ENGLISH

1. Read the passage given below and answer the question choosing one from the alternatives given :

The aim of the scientist is to say only one thing at a time and to say it unambiguously, and with the greatest possible clarity. To achieve this, he simplifies and jargonizes. In other words he uses the vocabulary and the syntax of common speech in such a way that each phrase is susceptible to only one interpretation; and when the vocabulary and syntax of common speech are too imprecise for his purpose, he invites a new technical language, or jargon specially designed to express the limited meaning with which he is professionally concerned.

Directions : Read the following passage carefully and answer the questions 98, 99 and 100, given below in the context of the passage.

Nelson Mandela was at one time the most famous prisoner in the world.

Early in life, he joined a law firm in Johannesburg as an apprentice, where he was exposed to the inhumanities of apartheid.

Instead of choosing an easy life as a lawyer, he joined the Youth League of the African National Congress and became involved in programs of passive resistance.

His activities landed him in prison. Instead of being crushed he embarked on a system of self-education. The prison came to be known as "Island University". Previously barren recreation hours were filled with cultural activities.

After more than two decades in prison, he was escorted to the State President's Office, where he negotiated not only his own release but also the nation's transition from apartheid to democracy.

99. The Youth League was involved in

- (A) The transition to democracy
- (B) Self - education
