Comprehension:

Read the given passage and answer the questions that follow.

Every morning, Sana packed two small lunch boxes before leaving for school. One was for herself, and the other was for anyone who might need it. Her mother had taught her that food should never be wasted when someone nearby was hungry. One Monday, a new student named Raju joined her class. He sat quietly during lunch and said he was not hungry. Sana noticed him looking at other children eating. Without asking embarrassing questions, she placed her extra lunch box beside him and invited him to share. Raju smiled and ate gratefully. Over the next week, Sana learned that his family had recently moved and was facing difficulties. She spoke privately to her teacher. Soon, the school arranged meal support for Raju without making him feel different. Other students began bringing fruit or healthy snacks for a common sharing basket. Raju slowly became cheerful and made friends. At the annual assembly, the teacher praised the class for acting kindly. Sana understood that helpfulness is not about receiving attention. It is about noticing another person's need and responding with respect. The lesson stayed with everyone. Their example inspired many others. The result proved that patient effort can solve difficult problems.

SubQuestion No : 17

Q.17 Why did Sana pack two lunch boxes?

- Ans
- ☒ 1. She gave one to her teacher.
 - ☒ 2. She took one home after school.
 - ☒ 3. She kept one for anyone who needed food.
 - ☒ 4. She ate two meals at school.
