Read the passage carefully. The passage is followed by three questions based on it. Alternative answers have been given for each question. Select the most suitable answer from the alternatives.

PASSAGE

There is nothing which we receive with so much reluctance as advice. We look upon the man who gives it as offering an affront to our understanding and intelligence, treating us as children or idiots. We consider the instruction as an implicit censure. There is nothing so difficult as the art of making advice agreeable. All the writers both ancient and modern, have distinguished themselves according to their perfection in their art. Great writers made use of different devices to render the bitter potion palatable. Some made use of best chosen words, others, through flash of wit, and still others by using precise expressions like proverbs. The best means, however, is the use of fable. A fable pleases most universally. A fable is not directly related to our everyday world nor does it contain any direct attack.

28. Why do people dislike advice ?

- (A) People think they are underrated in their intelligence and understanding.
- (B) Advice are considered old-fashioned and unnecessary.
- (C) People do not understand advice.
- (D) People think they already know all about it.

29. In what ways have authors tried to make advice palatable ?

- (A) By quoting from religious and other important texts
- (B) With help from the rulers.
- (C) By presenting advice through finest poetry.
- (D) Through use of chosen words, show of wit and by using short and precise expressions as used in proverbs and fables.

30. Why is a fable so popular ?

- (A) Because they come from great ancient writers.
- (B) Because it is a complete story.
- (C) Because they present an imaginary world and the criticism contained in them is never direct.
- (D) Fables are familiar all over the world, having the same subject.
