Key facts:

- According to the World Health Organization (WHO) recommendation - daily salt intake up to 5 g is good.
- Daily salt intake in India stands at 8 g (8.9 g a day for men and 7.1 g a day for women)

Centre softens angel tax rules

About Angel Tax:

- A term used to refer to the **income tax payable on the capital raised by unlisted companies**.
- It is levied on the capital raised via the issue of shares from an Indian investor.
- This tax predominantly affects start-ups and the angel investments they attract.
- It derives its genesis from section 56(2) (viib) of the Income Tax Act, 1961.

In news: The government has eased some of the provisions of the angel tax introduced in this year’s Budget on investments into start-ups by non-resident investors at a premium over their fair market value.
