Telangana State Regional News

<p>National Informatics Centre (NIC)</p>	<p>Why in news?</p> <ul style="list-style-type: none"> The state government has chosen to enlist the National Informatics Centre (NIC) for the operation and maintenance of the Dharani portal, with an initial contract period of three years that can be extended for an additional two years. <p>Key Points:</p> <ul style="list-style-type: none"> The National Informatics Centre (NIC) was established in 1976 by Narasimaiah Seshagiri. It is the technology partner of the Government of India and has been credited for helping the Indian government embrace IT in the 1990s and has also helped disseminate e-governance to the masses. NIC's objective is to provide technology-driven solutions to the Central and State Governments. It is mandated to design and develop IT Systems for the government and provide ICT Infrastructure to the government. It also works as an advisory unit for the government over the adoption of the latest technology and ensuring cyber resilience. <p>Do you know?</p> <ul style="list-style-type: none"> Dharani was designed to implement Integrated Land Records Management System (ILRMS).
<p>Revitalizing Rivers: Telangana's Ambition Inspired by Seoul's Great Hangang Project</p>	<p>Why in news?</p> <ul style="list-style-type: none"> Telangana intends to replicate the 'Miracle of the Han' at Musi. Seoul, the capital of South Korea, has initiated the second phase of its riverfront development, called the Great Hangang Project (GHP). Telangana's Musi River is in a condition that falls between the Cheonggyecheon and Hangang rivers, as it requires both revival and development. <p>Key Points:</p> <ul style="list-style-type: none"> The Great Hangang Project (GHP) is a plan to improve the Hangang River in Seoul, South Korea, and the quality of life for its citizens. It aims to improve the river's attractiveness and convenience, while also respecting the natural ecosystem. The GHP includes 55 projects that focus on four core strategies: nature, transportation, attractions, and

<p>Mission Mausam & Deep Ocean Mission</p>	<p>vitality.</p> <p>Why in news?</p> <ul style="list-style-type: none"> India plans to establish permanent platforms in the Indian Ocean for continuous, long-term observation of both oceanic and atmospheric profiles under the 'Mission Mausam' and 'Deep Ocean Mission. <p>Key Points:</p> <ul style="list-style-type: none"> Mission Mausam: <ul style="list-style-type: none"> It is envisaged to be a multi-faceted and transformative initiative to tremendously boost India's weather and climate-related science, research, and services. It will exponentially expound research and development, and capacity in atmospheric sciences, especially weather surveillance, modeling, forecasting, and management. By integrating advanced observation systems, high-performance computing, and cutting-edge technologies like artificial intelligence and machine learning. Deep Ocean Mission: <ul style="list-style-type: none"> It is a mission-mode project to support the Blue Economy Initiatives of the Government of India. It is a high-level multi-ministerial, multi-disciplinary programme for a better understanding of the deep sea living and non-living resources of the Indian Ocean. It will aid in India's efforts to attain the Blue Economy status. It aims to develop technologies to harness living and non-living resources from the deep oceans. The Ministry of Earth Sciences (MoES) will be the nodal Ministry implementing this multi-institutional Mission.
<p>Young India Police School</p>	<p>Why in news?</p> <ul style="list-style-type: none"> The Telangana government has approved the establishment of a Young India Police School in Rangareddy for the children of uniformed service personnel. <p>Key Points:</p> <ul style="list-style-type: none"> The school will provide schooling for the offspring of serving personnel including the state police, police martyrs, fire services, excise, special police force, and prison officers. It also aims to provide the students with world-class
