent test

Question Type : MCQ  
Question ID : 4410091599158  
Option 1 ID : 4410096316422  
Option 2 ID : 4410096316421  
Option 3 ID : 4410096316420  
Option 4 ID : 4410096316419  
Status : Answered  
Chosen Option : 3

Q.66 A pharmacy student is given a list of medicinal plants and asked to organize them for quick reference in a drug store. Which classification system should he use to ensure drugs are easy to locate ?

- Ans
- 1. Taxonomical classification
  - 2. Alphabetical classification
  - 3. Morphological classification
  - 4. Chemical classification

Question Type : MCQ  
Question ID : 4410091599488  
Option 1 ID : 4410096317737  
Option 2 ID : 4410096317735  
Option 3 ID : 4410096317736
